Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 4642, dated 10th November 1911, from the Revenue Commissioner in Mysore, forwarding the Mysore District Deputy Commissioner's letter No. 213, dated 3rd November 1911, reporting on the Cattle Show held at Nanjangud, during the jatra in April 1911.

No. 4771-4—L. B. 152-11-2, DATED BANGALORE, 17TH JANUARY 1912.

ORDER THEREON.—Recorded.

2. It is observed that the cattle were not classified according to breed or age for the purpose of awarding prizes and that the number of prizes being large, the value of each prize was small. It would have been better if the prizes had been limited to a few cattle of the better breed. It is noted that in spite of the prevalence of plague, the Show was a success and that a good number of non-official gentlemen evinced interest in the Show.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Report on the Cattle Show at Nanjangud Town between the 9th and 11th of April 1911, during the Dodda Jatra of Sri Srikanteswaraswami.

As notified by the President, District Fund Board, Mysore, the Cattle Show was commenced simultaneously with the jatra on the 9th April 1911 and closed on the 10th instant. The cattle began to pour in from all parts of the taluk on the evening of the 8th April 1911. A few cattle were also exhibited from other taluks of this district. Printed copies of notification in Kanarese and in English were issued to all the taluks of this district twenty days prior to the Show.

1. *Committee of management.*—A Committee consisting of the following members was formed to judge the cattle deserving prizes :—

1. The Sub-Division Officer.
2. Mr. Guru Rao, Pleader.
3. ,, Venkatasami Aiyar, Advocate.
4. ,, Bandaiya, Municipal Councillor.
5. ,, Gulaiya.
6. Mr. Lingannaiya.
7. ,, Nanjappa, Patel, Devanur.
8. ,, Karavanahalli Honnappa.
9. ,, Nagarle Doddanagappa.
10. ,, Goddanpur Abdul Razack.

These members were mostly from agricultural classes, such as patels, shanbhogs and some of the leading non-official members of the town. The power to award prizes was solely vested in the hands of the Managing Committee.

2. *Number of cattle exhibited.*—The number of cattle exhibited was 326 in all which comprised of as follows :—

Ploughing or driving bullocks	284
Breeding bulls	14
Bull calves	16
Cows	12
Total ...	326

The number of cattle exhibited this year was much less than that of last year. The cause may, however, be attributed chiefly to the outbreak of plague at Nanjangud this year some days previous to the jatra.

3. *Number of cattle selected.*—Out of the 326 cattle that were exhibited, 164 were selected for prizes by the Managing Committee after inspection. The above number comprised of ploughing or driving bullocks, breeding bulls, bull calves and cows.

4. *Number of prizes awarded.*—The number of prizes awarded was 82, the amount of prizes ranging from Re. 1 to Rs. 5 each. The prizes awarded were—

Twenty-three of Re. 1 each, 52 of Rs. 2 each, 5 of Rs. 3 each, 1 of Rs. 4 and 1 of Rs. 5, making a total of Rs. 151.

The Government were pleased to sanction Rs. 50 from District Funds for awarding prizes. This amount together with the sum of Rs. 101 contributed voluntarily by the assembled people was available for distribution. As per notification issued, there ought to have been only 11 prizes in all amounting to Rs. 110. With a view to encourage the raiyats in general, it was so arranged that every village that exhibited cattle should get a prize for the best cattle. The prizes awarded were not strictly confined to this taluk alone. The highest prize of Rs. 5 was carried away by a raiyat who exhibited a pair of bullocks which was judged to be the best from Kannegowdankoppal, Mysore Taluk, and another pair from the same place got Rs. 2. A prize of Rs. 3 was awarded to a pair of bullocks exhibited

from T.-Narsipur Taluk, while Gundlupet and Chamrajnagar Taluks got prizes of Rs. 2 and Rs. 4 in their turn. It may thus be seen that Rs. 16 out of Rs. 151 were given away as prizes to cattle exhibitors who came from other taluks. Mr. T. K. Sundararaja Iyengar, Sub-Division Officer, Nanjangud, presented the money prizes to the winners in person with the printed certificates in Kanarese. The prizes given away were distributed as follows :—

Rs. 43 for the best bullocks, the prizes ranging from Rs. 5 to Re. 1 a pair.
Rs. 4 for the best breeding bulls at Rs. 2 each.
Rs. 30 for the best bull calves, the prizes ranging from Rs. 3 to Re. 1 a pair.
Rs. 4 for the best cows, the prizes ranging from Rs. 2 to Re. 1.

5. *Place of Cattle Show and its suitability as regards water-supply and other sanitary requirements.*—The place selected for the Show was in the Jogi Tope on the banks of the Kapila river in the town of Nanjangud, as usual. The exhibition ground afforded ample shade and the supply of water was, of course, from the Kapila river which is only a few yards distant from the Show grounds.

The cattle were tethered as per plan prepared and marked on the ground; 12′ × 9′ space being provided for a pair of bullocks. A register showing the description of cattle, their owners, breed, etc., was maintained and every head of cattle that was allowed to the Show was duly registered and a chit given to the owner of the cattle to be pasted on the horns with reference to the serial numbers in the register.

The services of seven temporary sweepers sanctioned from Municipal Funds for Sri Srikanteswaraswami Dodda Jatra were also utilized and the exhibition ground was kept neat and tidy. Six temporary latrines were constructed at a cost of Rs. 15 to meet the requirements of the people and all the sanitary arrangements made were satisfactory.

6. *Total receipts, viz., from fees, private subscriptions and contributions.*—Since the Cattle Show is in its infant stage no fees were levied on cattle. The matter may be taken up when keen competition is found in the people.

8. *Concluding remarks.*—A gentle outbreak of plague in Nanjangud Town and 4 or 5 stray cases in a fortnight previous to the Dodda Jatra filled the minds of the people with consternation in and outside the taluk and this was the chief reason why so many cattle as that of last year were not exhibited. The number brought to the Show this year was 326 as against 575 of last year. The prizes given were Rs. 151 in all as against Rs. 232 of last year. Out of the number of cattle exhibited this year, a great many belonged to Chikkaiyana Chattra hobli and Kowlande ranked second. Two pairs of agricultural bullocks were exhibited from Mysore Taluk and two from Chamrajnagar, Gundlupet and T.-Narsipur Taluks exhibited a pair each. The fact that a large number of cattle from all hoblis and even from the surrounding taluks, were brought to the Show is in itself a proof that the people have now been realizing the importance of cattle shows and I may state that the quality and usefulness of the breed exhibited this year was superior to that of last year. There is no doubt that a comparatively finer breed may be exhibited next year.

Mr. Narasimha Iyengar, Inspector of Cattle Diseases, was also present on the scene. He was also one of the Judges in awarding prizes for the best cattle. He gave a short and useful speech in Kanarese to the raiyats on the advantages accruing from rearing fine breed of cattle.

The Taluk officials, Shekdars and others who were deputed for this work, discharged their duties satisfactorily. The prizes were given away under a special pendal temporarily erected for the purpose and under the Presidentship of Mr. T. K. Sundararaja Iyengar, Sub-Division Officer, Nanjangud, and a large concourse of people assembled, including Municipal Councillors, the leading pleaders, patels and shanbhogs, the whole thing was a thorough success.

No. R. 4444—Agri. 101-11-2, dated 23rd February 1912.

The following Resolution of the Government of India, No. 866-886-10, dated the 29th January 1912, regarding the Universal and International Exhibition to be held in Ghent in the year 1913, is published for general information.

By Order,

C. S. BALASUNDARAM IYER,
Officiating Secretary to Government,
General and Revenue Departments.

No. 866—886—10.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITION.

RESOLUTION.

Calcutta, the 29th January 1912.

THE following Notification of the Universal and International Exhibition to be held at Ghent in the year 1913, is published for general information.

Ghent Universal and International Exhibition organised for 1913, under the High Patronage of His Majesty the King of the Belgians.

APPEAL TO EXHIBITORS.

Ghent, 1st October 1911.

A Universal and International Exhibition will be opened in Ghent, in April 1913 and closed at the end of October of the same year.

After Brussels, Antwerp and Liege, the old Capital of Flanders in her turn, means to assert her commercial and manufacturing importance by inviting the wide world's manufacturers to her intended Exhibition.

The Exhibitions of 1885 and 1894 in Antwerp, 1897 and 1910 in Brussels, 1905 in Liege all proved to be great successes; Ghent no doubt will prove to be equal to these.

A general classification will show the following groups:—

I—Fine Arts.
II—Education.
III—Instruments and general methods connected with Letters, Sciences and Arts.
IV—Plant and general methods connected with Machinery.
V—Electricity.
VI—Civil Engineering. Means of Transport.
VII—Agriculture.
VIII—Horticulture and Arboriculture.
IX—Forests. Shooting. Hunting. Fruit gathering.
X—Articles of Food.
XI—Mines. Metallurgy.
XII—Decoration and furnishing of Public Buildings and Private Houses.
XIII—Yarns, Woven Fabrics, Wearing Apparel.
XIV—Chemical Industry.
XV—Miscellaneous Industries.
XVI—Social Economy.
XVII—Public Health. Charitable Institutions.
XVIII—Practical Education. Economic Institutions. Female Handicraft.
XIX—Trade. Colonisation.
XX—Land and Sea Forces.
XXI—Sports.
XXII—Congresses and Conferences.

Grounds of about 250 acres located in the modern part of the city, are set out for the Ghent World's Fair. The **Beautiful Park** known as the "Citadel" will be incorporated in the Exhibition grounds, the access of which will be rendered easy to visitors by the proximity of Ghent St.-Peter's station on the international line Brussels-Ostend.

Of all Belgian cities, Ghent is one of the most interesting ones from an *artistic* and *archæological* point of view. Her "Chateau des Comtes," Belfry and City-Hall, her opulent churches, the Halls of ancient Corporations, the Ruins of St-Bavon's Abbey, her Beguinages and Museums attract every year a crowd of tourists and visitors.

By the side of the city of the past a modern city has risen as a first class manufacturing and commercial centre. The importance of her textile industry has won for her the name of "Belgian Manchester."

Her machine building enjoys a European renown. She is, too, the *city of flowers* or garden-city and her quinquennial Flower-shows are famous in the horticultural world. Her beautiful harbour which communicates with the sea by one of the widest canals existing (the Terneuzen Canal) has an ever-increasing traffic.

All these and many other reasons will secure the enthusiastic co-operation of manufacturers both of the old and new world to the 1913 Exhibition.

Halls covering over 25 acres will be built for home and foreign industry. *Textiles* and *metallurgy* will be particularly represented. An Exhibition of *ancient Arts, Fine-Arts, Liberal-Arts* will attest the ever increasing influence of Art and its applications on the people's existence.

A vast Palace of *Horticulture* and *Fêtes*, built of lasting materials will stand in the middle of the Park incorporated in the Exhibition Grounds. It will be used for the Flower-show of the "Society Royale d'Agriculture et de Botanique" and other flower-shows that will constitute one of the main attractions of the Exhibition. There, also, will take place the numerous festivities contemplated for the year 1913.

In these manifestations of the economic activity of the Belgians, *Agriculture* will find a place worthy of its importance.

For the first time, too, Belgium will be revealed to the world as a *colonial Power*. A Congo Palace will show the strenuous effort made by the Belgians in their great African empire.

Large areas shall be kept for *participation of foreign countries* which even now promise to be both brilliant and numerous.

Permanent and *temporary competitions congresses* and *conferences* and artistic festivities will complete the programme of the intended Exhibition.

All kind of attractions will add to the life and picturesqueness of the Ghent World's Fair.

Special measures have been adopted as regards *danger of a conflagration*. To this end and notwithstanding the heavy expenses incurred by such decision the committee did not hesitate in deciding on the system of *isolated* pavilions and they have contracted with specialists for the establishment of the latest apparatus to prevent and oppose the kindling and extension of fire.

The Exhibition grounds will be connected to the State Railway lines.

Under patronage of the Executive Committee, a *Commercial Bureau* will be created and located in the Exhibition buildings.

In this Commercial Bureau will be centralized all particulars concerning industries represented, in this way powerfully aiding to the development of commercial or business connections among the countries participating in the Ghent Exhibition.

National commodities will travel both ways free of charge on the State Railway lines, foreign goods forwarded to the Exhibition will enjoy a *temporary exemption* of duty on condition they are re-exported.

General rules, the classification of goods and conditions of admission have been decreed.

The principle of division into national compartments, *i.e.*, the grouping of products of a same country, together with a system of general classification, has been adopted.

The charges made for plots will include all charges for general decoration and management so that exhibitors will be enabled to calculate as nearly as possible what their participation is to cost them.

A *lottery*, the prizes of which are to be bought from the exhibits will be organized under special supervision of Government.

Prizes and medals will be awarded by an *international Jury* appointed by the Government.

The Government has appointed a *Commissioner General* to act on their behalf in connection with the Executive Committee and Foreign Powers.

The Exhibition is placed under special *patronage* of *His Majesty the King of Belgians*. It is officially acknowledged by *Government* and *Municipal authorities*.

The Executive Committee warmly appeals to foreign Nations and to Belgian Exhibitors. The Ghent Exhibition must be an eloquent testimonial of the incessant progress realized by human genius.

Manufacturers and business men of the whole world—we have no doubt—will participate in large numbers to the success of the Ghent World's Fair. No concern whatever contributes like an Universal and International Exhibition to the beneficial development of exchanges and business connections among the several Nations of the world.

S. V. RAMASWAMI IYENGAR,
For *Sanitary Commissioner with the Government of Mysore.*

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 10534, dated the 16th March 1912, from the Revenue Commissioner in Mysore, submitting a report on the Cattle Show held at Ramnathpur in the Arkalgud Taluk of the Hassan District in November 1911.

---

4. The management of the show which was the first of the kind at Ramnathpur, was left chiefly to a Committee consisting mostly of leading non-officials and some officials of the taluk as per instructions contained in para 1 of Government Proceedings No. 7007-24—L. B. 180-09-3, dated 22nd February 1911, prescribing rules for regulating cattle shows, and the show was held on either side of the road leading from Ramnathpur to Basavapatna near the irrigation channel, which was considered the best available site as regards water-supply and sanitary requirements.

5. The total number of cattle exhibited on the show-grounds was 1,760 as calculated on the fees collected at the rate of one anna per head of cattle. The exhibits were mostly of Hallikar breed there being a few of the famous "Gujjainavu" breed of Nagamangala Taluk. The number of the best kinds of cattle selected for prizes out of those exhibited was 18 and prizes were awarded to the owners of these including the two special prizes offered by private individuals.

6. The total receipts from the levy of fees on shops and on cattle, private subscriptions besides the contribution of Rs. 120 paid from District Funds amounted in all to Rs. 559-6-0 out of which sum the total expenditure of Rs. 177-13-0 was met as detailed in the enclosed report, leaving a net balance of Rs. 381-9-0.

7. Considering that this was the first cattle show held at Ramnathpur where nearly 4,000 head of cattle had collected on the show grounds inclusive of cart bullocks conveying fodder for the cattle exhibited, and that trade in cattle to the extent of about Rs. 25,000 was estimated to have taken place, it may be stated that this show was attended with great success and that the subsequent shows are likely to improve considerably.

8. The number of people who assembled at Ramnathpur on the car festival day was much larger this year than in previous years, being estimated at about 25,000 which indicated that the cattle show afforded and additional attraction and most of the people took great interest in the show, particularly, the raiyat classes.

9. Lectures were delivered to the assembled raiyats both by the Assistant Veterinary Inspector of Hassan and also by Mr. K. H. Ramaiya, B.A., Secretary of the Vokkaligara Sangha and by Mr. H. Krishna Sastri of Krishnarajpete, a member of the Mysore District Board and Representative Assembly member, on the importance of cattle shows, methods to be adopted for improving the breed of cattle and arresting the spread of cattle diseases, etc. These lectures were listened to with rapt attention and the assembled people much appreciated them.

No. 7334-7—L. B. 113-11-6, dated Bangalore, the 4th April 1912.

ORDER THEREON.—Recorded.

2. Government are glad to note that the show which was the first of the kind held in the Arkalgud Taluk, was a success, and that the non-official members of the Committee of Management evinced a keen interest in getting it up.

3. It is presumed that the total receipts were credited to the District Funds and the expenditure met therefrom.

C. S. BALASUNDARAM IYER,
Officiating Secretary to Government, General and Revenue Departments.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. R. 4505-21—L. R. 132-11-1, DATED BANGALORE, 29TH FEBRUARY 1912.

ORDER.—It has come to the notice of Government that licenses to build on agricultural lands within Municipal limits have been given in some instances by the Municipal authorities without the appropriation of these lands for non-agricultural purposes having been sanctioned by the Deputy Commissioner. Attention is invited to the fact that under Section 63 of the Land Revenue Code, such appropriation can be sanctioned only by the Deputy Commissioner even though the lands lie within Municipal limits and that the licenses which the Municipal authorities are authorized to grant under Section 96 of the Municipal Regulation have regard merely to the enforcing of a due compliance with sanitary and other requirements in the formation of cities and do not dispense with the necessity to obtain the previous sanction of the Deputy Commissioner as required by Section 63, clause (2), of the Land Revenue Code.

2. In order to avoid a conflict of authority, Government are pleased to direct that no application be entertained by any Municipal Council for a license to construct buildings on agricultural land within Municipal limits unless it is accompanied by a copy of the order of the Deputy Commissioner permitting the appropriation of the land for building purposes and also by a receipt for payment of the fine, if any, imposed by the Deputy Commissioner.

3. Where the land in respect of which the application to build is made, is situated in the headquarters of a district or other town of sufficient importance, the Deputy Commissioner should, before authorizing the appropriation of the land for non-agricultural purposes under Section 63, clause (2), consult the Municipal Council concerned as to whether there is any objection to the permission applied for being granted.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

V. MUTHUSAWMY DOSS,
For *Sanitary Commissioner*,
Mysore Government.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 10535, dated the 16th March 1912, from the Revenue Commissioner in Mysore, submitting the following Report on the Cattle Show held at Hassan in January 1912 :—

1. P. R. W. Wetherall, Esq., Deputy Commissioner, Hassan, was the President of the Cattle Show Committee and Mr. Mahomed Raza, Retired Assistant Commissioner, the Vice-President and Messrs. M. Srinivasa Murti, Treasury Assistant Commissioner, and S. Venkatesaiya, Advocate, Joint Honorary Secretaries and Treasurers. All officers at the District headquarter, the Assistant Commissioner, Saklespur, the Amildars of all the taluks, the Deputy Amildar of Alur Sub-Taluk, the Municipal Councillors of Hassan Town Municipality, the Members of the District Board, the Inspector of Cattle Diseases, the Assistant Veterinary Inspector, the Superintendent of the Amrut Mahal Department, and the Assistant Engineer of Hassan Division formed the General Committee with power to add to their number.

2. An Executive Committee consisting of all the office-bearers and the following gentlemen was also formed for making satisfactory arrangements :—

1. Doctor Asirvatham.
2. The Executive Engineer.
3. The District Superintendent of Police.
4. Mr. H. Srinivasa Rao.
5. The District Excise Officer.
6. The Amildar.
7. The Assistant Veterinary Inspector.
8. Rev. H. Spencer.
9. The Taluk Sheristadar.
10. Mr. S. Ramanna.
11. Mr. B. Alasingrachar.
12. ,, H. Muthappa.
13. ,, M. Chakrapani Rao.
14. ,, M. Srikantaiya.
15. ,, Mahadevappa.
16. The Assistant Engineer, Hassan.
17. Mr. M. Lakshminarasimhachar.
18. ,, B. Suryanarainaiya.
19. ,, T. Ramaiya.
20. ,, H. V. Rangasami.

3. A prospectus showing the details of prizes offered and the conditions of the show was issued and published in the *Mysore Gazette*, and the notice of the show, in some of the leading English and Kanarese newspapers. Copies of the prospectus were also forwarded to the Deputy Commissioners of the adjoining districts and to the Amildars of the several taluks in the district.

4. *(2) Number of cattle exhibited.*—The number of cattle that were brought to the show was made out to be nearly 7,000 as against 9,000 of the previous year. The decrease is due to the fact that this was the first year in which, fees were levied on cattle admitted to the show in accordance with Government Proceedings No. 7007-24—L. B. 180-09-3, dated 22nd February 1911. Out of these 7,000 cattle that had assembled on the show grounds, 5,137 heads of cattle attended the show as exhibits and paid the prescribed entrance fees, while the remaining 1,863 were *bonâ fide* cart bullocks of the owners of the cattle exhibited by them which had brought fodder, etc., for their exhibits. Fees were not levied on these bullocks and the main object for not levying the fee was to give as much encouragement and lenient treatment as possible. This being the first year, when fees were levied on the exhibits and as this cattle show is not held here in connection with any religious jatras or festivals, this lenient treatment had to be given to the owners who brought their own fodder from distant places. It is gratifying to note that the cattle were brought from the several taluks of the district as also from the neighbouring districts of Tumkur and Mysore.

5. *(3) Number of cattle selected.*—The Executive Committee at their meeting held in the show grounds on the 19th December 1911 appointed judges for the selection of the best cattle under the different classes for awarding prizes. The number of cattle so selected by the judges was 34, including those selected for the special prizes awarded by the Committee. The Committee are indebted to the judges for the care with which they did their work.

6. *(4) Classification of cattle, etc.*—Cattle admitted to the show were classified as noted in notification ; and there were no changes. However, among bulls and cows, they were classified as Amrut Mahal, Malnad and Hallikar.

7. *(5) The number of prizes awarded.*—The number of prizes awarded was 34. This includes the special prizes awarded on the recommendation of judges to some deserving exhibits, as also the two prizes awarded by Messrs. A. K. Srinivasaraghavachar, Munsiff, and S. N. Appanna Iyengar, Acting General Assistant Commissioner. A list showing the particulars of prizes awarded to the exhibitors is found in Appendix B.

8. *(6) Place of cattle show and its suitability as regards water-supply and sanitary arrangements.*—The cattle show was held, as in the previous years, in the spacious compound

adjoining the District Police Office. This site was particularly selected by the Committee as being central, with sufficient accommodation to the cattle and the owners, affording a good shade and the musafirkhana near by. As regards the water-supply, the Municipality of Hassan had constructed a bund to the kodi channel of Channapatna tank, in addition, to the well recently repaired, at a cost of Rs. 360, which yielded a good supply of water to the public. As drawing of water from the well was considered inexpedient and troublesome, a water pump was hired from an enterprising merchant and this was fixed to the well. Sufficient quantity of water was pumped every day into the clean cisterns specially constructed for the cattle show occasion. This method of supplying good water for potable purposes was very much appreciated by the large body of cattle owners and others who had come for the show.

9. Necessary sanitary arrangements were made by the Municipality on the show ground. Two temporary latrines of zinc sheets were put up, in addition to the masonry one that is already existing on the show grounds, and these were daily conserved by the Municipal scavengers.

10. Proper lighting arrangements were also made by the Municipality for the nights.

11. *(7) Total receipts.*—The receipts on the whole was Rs. 1,045. As already stated above this was the first year of the levy of fees on cattle admitted to the show. The Committee, consequently, resolved that a uniform rate of one anna be levied on every head of cattle and this amounted to Rs. 321-1-0.

12. The private subscriptions amounted to Rs. 159, including the donations of Rs. 15 and Rs. 2 received from Messrs. A. K. Srinivasaraghavachar, Munsiff, and S. N. Appanna Iyengar, Acting General Assistant Commissioner, respectively, for awarding two special prizes for the two best cattle in the show as against Rs. 541-8-0 of the previous year, owing to the fact that subscriptions were restricted only to the headquarter town this year.

13. The District Board of Hassan contributed a sum of Rs. 450 towards the expenses in connection with the show.

The shop fees amounted to Rs. 34 and it was collected in accordance with the Resolution VII of the Hassan Town Municipal Council, dated 30th November 1911.

The right of collecting manure during the occasion was sold by auction and the realisation was Rs. 62-8-0.

14. *(8) Total expenses incurred and how met.*—The total expenditure under all items amounted to Rs. 539-15-6 and it was met from the amount of Rs. 450, paid by the District Board as also from that of subscriptions by the public of Hassan. The expenditure for the show was incurred for the award of prizes to the best cattle and the contingent charges, *viz.*, water-supply, lighting, construction of an enclosure for the levy of fees on cattle, sports, photos and other incidental charges, leaving a balance of Rs. 505-0-6 which amount has been credited to to the District Funds as per Government Order dated 22nd February 1911.

15. *(9) Concluding remarks including a comparison of the results with those of the preceding year.*—At the request of the Committee, the show was opened on the morning of the 4th January 1912 by P. R. W. Wetherall, Esq., Deputy Commissioner, who delivered an interesting and instructive address in English.

16. Mr. H. Nanjundaraj Urs, the Superintendent of the Amrut Mahal Department, with his usual kindness, arranged for the sale of some Amrut Mahal cattle at the show and this made the show more attractive.

17. Doctor L. C. Coleman, M.A., PH.D., very kindly deputed one Mr. K. Ramaiya, the Manager of the Experimental Farm, to deliver lectures to the assembled raiyats on the use of the several agricultural implements and practical ploughing. The lectures were very interesting and they were appreciated by the raiyats. Mr. H. C. Javaraiya, son of Mr. H. Channaiya, B.B., Sub-Judge of Coorg, who had been here on the occasion of the Vakkaligara Conference, was also kind enough to speak a few words on the same subject.

18. Messrs. N. Narasimhaiengar, Superintendent, Civil Veterinary Department, B. V. Venkatachar, Assistant Veterinary Inspector of Hassan, and K. Ramaiya undertook to deliver lectures on the breeding of the several species of cattle, which were very instructive and beneficial to the assembled raiyats.

19. To afford amusement to the visitors sports were also arranged.

20. There was a continuous stream of visitors throughout the whole period of the show, as in the previous year, but more so this year, owing to the holding of the Vakkaligara Conference here.

21. Trade in cattle to the extent of nearly Rs. 60,000 took place during and even after the cattle show.

22. At the invitation of the Committee, Mrs. Wetherall very graciously distributed prizes to the exhibitors of the best cattle and also to the winners of the sports on the evening of the 5th January 1912.

23. After the distribution of prizes, Mr. Hommanahalli Krishna Sastri of Krishnarajpete explained in Kannada the beneficial results of such cattle shows and the exhibitors were impressed with the speech.

24. A conclusive speech was made by P. R. W. Wetherall, Esq., President of the Cattle Show Committee, explaining the practical utility and the benefits of the show and thanking the several Members of the Committee for their extreme interest and co-operation which contributed to the success of the show.

25. The proceedings ended with hearty cheers for Their Imperial Majesties, the King-Emperor and Queen-Empress and for His Highness the Maharaja of Mysore.

26. The thanks of the Committee are due to the several Amildars in the district who responded to their requests in arranging to send as many exhibits as possible.

27. The Committee also express their high appreciation of the work done by the Municipality during the show.

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 8th May 1912.

K. DORASWAMI IYER,
Officiating Revenue Commissioner.

Notification No. R. 6222—L. R. 147-11-4, dated 4th May 1912.

The following note regarding *lantana* by Dr. Butler, Director of the Agricultural Research Institute, Pusa, is published for general information :—

"I am more or less familiar with the conditions prevalent in the lantana-infected land (apart from reserved forest) in Coorg and parts of Mysore. The injury caused by the shrub is in no way exaggerated, and if the area covered is extending at the rate it was some years ago, the problem of its check is one of the most pressing which the Agricultural Departments of Mysore and Coorg have to face.

2. Badly infested land is not only rendered useless either for cultivation or grazing but it is a serious menace to the public safety. * * * *

3. In Coorg there were at the beginning of 1906 in round figures 110,000 acres overgrown with lantana, exclusive of reserved forest. Of this 70,000 acres was private land and 40,000 *paisari* (Government waste lands under the control of the Revenue Department). In addition there were 35,000 acres of reserved forest containing lantana in 1907-08. The magnitude of the task of clearing out the shrub in Coorg is, therefore, readily apparent.

4. I believe it may be laid down at once that any attempt at total eradication is hopeless. The plant has got too firm a hold of the province to be exterminated by any reasonably possible means. Any measures adopted should therefore aim at keeping cultivated and grazing lands free from the shrub, and at giving facilities for the reclamation of *paisari* land, and land that has been abandoned through having become overgrown with it. It is only after occupation that it is likely to be possible to secure permanent success in its eradication. Any regulations applied to existing cultivated and grazing land should equally apply to reclaimed waste land and should be a condition of its tenure.

5. Whether, in addition to this, it is possible to do anything with waste lands overrun with lantana or to prevent its further encroachment on such lands, is a question which only those familiar with the local conditions can decide. I do not believe that any attempt to clear waste land from it is in the least likely to be worth the trouble unless it becomes the direct permanent interest of the people, or of a Government Department like the Forest Department, to keep on destroying it. Much of the infested waste land is apparently useless for ordinary cultivation. At one time I believe *paisaries* were included in the "protected" forest area of Coorg, but this has been abandoned; in any case afforesting is clearly only advisable where the lantana can be kept down, because of the danger of fires. No other perennial cultivation is known to me which could be introduced into much of the *paisari* land, as the coffee area is limited and so also I think that suitable for fruit trees. It also seems clear from the correspondence that no great eagerness is being shown by the raiyats to take up waste land for ordinary dry cultivation. If this should equally prove to be the case in Mysore, where the terms granted for reclamation are apparently even more favourable than in Coorg, I think a case will be made for concentrating all efforts in both Coorg and Mysore on keeping existing cultivated and grazing land free from the weed. I assume that the greater part of the 70,000 acres of private infested land is or has recently been of this class.

6. The efforts made so far in Coorg to clear private land appear to have met with a considerable measure of success, but in the last couple of years the Lantana Eradication Reports show that energy has been devoted chiefly to keeping clear as much as possible of the area (about 30,000 acres) previously cleared. It would appear to be entirely within the bounds of possibility, by pursuing the energetic measures taken by the Commissioner of Coorg, strengthening his hands by giving him powers of compulsion, to free once for all in a comparatively short period, the whole of the 70,000 acres of private land infested by the shrub. Afterwards lantana should be proclaimed in the same way as the noxious weeds of many British Colonies are proclaimed from time to time, and the whole of the onus of destroying it thrown on the owner or occupier of the land.

7. The measures to be adopted would therefore be divided into two periods. First the period, estimated by the Commissioner at five years, during which a large organised campaign against the weed should be carried out, in order to clear it from the whole of the privately owned infested land. The details of this can only be worked out by the local authorities who know the conditions and have, besides, the experience of the past five years' attempts to guide them. The chief legal authority required would probably be that granted by the various Noxious Weeds Acts of the colonies referred to, *viz.*, that any authorised person may enter on any land where lantana is growing and destroyed it or order its destruction, recovering the cost from the owner of the land. But for several reasons, partly because it is very expensive to eradicate, partly because much of the land is likely to give little immediate return after clearing, partly because the people are in many cases probably too poor to afford the labour and expense entailed, there would appear to be a case for Government assistance in the shape of compensation or remission of revenue, or in some equivalent way. The only

thing to avoid in this would be any form of money payment which would put a premium on the possession of lantana infested land.

8. The second period would begin when the dense lantana jungles had disappeared from private land, and only stray plants, left over from the previous operations or growing from seed carried by birds, animals, the wind floods and the like, would spring up in the fields. Lantana should then be proclaimed a noxious weed, the presence of which on a person's land, after due warning, is punishable by fine.

9. In the Transvaal, New Zealand and South Australia, the provisions of the Noxious Weeds Acts are practically the same. In New Zealand, about which I have fullest information, the Act came into force in 1900. Under it the compulsory destruction of certain weeds is provided for. There are a number of Inspectors under the Act, who have power to enter any land and require the removal of the weeds at the owner's or occupier's expense. There are two schedules, the first being a list of three or four weeds whose removal from any land is compulsory, while the second is a longer list of weeds which may be notified by the local authority as noxious and only then are "proclaimed." Live hedges of certain of the proclaimed plants are permitted, provided they are kept from straggling. Up to the present the problem of dealing with waste lands, native reserves and to some extent grazing land, has not been solved, and there appear to be many complaints from settlers that their land becomes re-infested from these sources.

10. In South Australia the Commissioner has the right to give notice to local authorities to enforce the destruction of proclaimed noxious weeds. The penalty for default is £10, and the provisions appear to be essentially the same as in New Zealand.

11. In the Transvaal the Noxious Weeds Act of 1909 requires the occupier or owner to clear his land and keep it clear of any noxious weeds that may be from time to time proclaimed. Officers of the Department of Agriculture, Police and other authorised persons can enter the land and direct the clearing of it as in the other cases.

12. I have no exact information of the legislation in Europe or America. In the British Isles, Ireland and the Isle of Man have Acts for the eradication of weeds, presumably on much the same lines as those above mentioned. In France, farmers are required by law to destroy dodder by digging under and burying the crop attacked, and after thoroughly turning up the land sowing some gramineous crop on which dodder is unable to live. The problem is not the same in the closely settled lands of Europe, and the colonies afford a better guide as to what measures are feasible. Nearly all the colonies appear to have legislated for the purpose and those quoted above give sufficient information of the direction which the legislation has taken to enable suitable regulations to be framed for Coorg.

13. There remains only the forest area to be considered. It is apparent from the recent Forest Administration Reports that the lantana question will be actively taken up by the Forest Department, and we are therefore not called on to make any remarks on this aspect of the case.

14. I am not clear whether we are asked to advise as to the best way of destroying the shrub. If so, we cannot pretend to improve on the methods found by experience in Coorg to be satisfactory. The Forest Department has particularly given attention to this point. I would only warn Government against attempting to introduce any pest or disease, since this is fraught with great danger to the country."

By Order,

C. S. BALASUNDARAM IYER,
Officiating Secretary to Government, General and Revenue Departments.

APPROPRIATION REPORT

ON

THE ACCOUNTS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

FOR

1910-11.

(NOTE.—Throughout this report the figures given are, unless otherwise indicated, in thousands of Rupees omitting 000.)

General Summary.

The budget estimate of the year including the Cauvery power scheme was prepared for a surplus of 5,66, but in the actual result the surplus amounted to 24,02 or 18,36 over the budgetted surplus. This improvement was the result of an excess of 20,75 in the receipts diminished by an increase of 2,39 in the expenditure as shown below :—

	Budget	Actuals	Actuals more +, or less—
	Rs.	Rs.	Rs.
Receipts	2,25,98	2,46,73	+20,75
Expenditure	2,20,32	2,22,71	+ 2,39
Surplus ...	5,66	24,02	+18,36

2. Leaving out the revenue and expenditure under the great commercial head of account, *viz.*, the Cauvery power scheme, the figures on the ordinary account stand thus :—

	Budget	Actuals	Difference
Receipts	210,98	230,74	+19,76
Expenditure	211,42	216,09	+ 4,67
Deficit	—44	...	...
Surplus	...	+14,65	+15,09

It will be seen that the budget on the ordinary account was practically a balanced one with a small deficit of 44. This estimate was framed on the basis of normal collections and normal expenditure. Fortunately, however, the year proved favourable in more than one respect. The monsoons arrived timely and brought in copious showers to our fields and tanks, and the consequent agricultural prosperity enabled measures being taken for improving the collection of land revenue, suspended and current. The result was an increase of 6,79 over the estimate. Then again the revival of trade was reflected in the disposal of the chief product of our forests so that most of the classes of sandalwood sold secured higher rates. The rent realised from arrack vend farmers proved better and the duty and gain on ganja realised in 1909-10 and credited as usual to the debt head, "Advances for the purchase and sale of ganja" were adjusted after the close of the year instead of before it, by debit to advances and credit to the revenue head concerned. The production of gold in the mines at the Kolar gold fields was better than anticipated. The royalty on dividends

of gold mining companies, due from 22nd March 1910 in terms of the new lease executed by such companies, was not estimated evidently for want of information as regards the dividends which are generally declared after the companies make up their accounts and place them before the members at their periodical meetings. The amount of such royalty realised during the year was 2,02. The interest due by the Madras Bank on the current account of the Dewan with the Bank for 1909-10, was adjusted by the Bank on 1st July 1910 and the additional investment made in Government securities brought in additional interest. These, as well as the somewhat larger amount of credit of lapsed deposits and the realisation by sale of three Government buildings, *viz.*, the Upper Residency at Mysore, the old Telegraph Office at Mysore and the building at Bangalore known as the Binny Coffee Works, contributed to the large increase over the budget.

3. On the expenditure side, the actuals, however, exceeded the budget by 4,67. This excess was the result of additional expenditure sanctioned in the course of the year, to meet which additional grants to the extent of 7,22, *vide* margin, were sanctioned. If these grants are taken into account the result is a lapse of 2,55. The Forest Department which asked for a large additional grant and obtained 50 does not appear to have had any occasion to spend anything out of this additional allotment, as its total expenditure did not exceed the budget grant. The Public Works Department which obtained an additional grant of 2,49 for some urgent civil works also allowed almost the whole of it to lapse, for the total actuals under public works, excluding military works and railway construction, were only 24,91 against the total grant of 27,22. Thus while the Government of His Highness the Maharaja liberally responded to the supplementary demands of the heads of these important departments to enable them to frame and carry out their programmes satisfactorily, the additional allotments sanctioned could not for various reasons be utilized in many cases. Credit is, however, due to these officers for having utilized only such portions of the grants as could be usefully and economically spent and for resisting the natural tendency of working up the grants anyhow to avoid lapses. There were also some lapses under *Education* and some savings under other heads. The causes of the more important of these lapses and savings are explained in their proper places.

4. A large surplus is no doubt a matter for congratulation; but it would be useful to note in common prudence that the greater part of it is due not to any increase in the normal revenue or to any permanent decrease in the normal expenditure or even the combined result of both of these factors. There was no doubt a slight increase in the normal demand of land revenue, due to resurvey and settlement in parts, but this was not much. What contributed most to the surplus were the recovery of the arrears of land and gold mining revenues, the favourable rate secured for sandalwood and the recovery in advance of some of the khists for minor produce of forests. To these causes which represent real though temporary gain to the State, must be added others which, though they go to swell the receipts from the accounts point of view, cannot be regarded as solid gain accrued to Government during the year. Such are, for instance, the sale of Government buildings, the adjustment of the duty and gain on ganja of the previous year and the credit of certain old items of lapsed deposits. The so-called savings on the expenditure side were mostly lapses which have to be provided for again.

5. The following summary gives the budget and account figures for the year under the group heads. Details will be found in the statements appended to this report.

NOTE.—In this statement both the budget and account figures are net, *i.e.*, on the revenue side the gross figures *minus* refunds are shown, while on the charge side the gross expenditure *minus* departmental receipts are given. The revenue from Salt has been deducted from miscellaneous expenditure as usual.

7. The important variations in the actuals as compared with the budget have been already explained in brief. They are also explained in detail later on, under the heads in which such variations occur; and so also the differences between the accounts of the year under report and those of the previous year.

Actuals compared with the revised.

8. The revised was on the whole accurate. The total revenue exceeded the revised by only 44 and this small excess was chiefly in the miscellaneous revenue which is of a fluctuating nature. The total expenditure, however, exceeded the revised by 2,19 and this excess was solely due to the payment to the Madras and Southern Mahratta Railway Company of 2,25 on account of the Mysore Government's share of general stores for railways for which no grant was apparently obtained. If this item is excluded, then the difference between the actuals and the revised will be only 7. Since the actuals in most cases follow the revised very closely, it is not considered necessary to repeat this remark under each head. Necessary explanation is, however, given where the variation is large.

Objectionable expenditure.

9. The following statement shows the excesses over the budget grants which have not been covered by either additional grants or reappropriations:—

J. and K. Public Works—				
Military Works	3	...	3	
Construction of Railways	144	...	144	Due to payment of the share of general store balances to the Railway Company.

10. In the case of the item of 82 under *General Administration, Government Houses, Stables, etc.*, and that of 38 under *Reception of Important Personages*, the bulk of the excess expenditure has since been regularised under orders of Government by the transfer of a sum of Rs. 83,652 spent from the State treasuries on the occasion of His Highness the Yuvaraja's marriage from the State to the Palace accounts in the accounts of the current year.

11. The following table exhibits the amount under objection at the end of October 1911 by districts :—

Amount under objection.

Treasuries	Land Revenue	Excise	Police	Education	Medical	Scientific, etc., Departments	Miscellaneous	Village School Fund	Total
State Huzur Treasury	...	...	...	...	...	6	...	...	6

Hassan do	3	...	...	...	...	...	...	...	3
Total ...	1,28	8	4	5	1	6	9	1	1,62

12. The heavy increase in the amount under objection in the Bangalore District from 31 in the previous year to 91 in the year under report is unsatisfactory. Mysore, on the other hand, shows great improvement by reducing the amount under objection from 98 in the preceding year to 17. The amount under objection in the whole State has gone down from 1,80 in the preceding year to 1,62.

13. The following is a statement showing the nature of objections under the several heads of accounts :—

Heads of Classification	Want of bills from districts	Want of sub-vouchers	Want of Government sanction	Want of detailed contingent bills	Want of completion bills	Total
2. Land Revenue ...	1,22	2	...	3	1	1,28
4. Excise ...	...	2	...	...	6	8
17. Police ...	2	...	...	2	...	4
18. Education ...	...	5	...	...	...	5

26. Miscellaneous ...	4	1	4	...	...	9
Village School Fund charges ...	...	...	...	...	1	1
Total ...	1,28	10	11	5	8	1,62

14. It will be seen that the bulk of objections refer to the head *Land Revenue* and that the nature of objections is want of bills from districts. These objections generally arise in the following way. For potgi payments and Malnad inam payments, statements are prepared and sent to this office long after the list of payments are despatched. If only the officers concerned will see to their prompt preparation and despatch, the amount under such objection can be materially reduced. The Treasury officers also can do much in the way of reducing the amount under objection in such cases by insisting on prompt submission of the papers.

15. There were some items of objection during the year which were of a serious nature inasmuch as they showed deliberate intention on the part of those concerned to violate the code rules and to disregard the instructions of the audit office. The following may be referred to :—

(1) In March 1911 an abstract contingent bill for Rs. 142-8-0 for furniture purchased was cashed by the Inspector-General of Education. This bill did not give particulars as regards institutions for which the furniture was purchased. These particulars were called for in August 1911 but were received only in December 1911. On their receipt, it was observed that the furniture purchased was for the office of the Inspector-General and for the Sloyd centre at Bangalore, and that sanction of Government to the purchase, which was necessary under the rules, had not been obtained. The amount was therefore placed under objection;

but it has been neither refunded nor the requisite sanction of Government obtained. In the first place purchases requiring Government sanction should not have been made without previously obtaining such sanction; and in the second place, the omission when pointed out should have been at once rectified or the amount refunded into the treasury.

(2) The Inspector-General of Education sent up in November 1910, a claim for Rs. 18 on account of arrear pay for nine months from 1st July 1910 of one Siddoji Rao, master of the old hobli school at Thondebavi. In verifying the claim it was found that the amount claimed had been drawn in May 1901 on a supplemental bill. The Inspector-General was therefore requested in May 1911 to explain the circumstances under which a second claim for an amount paid years back was again preferred. The matter was said to be under departmental enquiry, but the result has not yet been communicated.

(3) The Inspector of the Railway Police at Mysore, when going on two months' privilege leave, drew in advance his pay for April and May 1911. He availed himself of only a portion of the leave and returned to duty on the 5th of May 1911. He again claimed his pay for April and May 1911 on ordinary bills deducting $\frac{1}{6}$th of the advance and the bills were cashed by the sub-treasury. The Treasury officer was requested by the audit office to explain the irregularity and also to instruct the sub-treasury not to disburse the pay of the Inspector for two months, *i.e.*, till the advance was adjusted. Not only was no explanation furnished but the pay of the Inspector was disbursed in spite of instructions to the contrary. When, however, the matter was brought to the notice of the Deputy Commissioner, he took effective steps to punish those responsible and also to recover the advances.

Section A.—PRINCIPAL HEADS OF REVENUE.

Revenue.

Accounts 1909-10	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.	Rs.	Rs.	Rs.
178,47	170,04	182,31	182,57

16. The total revenue under the principal heads exceeded the estimate by 12,53 and the previous actuals by 4,10. The causes which led to this satisfactory result are explained below.

I. Land Revenue.

Accounts 1909-10	Minor Heads	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.		Rs.	Rs.	Rs.
96,12	Assessment on lands... ...	91,76	97,16	97,28
5,07	Quit-rent of minor Inam villages including Kayamgutta	5,20	5,40	5,42
3,80	Miscellaneous	3,00	4,00	4,06
4	Rent on toddy trees	4	4	3
105,03	Total	1,00,00	1,06,60	1,06,79

17. The budget anticipated only normal collections and allowed a fair margin for the collection of suspended arrears and for the increase in the net demand consequent on resurvey and settlement. But as a result of good harvests there were larger collection of arrears and fuller collection of current demand.

These reasons account also for the increase of 1,76 over the actuals for 1909-10.

II. Forest.

Accounts 1909-10	Minor Heads	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.		Rs.	Rs.	Rs.
12,68	Timber and other produce removed by Government agency	13,01	15,00	15,05
4,48	Do by consumers or purchasers...	3,94	5,40	5,46
...	Confiscated drift and waif wood ...	1	...	...
1,43	Miscellaneous	18	45	44
18,59	Total ...	17,14	20,85	20,95

18. There was an improvement in this revenue, the actuals having exceeded the budget anticipation by 3,81 and the accounts of the previous year by 2,36.

The quantity of sandalwood sold was slightly larger and the rates secured for most of the classes were also better than anticipated; and the result was an increase of 2,75 over the estimate. There was, on the other hand, a fall of about half a lakh under timber owing to the market for other than superior rosewood, shipped to Europe, continuing to be dull throughout the year and also to transport difficulties experienced in the major districts. This fall was, however, more than made up by the large increase of 1,28 under "Other minor produce" due partly to recovery of tangadi khists in advance and partly to keen competition for leases, and another small increase of 24 under "Miscellaneous—Other Sources," the fluctuating nature of which does not admit of very accurate estimate being formed of it.

While the increases over the accounts for 1909-10 under the first two minor heads are attributable to the causes above mentioned, the fall under *Miscellaneous* was due to the fact that in 1909-10, the realisation of 1,08 from sale of elephants captured by the khedda operations was special for that year.

III. Excise.

Accounts 1909-10	Minor Heads	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.		Rs.	Rs.	Rs.
21,20	Arrack	19,93	20,75	20,69
20,03	Toddy	19,35	19,30	19,23
3	Beer	3	5	8
4	Akki Bhoja—License Fees	4	3	2
24	Ganja	70	1,32	1,25
40	Opium	35	40	50
10	Miscellaneous	7	10	15
7	Proportionate share of the cost of Central Distillery Establishment charges recovered from the Civil and Military Station ...	3	5	7
42,11	Total ...	40,50	42,00	41,99

19. While this revenue was better than the estimate by 1,49, it fell short of the previous actuals by 12. The improvement over the estimate was chiefly under (*a*) *Arrack* (76), (*b*) *Ganja* (55) and (*c*) *Opium* (15). The excess under *Arrack* was partly due to larger realisations of rent on farms, etc., and partly also to better collections; that under *Ganja* was owing to the adjustment during the year of the duty on, and gain by sale of, Ganja of the previous year; and the increase in the gain on sale of opium was due to better sales.

Compared with previous actuals the important variations were :—

(1) Arrack	— 51
(2) Toddy	— 80
(3) Ganja	+ 1,01
(4) Opium	+ 10

The first was due to less consumption and the second to a decrease in the shops licensed and the less number of trees tapped. The increases under (3) and (4) were due to the causes above explained.

22. The improvement over the estimate was chiefly in the sale of general stamps, while that over the actuals of the previous year was in the sale of court-fee stamps.

Section A.—DIRECT DEMANDS ON THE REVENUE.

Expenditure.

Accounts 1909-10	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.	Rs.	Rs.	Rs.
33,11	33,13	32,98	33,11

24. The actuals in this section closely followed the estimate and stood at the same figure as the accounts for 1909-10.

1. Refunds and Drawbacks.

Accounts 1909-10	Minor Heads	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.		Rs.	Rs.	Rs.

28	Stamps	25	29	28
1	Other Refunds	1	1	1
2,30	Total ...	2,17	2,14	2,11

25. The actuals were close to the estimate but were less than the previous actuals by 19. It will be observed that the fluctuations were due almost wholly to less refunds under *Excise*. This was due to a greater number of the refund bills having been cashed during 1909-10 than in 1910-11.

2. Land Revenue.

Accounts 1909-10	Minor Heads	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.		Rs.	Rs.	Rs.
59	Revenue Commissioner	59	57	55
8,61	Charges of District Administration ...	8,90	8,52	8,52

5	Inam Department	5	4	4
10	District Survey Establishment ...	10	10	10
18	Assignments	15	12	12
18,67	Total ...	19,41	19,39	19,49

26. Though the actuals followed the estimate pretty closely in the aggregate, there were slight variations in the details. *The Charges of District Administration* showed a saving of 38 which was due chiefly to the full scale of shekdars under the new scheme not having been employed. The *Remuneration to Shanbhogs and Patels* was more by 67 as the charges of the year included some arrear payments. The claims for potgi are not evidently preferred and admitted regularly. There was a small saving of 13 under *Revenue Survey and Settlement* as the lump-sum grant sanctioned for establishment proved somewhat high.

The excess over the accounts for 1909-10 was in the remuneration paid to village officers, the amount paid during the year being comparatively larger for the reason mentioned above.

3. Forest.

Accounts 1909-10 Rs.	Minor Heads	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.
4,69	Conservancy and Works	3,79	3,75	3,82
3,02	Establishment	3,14	3,12	3,11
7,71	Total ...	6,93	6,87	6,93

27. The total expenditure under this head was exact to the estimate; but it was not found necessary to utilize any portion of the additional grant of 50, which was sanctioned on the urgent requisition of the Conservator.

There were some variations in the details. The grant for buildings was exceeded by 20 but this excess was mostly counterbalanced by the savings in the charges for removing timber, the feed and keep of cattle and establishment.

As compared with the previous actuals there was a fall of 78. In 1909-10 a provision of 87 was made for khedda operations but such operations were not found necessary during the year under report.

4. Excise.

Accounts 1909-10 Rs.	Minor Heads	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.

...	Loss by dryage and wastage of ganja	...	1	1
...	Loss by dryage and wastage of majum	...	...	...
3,21	Total ...	3,40	3,37	3,37

28. The estimate was fairly accurate but the actuals exceeded the accounts for 1909-10 by 16. The comparatively larger remuneration paid for carriage of liquor and the loss sustained by bung wastage of liquor were the chief causes of the excess over the previous actuals.

30. This expenditure was within the estimate and was in the aggregate about the same as the actuals of the previous year.

SECTION AA.—MINING REVENUE.

Mining Royalty and Leases.

Accounts 1909-10 Rs.	Minor Heads	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.

12	Rent on prospecting lands	6	8	8
1	Fines on assignments	...	...	...
16,53	Total ...	14,56	18,14	18,14

31. During the year under report the production of gold proved better than the estimate and the ordinary royalty realised was therefore more. The royalty due on dividends for 1909-10 and 1910-11 was not estimated for want of information, as there is generally some interval between the close of a period and the declaration of dividends in respect of such period. The amount realised from this source was over 2 lakhs.

The following table gives, as usual, the gold produced and the royalty realised thereon in the years 1909-10 and 1910-11 :—

	1909-10	1910-11	1910-11 more + or less −
Weight of bar gold produced in ozs.	552,781	548,684	−4,097
Certified value in £	2,124,450(*a*)	2,103,550(*b*)	−20,900
Royalty in £	106,000	118,555(*c*)	+12,555
Arrears of previous year collected in the year under report in £...	21,674	18,928	−2,746
Arrears remaining at the end of the year in £ ...	18,928	18,920	−8

(*a*) and (*b*) include £4,147 and £2,112, respectively, worth of gold produced by the Mysore West and Mysore Wynaad Companies, on which no royalty was paid under the recent rules.

(*c*) includes royalty of £13,483 at 2½% on the dividends.

SECTION AA.—MINING REVENUE.

10. Charges against Mining Revenue.

42	Re	14	16	14
2,37	Total ...	2,15	2,15	2,15

32. No remar except that the saving on the previous actuals was due chiefly to a refund of 27 made at year to two minor gold mining companies in terms of their altered leases.

SECTION B.—INTEREST.

RECEIPTS.

Accounts 1909-10 Rs.	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.
6,32	6,26	8,00	7,99

33. The actu d both the estimate and the previous actuals and the excesses are explained unde concerned.

X. Interest.

Accounts 1909-10	Minor Heads	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.		Rs.	Rs.	Rs.
1,41	Interest on Loans	1,07	1,14	1,12
36	Interest on arrears of Revenue ...	24	38	39
1,77	Total ...	1,31	1,52	1,51

34. The improvement over the estimate was, as might be expected, chiefly under *Interest on arrears of revenue*; under the other minor head against the demand of 2,67 a lump deduction of 1,60 was made in consideration of the slackness in the demand and recovery of interest due, and the year's actuals have justified the deduction. Out of the amount due by agricultural banks 37 was written off as irrecoverable.

The following table gives the demand, collection and balance of interest on loans for 1910-11.

Particulars	Demand			Collection			Balance
	Arrears	For 1910-11	Total	Arrears	For 1910-11	Total	
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Interest on Loans to Encumbered Jahgirdars	69(*a*)	28	97	17	10	27	70
Do do Municipalities ...	...	3	3	...	3	3	...
Do on Special Loans	88	22	110	14	...	14	96
Do on Other Loans	3	...	3	3	...	3	...
Do on Loans to Agricultural Banks	45(*b*)	36	81	8	34	42	39
Total ...	2,05	89	2,94	42	47	89	2,05

(*a*) In the previous report this was shown as 83; but the alteration from 5 to 3½% in the rate of interest on the loan account of one of the jahgirdars sanctioned with retrospective effect has reduced the balance recoverable to 69.

(*b*) In the last report this was only 8, due to the difference having been wrongly shown under Loans.

It will be observed from the above that the balance outstanding at the close of the year was the same as it stood at the commencement of the year thus showing that only an amount equal to the demand of the year was realised and that no part of the arrears was recovered during the year.

XI. Profit or Loss.

Accounts,	1909-10	4,55
Budget,	1910-11	4,95
Revised,	1910-11	6,48
Accounts,	1910-11	6,48

35. The actuals were better than the budget by 1,53 and this was due partly to the investment made during the year and partly to the adjustment of the interest on the current deposit with the Madras Bank due for the previous year.

Section B.—INTEREST.

Expenditure.

Accounts 1909-10	Budget 1910-11	Revised 1910-11	Accounts 1910-11
Rs.	Rs.	Rs.	Rs.
3,61	4,04	3,79	3,86

36. There was a small saving on the estimate, but the previous actuals were exceeded by 25. This was chiefly due to the adjustment debit of an erroneous credit of 22 to interest instead of to loans (12, recoveries from indebted members of the Chikmagalur Agricultural Bank and 10, from an encumbered jahgirdar) in the previous year.

11. Interest on Ordinary Debt.

Accounts 1909-10 Rs.		Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.

59	(2) On 4 Per Cent Mysore State Loan of 1906-07	80	72	71
59	Total ...	85	72	71

37. The accounts of the year fell short of the estimate by 14. There was during the year no claim for the interest due on the 5% loan of 1882 and the demand for that due on the 4% loan of 1906-07 was not full.

12. Interest on other Obligations.

Accounts 1909-10 Rs.	Minor Heads	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.

22	Interest on Endowment Funds	23	19	19
59	Interest on Mysore State Life Insurance Fund	65	65	65
2	Refunds	...	12	22
2,94	Total ...	3,13	3,00	3,08

38. This expenditure was on the whole about the same as the estimate but exceeded the previous actuals by 14. The only variations of importance as compared with the estimate were the savings under *Interest on Savings Bank Deposits* (23) and the excess under *Refunds* (22). The former was due mostly to larger withdrawals and the latter to the adjustment of the wrong credit to interest instead of the principal mentioned in paragraph 32 of the previous report.

13. Profit or Loss.

44. The receipts of the year were close to the estimate and the slight fall as compared with the previous accounts was in consequence of some arrear collection of contribution in the previous year.

XIV. Education.

1,28	Total ...	1,10	1,07	1,17

46. No remarks excepting that the small differences between the actuals and the estimate and the previous actuals were due to irregular adjustment in previous years of the contributions due from Local Funds. These contributions are according to the Local Fund rules payable by cheques and the Presidents used formerly to draw such cheques either on the last day of the year (when there was no time for the treasuries to cash them) or in subsequent years. Effective steps were taken in 1909-10 for their regular adjustments.

47. The total actuals were about the same as the estimate, and the difference between the actuals of the two years was due to the variation in the sale of Amrut Mahal cattle.

SECTION D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

EXPENDITURE.

	Accounts 1909-10 Rs.	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.

48. As compared with the estimate there was a large lapse of 80, but compared with the actuals of the previous year there was an excess of 1,85. These variations are explained in their proper places.

15. General Administration.

Accounts 1909-10 Rs.	Minor Heads	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.

1	Durbar presents	5	...	...
6,75	Total ...	7,40	7,82	7,86

49. The charges on the whole exceeded the estimate by 46 and the previous actuals by 1,11.

Compared with the estimate almost all the minor heads, excepting *Government Houses, etc.*, showed savings. Of these the only important one was under *Civil Secretariats* due to savings in salaries and establishment. The excess under *Government Houses, etc.*, was somewhat large consequent on the special entertainment of guests, Indian (27), European (64), in connection with the marriage of His Highness the Yuvaraja of Mysore. The major portion of these charges has, however, been since ordered to be debited to Palace and the required adjustment will be made in the accounts of the current year. When this is done, the excess under *Government Houses, etc.*, will be considerably reduced.

The excesses over the accounts of the previous year were chiefly under *Civil Secretariats* (13), *Staff and Household of His Highness the Maharaja* (14) and *Government Houses and Stables* (81). The first was mostly the result of increased charges under travelling allowances and contingencies; the second was in consequence of the debit of the salary of the Military Secretary for the full year instead of only a part as in the previous year, the appointment of an Assistant to the Military Secretary and the transfer of a few hands from the establishment of the Military branch of the General and Revenue Secretariat to the Military Secretary's Office; and the third was due to the special entertainment of guests mentioned above.

During the year a small additional grant (Rs. 1,500) was sanctioned for meeting certain additional charges under *Government Houses, etc.*

16A. Law and Justice—Courts of Law.

50. Excepting for some unimportant deviations this expenditure followed the estimate. Under *Chief Court* the less expenditure when compared with the accounts for 1909-10, was due to the fact that the leave allowances of the Chief Judge were drawn in July 1911 instead of during the year.

16B. Law and Justice—Jails.

51. The only important decrease was in the charges for *Jail manufactures*. Evidently the lump-sum grant of 10 for looms and buildings for opening the khaki weaving industry in the Central Jail at Bangalore was not utilised.

52. There was a slight excess in this expenditure and this was chiefly under *District Police*, due to the increase in the charges for travelling allowance of officers and men incurred in connection with the marriage of His Highness the Yuvaraja of Mysore for which an additional grant of 38 was sanctioned from surrenders. But there was a saving of 10 in the pay of the policemen over and above the deduction made on this account in the budget, and also sundry other savings under other minor heads which reduced the excess over the total estimate to only 13.

18. Education.

53. The charges under this head fell short of the estimate by 1,00 but exceeded the actuals of the previous year by 24.

Compared with the estimate the large saving was due—

(1) to the grants-in-aid made for Janopakari Doddanna Chetty's Industrial School at Bangalore and also for opening certain new village elmentary schools not having been utilised;

(2) to the special grants made for furniture and apparatus for the Maharaja's College, Mysore, and for meeting certain additional charges of the Central College, Bangalore, having been only partially utilised, and

(3) to the lump-sum provision made under *Miscellaneous* for travelling allowances, for prizes and for special grants for Anglo-Vernacular and Vernacular schools having to some extent lapsed.

As compared with 1909-10, the important variations were :—

(*a*) University	—50
(*b*) Inspection	+20
(*c*) Government Colleges	—86
(*d*) Government Schools	+1,15
(*e*) Grants-in-aid	+58
(*f*) Miscellaneous	—32

The decreases under (*a*), (*c*) and (*f*) were only nominal as owing to a reclassification adopted during the year the grant to the Indian Institute of Science was included under grants-in-aid, the charges for High Schools were shown against (*d*) and the lump sum grant of 31 on account of travelling allowances, furniture, apparatus and prizes and special grants, provided under *Miscellaneous* for want of details, was debited to the minor heads concerned when the charges came to be actually incurred. The net result of these and other minor variations was an increase of 24 due to progressive salaries and increased cost of travelling allowances and supplies and services.

Budget, 1910-11	3,49
Revised, 1910-11	3,55
Accounts, 1910-11	3,55

54. There were two items of additional expenditure, *viz.*, (1) the Pratishta of Sarada Devi at Sivaganga and (2) the compensation paid for Dewan Bahadur Raghunatha Rao's chattram at Bangalore, for both of which no provision had been made in the budget. But for this additional expenditure there would have been some savings on the estimate.

The saving on the previous actuals was the result of less grant sanctioned during the year for construction and repairs.

20. Medical.

6,91	...	7,36	7,08	7,21

55. On the whole this expenditure was less than the estimate by 15 but exceeded the actuals of the previous year by 30.

There were petty savings chiefly in the charges for establishment and travelling allowances and in the grants for supplies and services, which though individually small were yet appreciable in the aggregate. On the other hand, there was an excess of 8 in the cost of Europe medicines due to payment of arrear bills and another of 10 in the plague charges as owing to the somewhat wide prevalence of the disease the lump-sum grant made in the budget proved insufficient.

The excess over the previous actuals was due chiefly to (1) absences on leave of officers (2) large arrear payments on account of Europe medicines, and (3) the increasing cost of the Sanitation and Vaccination Department. These excesses were partly counterbalanced by savings under other minor heads.

The revised did not anticipate the rapid spread of plague during the last quarter of the year and the consequent increase of establishment, etc., found necessary.

56. Excepting for some deviations which after all were unimportant, the actuals agreed with the estimate. In the course of the year an additional grant of 22 was sanctioned to meet the excess anticipated under *Census*, but the actual excess was only 8 and the greater part of the additional grant lapsed.

The excess over the accounts for 1909-10 was chiefly due to the comparatively increased cost of *Census*, diminished to some extent by savings under other heads notably the *Local and Civil Service Examinations* due to no Civil Service examination having been held during the year.

4	Sale of Gazette, etc.	3	4	4
2	Other Press Receipts	2	4	4
9	Total ...	8	9	17

59. The increase over the estimate was chiefly in the sale proceeds of stationery. This was chiefly due to the adjustment during the year of the cost of stationery and printed forms supplied to the Electrical Department since 1900 and partly to the larger sales of unserviceable press articles. The other variations are small.

60. The greater part of the increase was due to the amounts of lapsed deposits having been larger than anticipated and to better realisation from sale proceeds of sites at Malleswaram. The acreage contributions also were higher than estimated.

EXPENDITURE.

Accounts 1909-10 Rs.	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.
49,71	49,12	49,99	49,90

61. This exceeded both the estimate and the previous actuals by 78 and 19 respectively. The excess over the estimate was due to the writing off of some irrecoverable loans (56) due by some of the members of the agricultural bank at Chikmagalur and the adjustment of some arrear charges incurred in connection with the Viceroy's visit, both of which had not been anticipated.

23. Allowances and Assignments under Treaties and Engagements.

64. The slight excess over the estimate was the result of small increases in the charges for piece-work establishment and for types and materials purchased. Compared with 1909-10, the increase was due to the purchase during the year of types specially for Census work.

4,96	Total ...	3,87	4,84	4,73

65. The important variations as compared with the budget and the reasons therefor were as under:—

(*a*) *Miscellaneous (General)* +50 .... Large, old and irrecoverable loans made to agricultural banks written off during the year.

(*b*) *Reception of Important Personages.* +35 Adjustment during the year of charges on account of motor cars, etc., engaged in connection with the Viceroy's visit in December 1909, paid by the Palace in the first instance and adjusted during the year.

(*c*) *Charities, Donations, etc.* —16 .... Less charges incurred in connection with the Bust and Statue of His Highness the late Maharaja of Mysore.

(*d*) *Delhi Durbar Charges* +20 .... Fresh charges not foreseen at the time the budget was prepared.

The actuals of the year were less than those of the previous year by 23; for in 1909-10 the amount of irrecoverable loans written off was less while the charges against the reception of important personages and the grant to the Mysore City Improvement Fund were more.

The revised anticipated the writing off of further irrecoverable loans, but orders were not received therefor.

13,96	Total ...	14,03	13,21	13,32

67. This estimate was placed at 14,03 but the actuals fell short of it by 71 and the principal causes which led to this result were—

(*a*) an excess of 14 under *Local Service Regiment*, due to increased charges on account of compensation for dearness of ragi and gram;

(*b*) a saving of 13 in the charges for the up-keep of the *Government Stud Farm, Kunigal*, as the cost of feed and keep of stallions, etc., was less than anticipated;

(*c*) a saving of 10 in the cost of management of grass farms the out-turn of which was less than anticipated;

(*d*) a saving of 15 due to savings in salaries and establishment of the Barr Force;

(*e*) a saving of 38 under *Imperial Service Transport Corps*, which was partly the result of savings in salaries and establishment; but chiefly due to the decision of Government to substitute bullocks for ponies and the consequent savings in the grants for purchase and feed of fresh ponies; and

(*f*) a saving of 13 in the pension charges which were less than anticipated.

Compared with the previous actuals, against the excess of 20 under *Local Service Regiment* due to increased cost of compensation for dearness of gram and ragi and also of free kits, there were considerable reductions under *Government Stud Farm, Kunigal* (24), and *Imperial Service Transport Corps* (44). The former was chiefly in the feed and keep of stallions, etc., and in the purchase of stock, the valuable stallion "Sugar Apple" having been purchased in 1909-10 for Rs. 8,307. The latter was in the purchase and up-keep of ponies for the reasons mentioned above.

71. The net receipts were worse than either the estimate or the previous actuals and this was the result of a large falling off in the gross receipts of both the Metre and Broad Gauges. The decrease took place both under "Coaching" and "Goods," due to the absence of any special events leading to exceptional traffic; and also to the prevalence of plague in many parts of the State and to less goods carried.

RECEIPTS.

Accounts 1909-10 Rs.	Minor Heads	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Actuals 1910-11 Rs.
3,14	Sale of water to Kolar Gold Mines ...	2,30	2,50	2,50

87	Other Public Works Receipts	73	1,32	1,40
...	Military Works Receipts	...	...	2
4,01		3,03	4,34	4,44

73. These receipts not only exceeded the budget by 1,41 but also the previous actuals by 43.

Under the first minor head the actuals of the year included the realisations of 13 against 12 months estimated. The maintenance and repair charges of the Vani Vilas Water Works in Mysore were not being paid by the Mysore City Municipality on the ground of its poor financial condition. Government accordingly sanctioned the levy by the Municipality of a general water rate at 3% on the rental value of all buildings in the Mysore City and ordered that with effect from 1st July 1910 the amount so realised, as also the collection of excess water charges on house connections, be credited to the Public Works Department. The realisation of these amounts, as well as the recovery of amounts on account of excess water charges including arrears in the Bangalore City and the sale of the marginally noted Government buildings to the Palace contributed to the large increase over the estimate.

1. The Upper Residency, Mysore.
2. The Old Telegraph Office, Mysore.
3. The Binny Coffee Works, Bangalore.

Compared with 1909-10, there was a large decrease in the amount realised by the sale of water to the Kolar gold mines and it was due to the reduction of the rate from 15 to 10 annas per 1,000 gallons in terms of the contract with the mines. The increases under the other minor heads were due to causes which have been already explained.

SECTIONS J. & K.—PUBLIC WORKS.

EXPENDITURE.

Accounts 1909-10 Rs.	Major Heads	Budget 1910-11 Rs.	Revised 1910-11 Rs.	Accounts 1910-11 Rs.

22,96		22,16	23,34	25,28
29,15	Total ...	28,00	27,74	29,65

74. The expenditure in these two sections exceeded the budget estimate by 1,65 and the previous actuals by 50. In the course of the year additional grants amounting to 2,49 were sanctioned for *Civil Works* to meet the additional expenditure anticipated. If this additional grant is taken into account, and the figures for *Construction of Railways* which are distinct from *Civil Works* are excluded, then the result is a lapse of 2,28. Thus almost the whole of the additional grant lapsed.

The increase as compared with the previous actuals was due to the varying nature of the grant for Public Works, which depends on the number and magnitude of the works on hand.

Irrigation.—31. Major Works and 32. Minor Works.—The heavy lapse of 1,47 was the combined result of want of sanction to some of the estimates and late sanction to some others, the obstruction to progress by rains and water in the tanks and the savings effected on completed works. Of this lapse, 83 was transferred to *Civil Works* by reappropriation. Thus a large sum of money which was provided for irrigation works in the budget was actually utilised for other kinds of Public Works.

Other Public Works.—33. Civil Works and Military Works.—The actuals showed an excess over the estimate but if the amount of the additional grant sanctioned and that reappropriated from Irrigation are taken into account, the result is a lapse of 1,64. This was mainly due to the delay in the presentation for payment of final bills of contractors for the physical laboratory at the Central College, Bangalore, and the canopy over the statue of His Highness the late Maharaja of Mysore at Mysore, and the non-payment by the Municipality for the acquisition of the Sillubande hamlet in connection with the Cubbon Park improvements. It was due partly also to the non-receipt of the machinery ordered for the water works of the Kolar gold fields.

34. Construction of Railways.—The excess over the budget and the previous actuals was the result of a lapse of about ¾ of a lakh in the grant for work and of a payment of 2¼ lakhs on account of the share of the general store balances paid to the Railway Company, the amount of which varies from year to year.

SECTION L.—CAUVERY POWER SCHEME.

RECEIPTS.

Actuals 1909-10	Minor Heads	Budget 1910-11	Revised 1910-11	Actuals 1910-11

61	Mysore City Section	45	46	25
19,49	Total ...	15,00	16,26	15,99

75. These receipts were better than the estimate by 99 but fell short of the previous actuals by 3,50. Compared with the budget, the Sivasamudram-Kolar section showed a large improvement due chiefly to the less need for rebates for stoppages of power supply.

There was also some improvement in the Bangalore Civil and Military Station section consequent on the additional power and lighting installations. On the other hand there was a fall in the Mysore City section as the arrears due in connection with the Belgola pumping station were adjusted at the reduced rate of 6 pies per unit as approved by Government instead of at the estimated rate of one anna.

Compared with 1909-10 the section which showed a large decrease (3,42) is the Sivasamudram-Kolar section. The Mysore City section showed also a slight decrease. The former was due to the period of high rate (*viz.*, £15) for the power supplied from the II installation having expired early in the year and the recovery having been made at the reduced rate of £10 per horse power. The improvement under the other two minor heads was, as already stated, the result of the increase in the number of power and lighting installations.

12,50	Total ...	8,90	6,67	6,62

76. This expenditure fell short of the estimate by 2,28 and of the actuals of the previous year by 5,88.

35. Revenue Account.—There was a lapse of 1,17 in the *Working Expenses* due chiefly (1) to the reorganisation of the establishment sanctioned not having been given effect to during the year, (2) to the savings effected under maintenance of plant, and (3) to the non-adjustment, pending orders of Government, of the charges on account of direction and accounts.

36. Capital Outlay.—In the Sivasamudram section the grant for the purchase of stores for reserve stock and also for the modern oil pressure governors for renewing regulators of 2-125 O.H.P. turbines lapsed, no orders having been placed for the same pending settlement of the question of the IV installation. In the Bangalore and Mysore City sections the anticipated extensions of power supply and lighting were not needed and the materials ordered for equipping the transmission lines with the modern type of lightning arresters were also not received in time.

Compared with the previous actuals the decrease was partly due to the above causes but chiefly to less capital outlay.

Debt Heads.

77. *M. Adjustments.*—The actuals did not materially vary from the estimate. The slight increase was due to the recovery of arrear revenue and along with them the cess due thereon.

The total amount adjusted on account of cess aggregated to 9,68 and the allotment to the several funds was as under:—

	Rs.
Local Funds General	1,67
District Funds	5,46
Village School Fund	2,55

78. *O. Permanent Debt.*—No remarks.

79. *P. Unfunded Debt.*—The estimate was for a net credit of 4,01 but the actuals were very much less, being only 1,24. The difference was due partly to the larger outgoings of Savings Bank Deposits (the actuals being 27,06 against the estimate of 23,50) and partly to the less amount received on account of instalments of charitable endowments already accepted by Government.

The following amounts are still due by the donors towards the endowments promised by them :—

	Rs.
The Mysore Lingayat Education Association	83,000
Mr. Polepalli Narasimha Setty	15,000
Mr. B. Kesava Iyengar	25,000
Mr. Narasimha Setty of Arsikere	4,000
Total ...	1,27,000

80. *Q. Deposits and Advances.*—The net result of the numerous transactions under this head was a debit of 33,10 against the estimated debit of 29,85. Though the aggregate actuals were close to the estimate, there were large variations in the details. This is only natural as the debt head transactions are not capable of being correctly estimated.

81. *R. Loans and Advances.*—Compared with the estimate there was an improvement under this head. The recoveries on account of the several loans proved better than anticipated. Though advances and loans given under the Land Improvement Act were more than the estimate and advances made to agricultural banks also somewhat higher, the net receipt was better than the estimate by 2,89.

82. *T. Remittances.*—In estimating the remittance heads it is usual to make the two sides balance each other; and the estimate for the year under report was framed accordingly. The actuals, however, showed a net credit of 3,32, a small difference if we take into consideration the aggregate amount involved.

83. *U. His Majesty's Treasury.*—No remarks.

84. *V. Cash Balance.*—The net transactions of the year resulted in a decrease of 69 in the cash balance which was chiefly in consequence of the investment of 39,21 in Government of India Securities as will appear from the following table furnishing details of the variations which contributed to this result :—

	Increase Rs.	Decrease Rs.
Revenue Surplus	24,02	
Appropriation for Avoidence of Debt	2,00	
Appropriation for Redemption of Loan	1,33	
Cauvery Power Scheme Depreciation Fund ...	2,84	
Life Insurance Fund	1,75	
Charitable Endowment	19	
Surplus Investment Account		39,21
Savings Bank Deposits		71
Loans and Advances	3,70	
Other variations	3,40	
Total ...	39,23	39,92
Net decrease ...	69

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 18th May 1912.

K. DORASWAMI IYER,
Officiating Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following precis of papers on the subject of concessions to applicants for waste lands in bechirak villages in the Heggaddevankote and the Hunsur Taluks.

PRECIS.

In the Representative Assembly of 1909, Mr. Lingegowda of the Mysore District Board and Mr. H. C. Subba Rao of the Hunsur Taluk suggested that Government waste dry lands in bechirak villages especially in the Heggaddevankote and Hunsur Taluks, might be given out for cultivation on shraya tenure, the kandayem being fixed at two annas per acre for the first fifteen years and thereafter raised to the full assessment gradually. They also represented that applications for lands in these localities were not speedily disposed of and, as an instance of delay, referred to an application for lands at Waderahalli, Hosahalli hobli, Hunsur Taluk, which had been pending for over two years.

The matter was referred to the Revenue Commissioner in Mysore for enquiry and report.

The Assistant Commissioner in charge of the Mysore Sub-Division reported (in his letter No. 76, dated 26th November 1910, to the Deputy Commissioner, Mysore District) that the delay in the disposal of the Waderahalli darkhast was due to the fact that the land applied for in the first instance was not taken up but another land was applied for and granted instead in the same year. He was of opinion that the concessions prayed for by the members should be shown only to applicants for unassessed waste lands and such assessed waste lands as were overgrown with bushes, in thinly populated areas in Heggaddevankote and Hunsur Taluks, such as, Kandalike and Antarsante hoblis of the Heggaddevankote Taluk and Haranahalli of the Hunsur Taluk, where lands were being freely resigned. He further observed that the population of the Kandalike and Antarsante hoblis was slowly decreasing on account of increase of malaria due to the recent afforestation of large areas. The Deputy Commissioner, Mysore District, concurred in the opinion. The Revenue Commissioner stated that he was trying to secure the speedy disposal of darkhasts generally, so as to promote the expansion of cultivation without sacrificing Government interests, and that he would take the necessary steps to remedy the difficulties after personally discussing the subject with the members concerned.

The correspondence was recorded in the Government Order No. 77, dated 7th July 1911; and the attention of the Conservator of Forests was drawn to the observations of the Mysore Sub-Division Officer and the Deputy Commissioner regarding the decrease of population in the Kandalike and Antarsante hoblis and he was requested to favour Government with his remarks thereon.

In his letter No. 743, dated 25th July 1911, the Conservator reports that the allegation, that the population of the two hoblis in question is decreasing owing to excessive reservation, is groundless, for there has been no reservation of new areas in the Kandalike hobli and that only a small area far away from village limits has been reserved in the Antarsante hobli. He adds that State Forests provide employment for hundreds of people and in this sense afforestation cannot be said to be the cause of decrease in population, and that the nature of the localities, which are wild, thickly wooded and waterless, must be regarded as the cause of the depopulation.

COMMENCES AT 5-30 P.M.

	Rs.	Rs.	Rs.
Ladies' Decorated Bicycles ...	15	10	5

Grand Total ... Rs. 1,170

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

One of these large cups is to be competed for by Nursery men and professional Gardens and Institutions and the other is for amatuers and private gardens only.

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows. The large cups will be competed for in classes I, II and III and shall be awarded to the exhibitor who has got the highest aggregate in prizes won in the above classes during the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The small cup will be awarded to the young lady who wins the first prize for the best florally decorated Bicycle at the current Show.

5. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

6. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

7. Should a competitor win the cup at any two successive Shows, the cup will be his property for good.

8. Out of the money prizes won with the cups, a sum of rupees 10 and 15 respectively will be deducted to defray cost of a minature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

9. Gold, Silver and Bronze medals will be available for all classes and will be awarded at both the Summer and Winter Shows.

10. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

11. Medals where awarded will be in place of the money prizes shown in the prospectus against the respective items.

12. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

13. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

14. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

One of these large cups is to be competed for by Nursery men and professional Gardens and Institutions and the other is for amatuers and private gardens only.

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows. The large cups will be competed for in classes I, II and III and shall be awarded to the exhibitor who has got the highest aggregate in prizes won in the above classes during the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The small cup will be awarded to the young lady who wins the first prize for the best florally decorated Bicycle at the current Show.

5. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

6. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

7. Should a competitor win the cup at any two successive Shows, the cup will be his property for good.

8. Out of the money prizes won with the cups, a sum of rupees 10 and 15 respectively will be deducted to defray cost of a minature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

9. Gold, Silver and Bronze medals will be available for all classes and will be awarded at both the Summer and Winter Shows.

10. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

11. Medals where awarded will be in place of the money prizes shown in the prospectus against the respective items.

12. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

13. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

14. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 3rd August 1912 at 3-30 P.M.
The Floral Parade takes place at 5-30 P.M.

RESOLUTION.

Simla, the 8th May 1912.

The following proclamation relating to the Panama-Pacific Exposition proposed to be held at San Francisco in 1915, is published for general information.

Panama-Pacific International Exposition.

By the President of the United States of America.

A proclamation.

Whereas, in conformity with the conditions and requirements of the Joint Resolution of Congress approved 15th February 1911, "Authorising the President to invite foreign countries to participate in the Panama-Pacific International Exposition in nineteen hundred and fifteen, at San Francisco, California," satisfactory proof has been presented to me that a suitable site has been selected for the said Exposition and that the sum of not less than fifteen million dollars will be available to enable the Panama-Pacific International Exposition Company, a corporation organised and existing under and by virtue of the laws of the State of California for the purpose of inaugurating, carrying forward, and holding an exposition at the City of San Francisco, California, in the year nineteen hundred and fifteen, to celebrate the completion and opening of the Panama Canal;

Now, therefore, I, William Howard Taft, President of the United States of America, by virtue of the authority vested in me by said Joint Resolution, do hereby declare and proclaim that such International Exposition will be opened in the year nineteen hundred and fifteen, in the City of San Francisco, in the State of California. And, in the name of the Government and of the people of the United States of America, I do hereby invite all the nations of the earth to take part in the commemoration of an event of great interest and importance to the world by appointing representatives to the Panama-Pacific International Exposition and sending thereto such exhibits as will most fitly and fully illustrate their resources, their industries, and their progress in civilisation.

In testimony whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

(Seal.) Done at the City of Washington this second day of February, in the year of our Lord nineteen hundred and twelve, and of the Independence of the United States of America the one hundred and thirty-sixth.

WM. H. TAFT.

By the President,
P. C. KNOX,
Secretary of State.

(No. 1178.)

ORDERED,—that the foregoing proclamation be published in the *Gazette of India*, and that copies be forwarded to the Local Governments and Administrations named in the margin *, for information.

Ordered, also, that a copy be forwarded to the Chief Commissioner of Ajmer-Merwara and the Hon'ble the Chief Commissioner and Agent to the Governor-General, North-West Frontier Province, and to the Foreign Department, for information.

Ordered, also, that a copy be forwarded to all Chambers of Commerce, for information.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugarloaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* the produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M., on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

One of these large cups is to be competed for by Nursery men and professional Gardens and Institutions and the other is for amatuers and private gardens only.

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows. The large cups will be competed for in lasses I, II and III and shall be awarded to the exhibitor who has got the highest aggregate in prizes won in the above classes during the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The small cup will be awarded to the young lady who wins the first prize for the best florally decorated Bicycle at the current Show.

5. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

6. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

7. Should a competitor win the cup at any two successive Shows, the cup will be his property for good.

8. Out of the money prizes won with the cups, a sum of rupees 10 and 15 respectively will be deducted to defray cost of a minature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

9. Gold, Silver and Bronze medals will be available for all classes and will be awarded at both the Summer and Winter Shows.

10. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

11. Medals where awarded will be in place of the money prizes shown in the prospectus against the respective items.

12. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

13. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

14. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 3rd August 1912 at 3-30 P.M.
The Floral Parade takes place at 5-30 P.M.

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION OF 1912.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1912.

2. *Opening of the Exhibition.*—This year the Exhibition opens on the 14th of October and will continue till the 28th of October, both days inclusive. The Cattle (local) and Poultry Shows will begin on Monday the 21st of October and close on Thursday the 24th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale, will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale, will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass, which will be issued by the Cash Accountant on production of a cash bill or sale memo as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The horticultural show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 21st of October 1912 and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with Agriculture and Industry, will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand bills and notices, unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of Exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will also admit the holder to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Application from Exhibitors.*—Applications should reach the Secretary not later than 15th of September 1912. Each application should contain a post card with the full address of the exhibitor and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from Taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of Taluks, are requested to convene as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee Meetings, to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The Prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits.

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all Taluk and District *exhibits should be sent through the Deputy Commissioners of Districts so as to reach the Exhibition by the 30th of September* 1912. A consolidated list of District Exhibits and Exhibitors in duplicate should accompany the consignment one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To Pay."

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 15th of September 1912, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 30th of September* 1912.

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but they shall not find an entry in the official Hand-book if the exhibitors fail to furnish at least the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition Hall till 7 P.M. on the 20th of October 1912.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits, other than those mentioned in the above rule, may make special arrangements with the Committee for the exhibition of their goods on payment in advance in full, of the estimated expense.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of specious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the Exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no Responsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special Facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery. The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitors' expense. The expenses for any special facilities sought for demonstrating machinery and implements, should be borne by the exhibitor except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the Exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants or other attendants as they may require for service in their stalls, shall enter the Exhibition grounds through such entrance or entrances as the Committee may direct; they must wear badges, discs or hold passes issued to them

before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of the supervising staff appointed by them.

23. *Free admission to bona-fide Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in form B appended to this Prospectus, will be admitted free.

24. *Space for Articles on sale.*—Accommodation for articles to be sold by owners will be provided in the sale rooms erected within the Exhibition grounds, as far as possible, and the following rent will be charged for special accommodation. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

1. Full stall 21′ by 10½′	Rs.	15
2. Half stall	,,	8
3. Quarter stall	,,	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer, sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

26. *Commission sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by Exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the Exhibitor.

28. *Removal of Exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysore Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools and Institution aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-Stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore District) cattle irrespective of breeds and classes.

32. *Accommodation for Cattle.*—Accommodation will be provided free of cost.

33. Practical test.—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bona-fide* property of the exhibitor.

34. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

35. *Poultry Show.*—The Poultry must be in charge of the owners or an attendant who will be admitted on the show days with a free pass. Every endeavour will be made for safe accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the exhibition. This year it is proposed to hold a distribution of prizes in the exhibition grounds on or about the 28th of October 1912.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the exhibition under these regulations and their decision is final in all cases.

41. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official Hand-Book.*—An Official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates:—

	ORDINARY PAPER	COLOURED PAPER
Full page	.... Rs. 20	Rs. 25
Half page	.... ,, 12	,, 15
Quarter page	.... ,, 7/8	,, 10

(Special rates of Rs. 30, 16 and 12 will be charged for advertisements on the page of the cover for full, half and quarter page, respectively.)

Applications for these advertisements will be received not later than 15th September 1912 and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the exhibition without the written permission of the Committee.

44. *Committee's right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the exhibition buildings, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day subject to a minimum charge of Rs. 3 for stays less than eight days, will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 10th September to 30th November and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

48. *Railway Concession.*—Concession for the carriage of exhibits over the following Railways to the Mysore Dasara Industrial and Agricultural Exhibition on production of necessary certificates which may be had by applying to the Secretary to the Exhibition, has been kindly granted by the respective railway authorities :—

1. The South Indian Railway
2. The Bhavanagar State Railway.
3. The East India Railway.
4. The Bombay Baroda and Central Indian Railway.
5. The Bengal Nagapur Railway.
6. The Great Indian Peninsular Railway.
7. The Cutch State Railway.
8. The Madras and Southern Mahratta Railway.
9. The Barsi Light Railway.

Besides, the following have also extended the concession to the exhibitors. The period will commence in case of exhibits from 1st September and end on 20th November 1912 and in case of exhibitors from 1st October to 8th November 1912 :—

1. The S. I. Railway.
2. The Bhavanagar State Railway.
3. The Bengal Nagapur Railway.
4. The East India Railway.
5. The Cutch State Railway.
6. The M. & S. M. Railway.

49. *Steamer Concession.*—As a tentative measure, the Manager, Irrawaddy Flottila Co., Ltd., Rangoon, has kindly consented to allow concession to both exhibits and Exhibitors, the concession in case of exhibits being half tariff rates and in case of exhibitors half their passage money.

50. *Communication regarding the Exhibition.*—All communications regarding the exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

WOMEN'S SECTION.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian Vernaculars English terms used for Needle-Work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Syllabus or not the Sub-Committee wish the exhibition to be confined to such specimens only as—

(1) are asked for in the Syllabus,

(2) are considered by them to be really of excellent workmanship,

(3) are new and fresh.

N. B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan Exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, fadded, torn or dirty work cannot be accepted.

Competitors will please note that this year Dressed-pictures and bead work are not included in the syllabus; and that no bead work or miscellaneous work is to be sent for Exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration as well as beauty of design, material, colouring and workmanship.

G. SUBBUSWAMI IYER,
Secretary.

SECTION I.

The competition will commence on Tuesday the 22nd of October 1912 and will be continued for three days.

2. Weavers will be required to work for 7 hours a day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

This rule does not effect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class, when the number is less than 3. But all *bona fide* weavers will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and Rs. 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a* to *d*):—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year:—

(*a*) To weave a cloth 54 inches wide (having ½ inch silk-border) with 30's warp, 52 ends per inch and 30's weft of 48 picks per inch. Prize.—Rs. 10 and Rs. 8 for each set of competitors.

(*b*) To weave a cloth 54 inches wide (having ¼ inch silk-border) with 40's warp, 60 ends per inch and 40's weft, of 52 picks per inch. Prize.—Rs. 12 and Rs. 9 for each set of competitors.

(*c*) To weave a cloth 54 inches wide (having ¼ inch silk-border) with 60's warp, 72 ends per inch and 60's weft, 72 picks per inch. Prize.—Rs. 14 and Rs. 10.

(*d*) To weave a cloth 45 inches wide with 100's warp, 80 ends per inch and 120's wept, 80 picks per inch. The border is to be of lace and silk of any pattern (specially rudrakshi, peacock, weaving, etc.,) left to the option of the competitor. Prize.—Rs. 15 and Rs. 12.

(*e*) To weave a magutam 54 inches wide with red, yellow or bleached country twisted silk of about 80 counts. The border must be of lace of about ¼ inch. It is sufficient if the competitors use reeds of about 40 dents and weave about 80 picks to an inch. Prize.—Rs. 15 and Rs. 12.

In (*a*), (*b*) and (*c*) the cross borders must be of silk and in (*d*) and (*e*) they must be of lace.

The authorities may allow any other tests provided there are sufficient number of competitors.

9. The competitors will purchase warps from the Exhibition authorities and use them alone for competition and the competitors must bring in their own wefts.

Intending competitors should inform the Secretary at least 15 days before the competition commences. The local weavers will get their daily allowances only. All competitors must bring their own pirns.

10. In awarding prizes to the weavers the judges will note the following points:—

The work done—

(1) The length of the cloth woven during the whole period.

(2) Uniformity of picking and adhesion to specification.

(3) Freedom from broken ends.

(4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the judges will consider in addition —

(*a*) Adaptability of the loom :—

(1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.

(2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.

(*b*) Mechanism of the loom :—

(1) Soundness and proper proportion of its parts.

(2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.

(3) The position in which the weaver has to hold his body while working and the case with which he can work the loom.

A loom that was once awarded a medal will not get it a second time.

SECTION II.

WEAVING AND PREPARATORY PROCESS.

Tests in the following four classes are opened to boys under 18 years and women of any age. Of the two prizes one will be among boys and the other among women.

1. Simple processes of making long warps and sizing them economically and usefully.

2. Simple adoptation of English Dobby for hand-loom work.

3. Of any new mechanism likely to improve or increase the quality of the outturn such as new patterns of autoinatic take-up motion, etc.

4. *Spinning.*—Any kind of spinning appliance may be used. Wool to be spun will be supplied at the time of the competition at the cost of the competitors. The thickness of the yarn and the quantity to be spun and the time to be taken will be decided by the judges. Prize Rs. 10 and Rs. 7.

5. *Warping and sizing*—

(*a*) Open only for females.

To make 40's warp, 10 yards long and to size it. Prize Rs. 10 and Rs. 7.

(*b*) Open for males and females.

To make 60's warps, 40 yards long and to size them. Prize Rs. 15 and Rs. 10.

The prizes will be awarded for the best-sized warps. The time to be allowed for work, the quantity of yarn to be warped and the test to be adopted for judging the work will be decided by the judges. Yarn for warping and sizing will be supplied at the cost of the competitors, at the time of the competition.

6. Competitors will fit up their own looms in the ground allotted and get everything ready for competition.

7. Intending competitors must send their application in the prescribed form so as to reach the Secretary at Mysore on or before the 20th of September 1912 at the latest.

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION OF 1912.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1912.

2. *Opening of the Exhibition.*—This year the Exhibition opens on the 14th of October and will continue till the 28th of October, both days inclusive. The Cattle (local) and Poultry Shows will begin on Monday the 21st of October and close on Thursday the 24th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale, will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale, will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass, which will be issued by the Cash Accountant on production of a cash bill or sale memo as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The horticultural show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 21st of October 1912, and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with Agriculture and Industry, will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand bills and notices, unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of Exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will also admit the holder to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Application from Exhibitors.*—Applications should reach the Secretary not later than 15th of September 1912. Each application should contain a post card with the full address of the exhibitor and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from Taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars, of Taluks, are requested to convene as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee Meetings, to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The Prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits.

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all Taluk and District *exhibits should be sent through the Deputy Commissioners of Districts so as to reach the Exhibition by the 30th of September* 1912. A consolidated list of District Exhibits and Exhibitors in duplicate should accompany the consignment one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To Pay."

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 15th of September 1912, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 30th of September* 1912.

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but they shall not find an entry in the official Hand-book if the exhibitors fail to furnish at least the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition Hall till 7 P.M. on the 20th of October 1912.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits, other than those mentioned in the above rule, may make special arrangements with the Committee for the exhibition of their goods on payment in advance in full, of the estimated expense.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of specious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the Exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no Responsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special Facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery.

The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitors' expense. The expenses for any special facilities sought for demonstrating machinery and implements, should be borne by the exhibitor except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the Exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants or other attendants as they may require for service in their stalls, shall enter the Exhibition grounds through such entrance or entrances as the Committee may direct; they must wear badges, discs or hold passes issued to them

before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of the supervising staff appointed by them.

23. *Free admission to bona-fide Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in form B appended to this Prospectus, will be admitted free.

24. *Space for Articles on sale.*—Accommodation for articles to be sold by owners will be provided in the sale rooms erected within the Exhibition grounds, as far as possible, and the following rent will be charged for special accommodation. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

1. Full stall 21′ by 10½′	Rs.	15
2. Half stall	,,	8
3. Quarter stall	,,	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer, sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

26. *Commission sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by Exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the Exhibitor.

28. *Removal of Exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysore Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools and Institution aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-Stock.*—The time of the year when the owners of cattle are fully engaged in the fields; having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore District) cattle irrespective of breeds and classes.

32. *Accommodation for Cattle.*—Accommodation will be provided free of cost.

33. Practical test.—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bona-fide* property of the exhibitor.

34. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

35. *Poultry Show.*—The Poultry must be in charge of the owners or an attendant who will be admitted on the show days with a free pass. Every endeavour will be made for safe accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the exhibition. This year it is proposed to hold a distribution of prizes in the exhibition grounds on or about the 28th of October 1912.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the exhibition under these regulations and their decision is final in all cases.

41. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official Hand-Book.*—An Official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates:—

	ORDINARY PAPER	COLOURED PAPER
Full page	Rs. 20	Rs. 25
Half page	„ 12	„ 15
Quarter page	„ 7/8	„ 10

(Special rates of Rs. 30, 16 and 12 will be charged for advertisements on the page of the cover for full, half and quarter page, respectively.)

Applications for these advertisements will be received not later than 15th September 1912 and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the exhibition without the written permission of the Committee.

44. *Committee's right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the exhibition buildings, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day subject to a minimum charge of Rs. 3 for stays less than eight days, will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 10th September to 30th November and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

48. *Railway Concession.*—Concession for the carriage of exhibits over the following Railways to the Mysore Dasara Industrial and Agricultural Exhibition on production of necessary certificates which may be had by applying to the Secretary to the Exhibition, has been kindly granted by the respective railway authorities :—

1. The South Indian Railway
2. The Bhavanagar State Railway.
3. The East India Railway.
4. The Bombay Baroda and Central Indian Railway.
5. The Bengal Nagapur Railway.
6. The Great Indian Peninsular Railway.
7. The Cutch State Railway.
8. The Madras and Southern Mahratta Railway.
9. The Barsi Light Railway.

Besides, the following have also extended the concession to the exhibitors. The period will commence in case of exhibits from 1st September and end on 20th November 1912 and in case of exhibitors from 1st October to 8th November 1912 :—

1. The S. I. Railway.
2. The Bhavanagar State Railway.
3. The Bengal Nagapur Railway.
4. The East India Railway.
5. The Cutch State Railway.
6. The M. & S. M. Railway.

49. *Steamer Concession.*—As a tentative measure, the Manager, Irrawaddy Flottila Co., Ltd., Rangoon, has kindly consented to allow concession to both exhibits and Exhibitors, the concession in case of exhibits being half tariff rates and in case of exhibitors half their passage money.

50. *Communication regarding the Exhibition.*—All communications regarding the exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

MYSORE,
10*th May* 1912.

Secretary.

WOMEN'S SECTION.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian Vernaculars English terms used for Needle-Work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Syllabus or not the Sub-Committee wish the exhibition to be confined to such specimens only as—

(1) are asked for in the Syllabus,

(2) are considered by them to be really of excellent workmanship,

(3) are new and fresh.

N. B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan Exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, fadded, torn or dirty work cannot be accepted.

Competitors will please note that this year Dressed-pictures and bead work are not included in the syllabus; and that no bead work or miscellaneous work is to be sent for Exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration as well as beauty of design, material, colouring and workmanship.

G. SUBBUSWAMI IYER,
Secretary.

PLOUGHING COMPETITION.

In the prize list published with the Prospectus, a sum of rupees fifty has been allotted for the ploughing competition. The following particulars regarding the award of prizes are published for information —

Indigenous and imported implements of all kinds will be admitted, the different classes of implements being allowed to compete separately.

1. *Ploughing.*—Each competitor will be required to plough completely one plot of red loamy soil measuring four guntas in an hour and a half.
2. *Ridging.*—To ridge up completely a three-gunta plot in an hour and a half.
3. *Harrowing.*—A four-gunta plot will have to be harrowed in twenty minutes.
4. *Sowing.*—A four-gunta plot to be sown in twenty minutes with a seed-drill.
5. (*a*) *Thrashing.*—A given quantity of a given kind of crop to be thrashed by cattle, stone mills, or power machines.

   (*b*) *Winnowing.*—By machines of different kinds.

The number and value of prizes to be awarded will be fixed after applications for the entries are received and the various kinds of implements and machinery competing are known, and the present provision of rupees fifty will be increased if necessary. The competition will be held between the 14th and 28th of October, and the details regarding the days and hours of the competition and the prizes will be intimated to the applicants on or about the 1st October.

Those who wish to enter for these competitions are requested to submit their applications in the accompanying form through the $\frac{\text{Amildar}}{\text{Tahsildar}}$ of their faluk so as to reach the undersigned not later than the 1st of October 1912, at Mysore.

APPLICATION FORM.

Name and address of the competitor	Name, kind and value of the agricultural implements which the competitor proposes to enter for the competition	Events for which the applicant wishes to compete	Remarks of the Amildar or Tahsildar of the Taluk

N.B.—All the agricultural implements should be produced for the inspection of the Secretary to the Exhibition Committee at Mysore.

SECTION F.—MISCELLANEOUS.

3. POTTERS COMPETITION.

Rules.

1. The competition will commence at 8 A.M. on Wednesday the 23rd October 1912 and will be continued for three days.

2. Any kind of wheels indigenous or improved or foreign may be entered for the competition.

3. Competitors will be allowed to fix their own apparatus beforehand.

4. Competitors will bring their own clay, but gypsum powdered or cement will be supplied by the Committee.

5. Competitors will be allowed to compete under one or more of the undermentioned tests:—

(i) To make plain flower pots 8 inches high with $\frac{1}{2}$ inch thick without lip.

(ii) (*a*) To make a tea pot of a given size.

(*b*) To make a jug of a given size with a single or double sheaths.

(iii) (*a*) To make a pedestal 4 feet high with the two ends ornamental with beadings.

(*b*) To make an ornamental balustrade as per sample approved.

(*c*) To make a mould of an ornamental flower pot in gypsum or in cement and to show the process of taking out copies.

N. B.—Competitors under tests (*b*) and (*c*) of class (iii) should get the sketches or sample objects approved by the judges.

6. In awarding prizes, the judges will note the following points:—

(*a*) The state of finished articles while drying, with special reference to cracks, etc.

(*b*) Throwing and finishing.

(*c*) Adaptability of the wheel.

1. Whether the wheel is suited for throwing different kinds of objects.
2. Whether the wheel can be worked profitably by potters in their houses or is only useful for factory work.

(*d*) Mechanism of the wheel.

1. Soundness and simplicity of the wheels.
2. Position in which the potter has to hold his body and the ease with which he works.

(*e*) The different kinds of clay and materials used.

(*f*) Methods of preparing the clay.

THE WEAVING COMPETITION.

In connection with the Exhibition of 1912 a competition in Weaving and its preparatory process will be held in the Exhibition premises, Mysore. The following rules regulating the competition are published for the information of the intending competitors:—

SECTION I.

The competition will commence on Tuesday the 22nd of October 1912 and will be continued for three days.

2. Weavers will be required to work for 7 hours a day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

This rule does not effect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class, when the number is less than 3. But all *bona fide* weavers will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and Rs. 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a* to *d*):—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year:—

(*a*) To weave a cloth 54 inches wide (having ½ inch silk-border) with 30's warp, 52 ends per inch and 30's weft of 48 picks per inch. Prize.—Rs. 10 and Rs. 8 for each set of competitors.

(*b*) To weave a cloth 54 inches wide (having ¼ inch silk-border) with 40's warp, 60 ends per inch and 40's weft, of 52 picks per inch. Prize.—Rs. 12 and Rs. 9 for each set of competitors.

(*c*) To weave a cloth 54 inches wide (having ¼ inch silk-border) with 60's warp, 72 ends per inch and 60's weft, 72 picks per inch. Prize.—Rs. 14 and Rs. 10.

(*d*) To weave a cloth 45 inches wide with 100's warp, 80 ends per inch and 120's wept, 80 picks per inch. The border is to be of lace and silk of any pattern (specially rudrakshi, peacock, weaving, etc.,) left to the option of the competitor. Prize.—Rs. 15 and Rs. 12.

(*e*) To weave a magutam 54 inches wide with red, yellow or bleached country twisted silk of about 80 counts. The border must be of lace of about ¼ inch. It is sufficient if the competitors use reeds of about 40 dents and weave about 80 picks to an inch. Prize.—Rs. 15 and Rs. 12.

In (*a*), (*b*) and (*c*) the cross borders must be of silk and in (*d*) and (*e*) they must be of lace.

The authorities may allow any other tests provided there are sufficient number of competitors.

9. The competitors will purchase warps from the Exhibition authorities and use them alone for competition and the competitors must bring in their own wefts.

Intending competitors should inform the Secretary at least 15 days before the competition commences. The local weavers will get their daily allowances only. All competitors must bring their own pirns.

10. In awarding prizes to the weavers the judges will note the following points:—

The work done—

(1) The length of the cloth woven during the whole period.

(2) Uniformity of picking and adhesion to specification.

(3) Freedom from broken ends.

(4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the judges will consider in addition —

(*a*) Adaptability of the loom :—

(1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.

(2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.

(*b*) Mechanism of the loom :—

(1) Soundness and proper proportion of its parts.

(2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.

(3) The position in which the weaver has to hold his body while working and the case with which he can work the loom.

A loom that was once awarded a medal will not get it a second time.

SECTION II.

WEAVING AND PREPARATORY PROCESS.

Tests in the following four classes are opened to boys under 18 years and women of any age. Of the two prizes one will be among boys and the other among women.

1. Simple processes of making long warps and sizing them economically and usefully.

2. Simple adoptation of English Dobby for hand-loom work.

3. Of any new mechanism likely to improve or increase the quality of the outturn such as new patterns of automatic take-up motion, etc.

4. *Spinning.*—Any kind of spinning appliance may be used. Wool to be spun will be supplied at the time of the competition at the cost of the competitors. The thickness of the yarn and the quantity to be spun and the time to be taken will be decided by the judges. Prize Rs. 10 and Rs. 7.

5. *Warping and sizing*—

(*a*) Open only for females.

To make 40's warp, 10 yards long and to size it. Prize Rs. 10 and Rs. 7.

(*b*) Open for males and females.

To make 60's warps, 40 yards long and to size them. Prize Rs. 15 and Rs. 10.

The prizes will be awarded for the best-sized warps. The time to be allowed for work, the quantity of yarn to be warped and the test to be adopted for judging the work will be decided by the judges. Yarn for warping and sizing will be supplied at the cost of the competitors, at the time of the competition.

6. Competitors will fit up their own looms in the ground allotted and get everything ready for competition.

7. Intending competitors must send their application in the prescribed form so as to reach the Secretary at Mysore on or before the 20th of September 1912 at the latest.

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION OF 1912.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore, the Committee issue the following Prospectus in connection with the Exhibition of 1912.

2. *Opening of the Exhibition.*—This year the Exhibition opens on the 14th of October and will continue till the 28th of October, both days inclusive. The Cattle (local) and Poultry Shows will begin on Monday the 21st of October and close on Thursday the 24th.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale, will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale, will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds, without a gate pass, which will be issued by the Cash Accountant on production of a cash bill or sale memo as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The horticultural show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 21st of October 1912 and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with Agriculture and Industry, will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand bills and notices, unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of Exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will also admit the holder to the Exhibition for the whole period, will be arranged for.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Application from Exhibitors.*—Applications should reach the Secretary not later than 15th of September 1912. Each application should contain a post card with the full address of the exhibitor and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from Taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of Taluks, are requested to convene as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee Meetings, to distribute to them forms of applications; to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The Prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits.

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all Taluk and District *exhibits should be sent through the Deputy Commissioners of Districts so as to reach the Exhibition by the 30th of September* 1912. A consolidated list of District Exhibits and Exhibitors in duplicate should accompany the consignment one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To Pay."

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture, name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 15th of September 1912, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 30th of September 1912.*

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but they shall not find an entry in the official Hand-book if the exhibitors fail to furnish, at least, the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition Hall till 7 P.M. on the 20th of October 1912.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits, other than those mentioned in the above rule, may make special arrangements with the Committee for the exhibition of their goods on payment in advance in full, of the estimated expense.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of specious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the Exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no Responsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special Facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery.

The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitors' expense. The expenses for any special facilities sought for demonstrating machinery and implements, should be borne by the exhibitor, except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the Exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants or other attendants as they may require for service in their stalls, shall enter the Exhibition grounds through such entrance or entrances as the Committee may direct; they must wear badges, discs or hold passes issued to them

before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of the supervising staff appointed by them.

23. *Free admission to bona-fide Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in form B appended to this Prospectus, will be admitted free.

24. *Space for Articles on sale.*—Accommodation for articles to be sold by owners will be provided in the sale rooms erected within the Exhibition grounds, as far as possible, and the following rent will be charged for special accommodation. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

1. Full stall 21′ by 10½′	Rs.	15
2. Half stall	,,	8
3. Quarter stall	,,	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer, sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

26. *Commission sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by Exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the Exhibitor.

28. *Removal of Exhibits.*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysore Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools and Institution aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-Stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore District) cattle irrespective of breeds and classes.

32. *Accommodation for Cattle.*—Accommodation will be provided free of cost.

33. Practical test.—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bona-fide* property of the exhibitor.

34. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

35. *Poultry Show.*—The Poultry must be in charge of the owners or an attendant who will be admitted on the show days with a free pass. Every endeavour will be made for safe accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the exhibition. This year it is proposed to hold a distribution of prizes in the exhibition grounds on or about the 28th of October 1912.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot compete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's decision final.*—The Committee have full power to make rules for the conduct of the exhibition under these regulations and their decision is final in all cases.

41. *Acceptance of rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official Hand-Book.*—An Official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the exhibition and that many of them will probably purchase the official hand-book which will be sold at a nominal price. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates:—

	ORDINARY PAPER	COLOURED PAPER
Full page	.... Rs. 20	Rs. 25
Half page	.... ,, 12	,, 15
Quarter page	.... ,, 7/8	,, 10

(Special rates of Rs. 30, 16 and 12 will be charged for advertisements on the page of the cover for full, half and quarter page, respectively.)

Applications for these advertisements will be received not later than 15th September 1912 and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the exhibition without the written permission of the Committee.

44. *Committee's right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the exhibition buildings, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day subject to a minimum charge of Rs. 3 for stays less than eight days, will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 10th September to 30th November and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

48. *Railway Concession.*—Concession for the carriage of exhibits over the following Railways to the Mysore Dasara Industrial and Agricultural Exhibition on production of necessary certificates which may be had by applying to the Secretary to the Exhibition, has been kindly granted by the respective railway authorities :—

1. The South Indian Railway
2. The Bhavanagar State Railway.
3. The East India Railway.
4. The Bombay Baroda and Central Indian Railway.
5. The Bengal Nagapur Railway.
6. The Great Indian Peninsular Railway.
7. The Cutch State Railway.
8. The Madras and Southern Mahratta Railway.
9. The Barsi Light Railway.

Besides, the following have also extended the concession to the exhibitors. The period will commence in case of exhibits from 1st September and end on 20th November 1912 and in case of exhibitors from 1st October to 8th November 1912 :—

1. The S. I. Railway.
2. The Bhavanagar State Railway.
3. The Bengal Nagapur Railway.
4. The East India Railway.
5. The Cutch State Railway.
6. The M. & S. M. Railway.

49. *Steamer Concession.*—As a tentative measure, the Manager, Irrawaddy Flottila Co., Ltd., Rangoon, has kindly consented to allow concession to both exhibits and Exhibitors, the concession in case of exhibits being half tariff rates and in case of exhibitors half their passage money.

50. *Communication regarding the Exhibition.*—All communications regarding the exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

Secretary.

WOMEN'S SECTION.

NOTES ON THE LACE AND EMBROIDERY SECTION OF THE MYSORE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION.

Owing partly to the fact that it is extremely difficult to translate into Indian Vernaculars English terms used for Needle-Work and Embroidery, and partly because people do not readily understand the difference between an Exhibition and an ordinary shop or stall, exhibitors have not always understood what articles are required and will be rewarded, and have sent in much to former Exhibitions that even if good in itself, was debarred from getting any prize by the fact that it was not asked for in the Prospectus.

It has therefore been thought well to publish a few explanatory notes.

The room devoted to the lace and embroidery section is necessarily limited and it is not possible in any one year to include all kinds of needle-work.

If too many specimens are received, they cannot be displayed effectively and the crowding of embroideries, etc., only results in confusion, dust, damage to the exhibits, and prevents their being satisfactorily shown.

Therefore instead of crowding the stalls with masses of needle-work, good and bad, old and new, clean and dirty, whether included in the Syllabus or not the Sub-Committee wish the exhibition to be confined to such specimens only as—

(1) are asked for in the Syllabus,

(2) are considered by them to be really of excellent workmanship,

(3) are new and fresh.

N. B.—Valuable specimens of old embroidery, lace or needle-work should be placed apart in "A loan Exhibition."

Exhibitors would do well to note that the best materials available should be used, and that one perfect specimen of any particular work is much more likely to gain a prize than many indifferent specimens. For instance, one silk tie, perfectly knitted in good silk of a nice colour, would stand a better chance of reward than a score of ties carelessly knitted.

Moth-eaten, fadded, torn or dirty work cannot be accepted.

Competitors will please note that this year Dressed-pictures and bead work are not included in the syllabus; and that no bead work or miscellaneous work is to be sent for Exhibition.

In judging the needle-work, its suitability for use and sale (including the possibility of its being easily cleaned or washed) will be taken into consideration as well as beauty of design, material, colouring and workmanship.

G. SUBBUSWAMI IYER,
Secretary.

PLOUGHING COMPETITION.

In the prize list publised with the Prospectus, a sum of rupees fifty has been allotted for the ploughing competition. The following particulars regarding the award of prizes are published for information —

Indigenous and imported implements of all kinds will be admitted, the different classes of implements being allowed to compete separately.

1. *Ploughing.*—Each competitor will be required to plough completely one plot of red loamy soil measuring four guntas in an hour and a half.
2. *Ridging.*—To ridge up completely a three-gunta plot in an hour and a half.
3. *Harrowing.*—A four-gunta plot will have to be harrowed in twenty minutes.
4. *Sowing.*—A four-gunta plot to be sown in twenty minutes with a seed-drill.
5. (*a*) *Thrashing.*—A given quantity of a given kind of crop to be thrashed by cattle, stone mills, or power machines.
   (*b*) *Winnowing.*—By machines of different kinds.

The number and value of prizes to be awarded will be fixed after applications for the entries are received and the various kinds of implements and machinery competing are known, and the present provision of rupees fifty will be increased if necessary. The competition will be held between the 14th and 28th of October, and the details regarding the days and hours of the competition and the prizes will be intimated to the applicants on or about the 1st October.

Those who wish to enter for these competitions are requested to submit their applications in the accompanying form through the $\frac{\text{Amildar}}{\text{Tahsildar}}$ of their taluk so as to reach the undersigned not later than the 1st of October 1912, at Mysore.

APPLICATION FORM.

Name and address of the competitor	Name, kind and value of the agricultural implements which the competitor proposes to enter for the competition	Events for which the applicant wishes to compete	Remarks of the Amildar or Tahsildar of the Taluk

N.B.—All the agricultural implements should be produced for the inspection of the Secretary to the Exhibition Committee at Mysore.

SECTION F.—MISCELLANEOUS.

3. POTTERS COMPETITION.

Rules.

1. The competition will commence at 8 A.M. on Wednesday the 23rd October 1912 and will be continued for three days.

2. Any kind of wheels indigenous or improved or foreign may be entered for the competition.

3. Competitors will be allowed to fix their own apparatus beforehand.

4. Competitors will bring their own clay, but gypsum powdered or cement will be supplied by the Committee.

5. Competitors will be allowed to compete under one or more of the undermentioned tests:—

(i) To make plain flower pots 8 inches high with ½ inch thick without lip.

(ii) (*a*) To make a tea pot of a given size.

(*b*) To make a jug of a given size with a single or double sheaths.

(iii) (*a*) To make a pedestal 4 feet high with the two ends ornamental with beadings.

(*b*) To make an ornamental balustrade as per sample approved.

(*c*) To make a mould of an ornamental flower pot in gypsum or in cement and to show the process of taking out copies.

N. B.—Competitors under tests (*b*) and (*c*) of class (iii) should get the sketches or sample objects approved by the judges.

6. In awarding prizes, the judges will note the following points:—

(*a*) The state of finished articles while drying, with special reference to cracks, etc.

(*b*) Throwing and finishing.

(*c*) Adaptability of the wheel.

1. Whether the wheel is suited for throwing different kinds of objects.

2. Whether the wheel can be worked profitably by potters in their houses or is only useful for factory work.

(*d*) Mechanism of the wheel.

1. Soundness and simplicity of the wheels.

2. Position in which the potter has to hold his body and the ease with which he works.

(*e*) The different kinds of clay and materials used.

(*f*) Methods of preparing the clay.

THE WEAVING COMPETITION.

In connection with the Exhibition of 1912 a competition in Weaving and its preparatory process will be held in the Exhibition premises, Mysore. The following rules regulating the competition are published for the information of the intending competitors:—

SECTION I.

The competition will commence on Tuesday the 22nd of October 1912 and will be continued for three days.

2. Weavers will be required to work for 7 hours a day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

This rule does not effect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class, when the number is less than 3. But all *bona fide* weavers will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences, when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and Rs. 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a* to *d*):—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year:—

(*a*) To weave a cloth 54 inches wide (having ½ inch silk-border) with 30's warp, 52 ends per inch and 30's weft of 48 picks per inch. Prize.—Rs. 10 and Rs. 8 for each set of competitors.

(*b*) To weave a cloth 54 inches wide (having ½ inch silk-border) with 40's warp, 60 ends per inch and 40's weft, of 52 picks per inch. Prize.—Rs. 12 and Rs. 9 for each set of competitors.

(*c*) To weave a cloth 54 inches wide (having ½ inch silk-border) with 60's warp, 72 ends per inch and 60's weft, 72 picks per inch. Prize.—Rs. 14 and Rs. 10.

(*d*) To weave a cloth 45 inches wide with 100's warp, 80 ends per inch and 120's weft, 80 picks per inch. The border is to be of lace and silk of any pattern (specially rudrakshi, peacock, weaving, etc.,) left to the option of the competitor. Prize.—Rs. 15 and Rs. 12.

(*e*) To weave a magutam 54 inches wide with red, yellow or bleached country twisted silk of about 80 counts. The border must be of lace of about ½ inch. It is sufficient if the competitors use reeds of about 40 dents and weave about 80 picks to an inch. Prize.—Rs. 15 and Rs. 12.

In (*a*), (*b*) and (*c*) the cross borders must be of silk and in (*d*) and (*e*) they must be of lace.

The authorities may allow any other tests provided there are sufficient number of competitors.

9. The competitors will purchase warps from the Exhibition authorities and use them alone for competition and the competitors must bring in their own wefts.

Intending competitors should inform the Secretary at least 15 days before the competition commences. The local weavers will get their daily allowances only. All competitors must bring their own pirns.

10. In awarding prizes to the weavers, the judges will note the following points:—

The work done—

(1) The length of the cloth woven during the whole period.

(2) Uniformity of picking and adhesion to specification.

(3) Freedom from broken ends.

(4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the judges will consider in addition—

(*a*) Adaptability of the loom :—

(1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.

(2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.

(*b*) Mechanism of the loom :—

(1) Soundness and proper proportion of its parts.

(2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.

(3) The position in which the weaver has to hold his body while working and the case with which he can work the loom.

A loom that was once awarded a medal will not get it a second time.

SECTION II.

WEAVING AND PREPARATORY PROCESS.

Tests in the following four classes are opened to boys under 18 years and women of any age. Of the two prizes one will be among boys and the other among women.

1. Simple processes of making long warps and sizing them economically and usefully.

2. Simple adoptation of English Dobby for hand-loom work.

Rangoon rice, 2nd sort, not available.				

Agricultural operations.—Ragi, avare and cholum are being sown in parts.

State of standing crops.—Fair.

Cattle are in good condition. Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Progress of agricultural operations.*—Sowing, harrowing and weeding operations are being carried on in parts of all the taluks and wet lands are being ploughed.

Crops sown.—Ragi and avare in parts of the Bangalore, Channapatna and Anekal Taluks; kaki jola in parts of the Bangalore Taluk and paddy in parts of the Anekal Taluk.

State of standing crops.—Vaisakhi paddy, til and sugar cane are reported to be in good condition.

10. Prospects of the season are good. Food stocks are sufficiently available. Labour is available to the cooly classes.

11. But for the prevalence of plague in parts of the Bangalore and Devanhalli Taluks, public health is good. Rats are reported to be dying in parts of Magadi.

12. But for "Black quarter" in parts of the Channapatna Taluk, cattle are reported to be generally healthy. Water and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing and sowing operations are carried on in all the taluks and transplanting and weeding of ragi crop in the Goribidnur Taluk are also progressing.

Crops sown.—Ragi, avare and togari in almost all the taluks; paddy in the Kolar, Bowringpet and Sidlaghatta Taluks and Gudibanda Sub-Taluk; samè in the Kolar and Sidlaghatta Taluks and sajje in the Bowringpet Taluk.

Crops harvested and their probable outturn.—Paddy under wells in the Goribidnur Taluk, yield 6 to 10 annas.

Standing crops.—Sugar cane in the Sidlaghatta, Chikballapur and Goribidnur Taluks and Gudibanda Sub-Taluk; ragi in the Chikballapur Taluk and Gudibanda Sub-Taluk and avare and togari in the Gudibanda Sub-Taluk, are reported to be in a fairly good condition.

10. Prospects of the season are fair in most places. Rainfall is reported to be in sufficient in the Kolar, Bowringpet, Mulbagal, Bagepalli, Goribidnur, Malur and Srinivaspur Taluks.

11. Except for a few cases of cholera in the Kolar Town and some parts of the Mulbagal Taluk, which have ended fatally, and for plague in the Goribidnur Taluk, public health is generally good.

12. Pasture and fodder are available only in limited quantities. The condition of cattle is unsatisfactory.

TUMKUR.

8. Market well supplied.

9. *Agricultural operations.*—Sowing and harrowing operations are being carried on.

Crops sown.—Ragi, avare and togari in all the taluks and Sub-Taluks, except in the Maddagiri Taluk; paddy in parts of the Tumkur, Gubbi, Tiptur and Kunigal Taluks and Koratagere Sub-Taluk; castor in parts of the Chiknayakanhalli Taluk and Koratagere Sub-Taluk; cholum in parts of the Sira Taluk; navane in parts of the Sira, Gubbi and Pavagada Taluks and Turuvekere Sub-Taluk; save in parts of the Gubbi and Pavagada Taluks and Koratagere Sub-Taluk and baragu in parts of the Turuvekere Sub-Taluk.

Crops harvested.—Sugar cane in parts of the Tumkur Taluk and Turuvekere Sub-Taluk, yield from 2 to 8 annas; paddy in parts of the Kunigal Taluk and nat ragi in parts of the Sira Taluk.

Condition of standing crops.—Ragi, avare, togari, paddy, cholum, castor, sugar cane, ground-nuts, til, black and green grams, navane, save, haraka, and sajje are reported to be in good condition.

10. Prospects of the season are fair. Food stuffs are available.

11. Cholera is prevailing in Giregowdanahalli village and plague in Kadagathur village of the Maddagiri Taluk. Public health is otherwise generally good.

12. Cattle are reported to be healthy. Water and fodder are available.

MYSORE.

8. Market well supplied.

9. *Agricultural operations.*—Lands are being ploughed in parts of the Nagamangala Taluk.

Crops sown.—Ragi in parts of the Heggaddevankote, Gundlupet and Malvalli Taluks and paddy is transplanted in parts of the Mysore, Seringapatam, Hunsur, Yedatore, Heggaddevankote, Gundlupet and T.-Narsipur Taluks.

The state of standing crops is reported to be good. But the Amildars of the Mysore, Chamrajnagar, T.-Narsipur, Malvalli and Mandya Taluks report that want of rain is felt for the standing crops which are withering.

Crops harvested.—Til in parts of the Nagamangala Taluk.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in four villages of the Nanjangud Taluk, in one village in each of the Seringapatam, Hunsur and Gundlupet Taluks and in the Hunsur and Malvalli towns, public health is generally good.

12. Cattle are reported to be healthy. Water and fodder are available; but the Amildar of the Mandya Taluk reports that scarcity of fodder is keenly felt.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 14758, dated the 25th June 1912, from the Revenue Commissioner in Mysore, forwarding the following report of the Deputy Commissioner, Chitaldrug District, on the cattle show held at Harihar in March 1912:—

"OFFICE OF THE DEPUTY COMMISSIONER,
CHITALDRUG DISTRICT.
Dated Chitaldrug, 17—18th June 1912.

FROM

K. CHANDY, ESQ., B.A.,
Deputy Commissioner, Chitaldrug.

TO,

K. DORASWAMI IYER, ESQ.,
Officiating Revenue Commissioner in Mysore,
Bangalore.

Sir,

I have the honor to submit the following report in connection with the cattle show held at Harihar during the month of March 1912.

2. The townspeople of Harihar having presented a petition to the effect that arrangements may be made this year also for holding a cattle show at Harihar on the occasion of Sangameswara Jatra in March 1912, the matter was placed before the District Board, and the members thereof having unanimously approved the idea, a recommendation was submitted to Government soliciting sanction for the holding of the cattle show and also for a grant of Rs. 200 from District Funds, to meet the expenses of the same. The Government in their order Nos. 4920-4—L. B. 179-11-3 and 5899—L. B. 179-11-6, dated 22nd January and 24th February 1912, respectively, were pleased to accord sanction to the above proposals.

3. *Prospectus.*—The prospectus which was approved by Government, was widely distributed in and outside the Province (Appendix I).

4. *Committee of management.*—A committee consisting of the leading respectable inhabitants of the town, was formed for managing the affairs of the show. The names of the members who formed the Managing Committee, are given as Appendix II. A committee of judges, with the Sub-Divisional Officer as President, was also formed for judging the prize winners. The committee members with Mr. J. Balaji Row as President of the Managing Committee and the Deputy Amildar Mr. S. Anantharamiengar, strove their utmost to make the show a success, under the guidance of the Sub-Divisional Officer. I also visited Harihar prior to the show and gave the necessary suggestions. A decent pendal was erected in front of the Sangameswara temple which added greatly to the beauty of the show.

5. *Number of cattle exhibited.*—The show was opened on the 10th of March 1912 and continued for two days. The number of cattle collected on the day on which the show was opened, was rather discouraging, and it was apprehended that the number exhibited this year would be far less than that of the preceding year, and that as such, the show would prove an unsuccessful attempt. But on the evening of the 10th March and on the following two days, cattle began to pour in from all parts of the Province and also from the adjoining British Taluks of Harapanahalli and Ranebennur in the districts of Bellary and Dharwar respectively, so that by the 13th morning the total number rose to 38,818 which was beyond all expectation and far in excess of the number collected last year, which was only 21,347.

6. *Number of cattle selected.*—As was done last year, an enclosure was made to admit cattle, and the owners informed that if they wished to compete for prizes, they may take their cattle to the enclosure on payment of the fees prescribed by the Managing Committee. A sum of Rs. 13-9-0, was the income realised from this source. Appendix III gives the number of cattle admitted to the show and the particulars of fees levied on them.

7. *Classification of cattle according to breeds, size, age, etc.*—The cattle collected at the jatra consisted of different kinds of breeding animals properly known as, Javari, Hatte Dagina, Korachar, Yokavi, etc., which may be classified as follows:—

Draught bullocks	...	10,800	Sheep	...	58
Plough bullocks	...	7,365	Goats	...	55
Single bullock	...	178	Buck	...	10
Breeding bull	...	10,012	Pony	...	12
Calves	...	10,291			
Cows	...	19			
Cow buffaloes	...	3			38,818
Bull buffaloes	...	10			
Ram	...	5			

8. *Number of prizes awarded.*—Prior to the distribution of prizes, Mr. Balaji Row, the President of the Managing Committee, read a short speech explaining the object and importance of the show, to the assembled raiyats. I also spoke a few words about the usefulness of the show and the necessity and importance of paying particular attention to the proper breeding of cattle which forms the chief source of agricultural prosperity, and distributed the prizes in person. The prizes awarded consisted of gold and silver medals and also cash payments. Of the nine gold medals available for prizes, only seven were awarded, the remaining two being reserved for next year. In spite of the timely publication of the notice of the show, in and around the district, the number of ponies collected was small this year also. Only one pony secured a gold medal, the remaining six gold medals and the eleven silver medals were awarded to the bullocks, cows, etc., selected by the judging committee as deserving of prize. It was considered essential to award small money prizes to some people who had grown best Cambodia and Broach cotton, in presence of the gathering, so that it may serve as a sort of encouragement for people to make future efforts about the growing of superior agricultural products. On my recommendation, the Secretary to the Economic Conference, sanctioned a sum of Rs. 25 for the purpose. The money prize awarded amounted to Rs. 58 in all. It included the cash prizes given to the owners of good breeding animals, as well as to persons who had grown Broach and Cambodia cotton, and also to persons who displayed general efficiency in music, etc., during the show. The particulars of prizes awarded and the names of prize winners are given in Appendix IV. It is greatifying to note in this connection, that the kind and quality of cattle collected this year was superior and the amount realized by the sales of cattle amounted to nearly a lac of rupees; the prices ranging from Rs. 40 to Rs. 650 a pair.

9. *Place of cattle show and its suitability as regards water supply and sanitary requirements.*—The place selected for the show was the maidan near the Sangameswaraswami temple in the bed of the Tungabhadra river. This is the best place in the locality for holding the show, there being plenty of room available for accomodation and the proximity of the river affording facility of water supply. Further its situation entirely outside the town limits, is admirably commendable for selection from the sanitary point of view. Moreover, Harihar being a Railway Station, there is every facility for merchants, traders, and other intending purchasers both of the British Provinces as well as of the Mysore Province, for attending the show without much inconvenience and cost. The number of visitors on the occasion of the show this year, was nearly a hundred thousand. There were 235 stalls selling various things. The majority of the cattle owners had brought sufficient supply of fodder with them but still arrangements had been made for the ready supply of fodder for persons desirous of buying the same. Dramas, merry-go-rounds and other amusements had also been arranged for the recreation of the visitors. It was decided to levy a small fee on these and the income realized was Rs. 104-2-0.

10. *Lectures.*—Under the personal direction of Dr. Coleman, who was kind enough to be present at the show, Messrs. Yegnanarayan Iyer, Ranganatha Row and Ramachandra Row delivered lectures in Kanarese to the raiyats assembled, on general improvement of agriculture, on locust pests, Kadige roga and on sugar cane cultivation. The Inspector of cattle diseases and the Assistant Veterinary Inspector also delivered lectures on the methods to be adopted for improving the breed of cattle and arresting the spread of the cattle disease. Mr. Kulkarni, the Divisional Agricultural Superintendent of Dharwar, who was also present, delivered a lecture on the advantages of improved English iron ploughs, etc. The lectures were all well attended and greatly appreciated by the audience.

11. *Demonstrations.*—Dr. Coleman exhibited to the raiyats the different kinds of ploughs and other agricultural implements of modern invention, specimens of certain insects, cotton, groundnuts, paddy, etc., the jaggory boiling and the manufacture of sugar.

Mr. J. Subba Rao, the Secretary of the District Agricultural Association secured the Japanese Hand Gin from Dharwar Government Farm and demonstrated its use to the raiyats. Though this machine is reported to cost only Rs. 120, it is capable of ginning 250 lbs. of cotton with the help of an adult and a boy in 10 hours, and considering the cheapness in its cost and the capacity it possesses, many leading raiyats were inclined to go in for it. It is needless to submit that these lectures and demonstrations were well worthy of the occasion and the impression made by them on the minds of the assembled people was decidedly great and far reaching in its effects. The lighting as well as the police arrangements on the occasion of the show were also satisfactory.

12. *Total receipts, viz., from fees, private subscriptions, contributions.*—The details of receipts and expenditure are given below :—

RECEIPTS.

	Rs.	a.	p.
1. Government grant applied for	200	0	0
2. Private subscription	12	0	0
3. By sale of manure	140	0	0
4. Realization from shops, etc.	104	2	0
5. Do. of fees for selected cattle admitted to the show...	13	9	0
6. Amount realized by the sale of materials of pendal, etc. ...	11	12	0
Total ...	481	7	0

EXPENDITURE.

	Rs.	a.	p.
1. Cost incurred for constructing a pendal, etc.	68	7	10
2. Contingencies and miscellaneous	10	4	6
3. Cash prize given to owners of cattle for general efficiency, etc.	44	0	0
4. Cost of photos of prize won cattle	18	12	0
5. Cost of medals	137	0	0
6. Telegram charges	14	1	0
Total ...	292	9	4
Deduct the cost of 2 gold medals reserved for next year (medals worth Rs. 15 and 10, respectively).	25	0	0
Total ...	267	9	4

It will be seen from the above that the expenditure was nearly half of the income and there has been a net saving of Rs. 213-13-8.

13. *Photos.*—I herewith send 6 photos taken on the occasion. Two of which relate to the general and side views of the show ground and the remaining four pertain to the cattle that won prizes on the occasion of the show.

14. *Concluding remarks.*—The increase year by year in the number of cattle collected and the people assembled to witness the show, bears ample testimony to the popularity of the show. The show also enables a large section of the raiyat population to be immensely benefited by the lectures delivered and the demonstrations shown by experts in connection with agricultural, cattle breeding and other important subjects which would otherwise not have been practicable for them. Apart from the educative value, the show also affords ample facilities for the raiyats desirous of purchasing cattle for their agricultural pursuits, to choose the best among the cattle collected and purchase the same without much expense and trouble. This annual function is particularly important as providing means for the improvement of the breed of cattle in this part of the Province. The substitution of healthier varieties in the place of deteriorated once and the ample scope provide for the selection of

breeding bulls numbering a little more than 10,000, go far towards the improvement of cattle, a matter of vital importance in agriculture. The show is thus in more than one respect beneficial and useful for the raiyat community and I beg to recommend that it should be made a permanent annual function.

15. A Kannada translation of the foregoing report is also herewith submitted.

I have the honor to be,
Sir,
Your most obedient servant,
T. G. RAMA IYER,
For *Deputy Commissioner*.

Rangoon rice, 2nd sort, not available.				

Agricultural operations.—Weeding in ragi fields.

State of standing crops.—Fair.

Cattle are in good condition. Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operations.*—Harrowing and weeding operations in parts of all the taluks and ploughing operations in wet lands in parts of the Devanhalli Taluk are being carried on.

State of standing crops.—Ragi, avare, togari, haraka, samè, paddy and sugar cane are reported to be in good condition; but dry crops are said to be withering in parts of the Kankanhalli Taluk for want of rain.

Crops harvested and their estimated outturn.—Til in parts of the Kankanhalli Taluk, yield 6 annas.

10. Prospects of the season are generally good. Want of rain is being felt for the standing crops in parts of the Hoskôte and Kankanhalli Taluks. Food stocks are sufficiently available. Labour is available to the cooly classes.

11. But for the prevalence of plague in parts of the Bangalore and Devanhalli Taluks, public health is generally good.

12. But for Black-quarter prevalent in the Malur Hobli of the Channapatna Taluk, cattle are reported to be healthy. Water and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Raiyats are engaged in ploughing and sowing their lands in the Kolar Taluk and Gudibanda Sub-Taluk, sowing alone in the Chintamani, Mulbagal and Sidlaghatta Taluks, and in transplanting and weeding the ragi crop in the Goribidnur Taluk.

Crops sown.—Paddy in the Kolar and Sidlaghatta Taluks and Gudibanda Sub-Taluk, and ragi, avare and togari in the Chintamani, Mulbagal and Goribidnur Taluks.

Crops harvested and their probable outturn.—Nil.

Standing crops.—Sugar cane, ragi, avare, togari and sesamum crops are in a fairly good condition; but they require early rainfall.

10. Prospects of the season are fair, except in the taluks of Srinivaspur and Mulbagal and parts of the Kolar Taluk, where they are somewhat unsatisfactory. More rain is required. The prices of food stuffs are high.

11. Except for a few cases of cholera in the Malur and Srinivaspur Taluks and for plague in the Goribidnur and Malur Taluks, public health is generally good.

12. The condition of cattle is fair, except in the taluks of Srinivaspur, Mulbagal, Kolar and Bowringpet, where there is scarcity of fodder.

TUMKUR.

8. Market well supplied.

9. *Agricultural operations.*—Sowing, ploughing and harrowing operations are being carried on.

Crops sown.—Ragi, avare and togari in parts of the Tumkur, Chiknayakanhalli, Sira, Gubbi, and Tiptur Taluks and in parts of the Koratagere and Turuvekere Sub-Taluks; paddy in parts of the Maddagiri Taluk; horse gram in parts of the Tumkur and Maddagiri Taluks and in Koratagere Sub-Taluk; savé in parts of the Tumkur, Maddagiri, Chiknayakanhalli, Gubbi and Tiptur Taluks; navane in parts of the Sira, Gubbi and Tiptur Taluks; baragu in parts of the Maddagiri Taluk; castor in parts of the Tiptur Taluk; cholum in parts of the Pavagada Taluk and groundnuts in parts of the Turuvekere Sub-Taluk.

Crops harvested.—Sugar cane in parts of the Tumkur and Kunigal Taluks and Turuvekere Sub-Taluk, yield from 2 to 8 annas; paddy in parts of the Kunigal Taluk and Turuvekere Sub-Taluk, yield 8 annas; and nati ragi in parts of the Maddagiri and Sira Taluks.

Condition of standing crops.—Ragi, avare, togari, paddy, cholum, castor, savè, navane, haraka, baragu, sugar cane, groundnuts, til, gingelly and black and green grams are reported to be in fair condition. It is stated that crops are withering in parts of the Kunigal Taluk for want of rain.

10. Prospects of the season are fair. Food stuffs are available. Rain is wanted in parts of the Tumkur, Chiknayakanhalli, Sira, Pavagada and Kunigal Taluks.

11. Plague is prevailing in Chikkatotlakere and Mulukunte villages in the Tumkur Taluk, in Kadagathur village in the Maddagiri Taluk and Mattighatta village in the Tiptur Taluk. Public health is otherwise generally good.

12. Cattle are reported to be healthy. Water and fodder are available. Fodder is stated to be not quite sufficient in the Sira Taluk.

MYSORE.

8. Market well supplied.

9. *Crops sown.*—Ragi in parts of the Malvalli and Nagamangala Taluks and paddy is being transplanted in parts of the Seringapatam, Yedatore, Heggaddevankote, Malvalli and Krishnarajpete Taluks.

The state of standing crops is reported to be good. But the Amildars of the Mysore, Chamrajnagar, Nanjangud, T.-Narsipur, Malvalli, Mandya, Krishnarajpete and Nagamangala Taluks report that want of rain is felt for the standing crops which are withering. The Amildars of the T.-Narsipur and Malvalli Taluks report that jola is infected with insects.

Crops harvested.—Cholum in parts of the Malvalli Taluk.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in four villages of the Nanjangud Taluk, two villages of the Hunsur Taluk, in one village in each of the Seringapatam and Gundlupet Taluks and in the Hunsur and Malvalli towns, public health is generally good.

12. Cattle are reported to be healthy. Water and fodder are available.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

	Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—Rice ...	7·47	6·61	Quantity per rupee by the standard seer of 80 tolas.
Ragi ...	13·71	12·37	
Rangoon rice, 2nd sort, is not sold.			

Agricultural operations.—Weeding in ragi fields.

State of standing crops.—Want of rain is felt.

Cattle are in good condition. Water and fodder are sufficiently available.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operations.*—Harrowing and weeding operations in parts of the Bangalore, Dodballapur, Nelamangala, Kankanhalli, Anekal and Devanhalli Taluks are being carried on.

State of standing crops.—These are reported to be in good condition in all the taluks except Hoskote, Channapatna and Anekal and Closepet Sub-Taluk, in parts of which want of rainfall is keenly felt. Crops are said to be withering in parts of the Anekal Taluk.

Crops harvested and their estimated outturn.—Til in parts of the Kankanhalli Taluk, yield 6 annas.

10. Prospects of the season are generally good. Want of rainfall is keenly felt in parts of the Anekal, Hoskote and Channapatna Taluks and Closepet Sub-Taluk. Food stocks are sufficiently available. Labour is available to the cooly classes.

11. But for the prevalence of plague in parts of the Devanhalli Taluk, public health is generally good.

12. But for "black-quarter" prevalent in parts of the Channapatna Taluk, cattle are reported to be healthy. Water and fodder are generally available; but in parts of the Anekal Taluk fodder is said to be not available in sufficient quantities.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing is being carried on in the Kolar and Mulbagal Taluks and Gudibanda Sub-Taluk, sowing in the Kolar, Bowringpet, Bagepalli and Malur Taluks and weeding in the Chintamani and Malur Taluks.

Crops sown.—Ragi in the Kolar, Bowringpet and Malur Taluks; paddy in the Bagepalli and Malur Taluks and Gudibanda Sub-Taluk; horse gram in the Kolar and Malur Taluks and Gudibanda Sub-Taluk; and avare and togari in the Kolar Taluk.

Standing crops.—Ragi, avare, sesamum and sugar cane, require early rainfall.

10. Prospects of the season are fair, except in the Mulbagal and Srinivaspur Taluks and in parts of the Kolar Taluk, where they are unsatisfactory. Rainfall is badly required in all the taluks. The prices of food stuffs are high.

11. Except for a few cases of cholera in the Malur and Srinivaspur Taluks and for plague in the Goribidnur and Chikballapur Taluks, public health is generally good.

12. The condition of cattle is fair, except in the taluks of Kolar, Bowringpet, Mulbagal and Srinivaspur, where there is scarcity of fodder. "Chappe roga" also prevails in some parts of the Chintamani Taluk. Scarcity of water is being felt in many places of the Mulbagal Taluk.

TUMKUR.

8. Market well supplied.

9. *Crops sown.*—Ragi, avare and togari in parts of the Chiknayakanhalli, Gubbi and Tiptur Taluks and Koratagere and Turuvekere Sub-Taluks; horse gram in parts of the Maddagiri, Chiknayakanhalli, Pavagada and Tiptur Taluks and Koratagere Sub-Taluk; nat ragi in parts of the Sira Taluk and paddy in parts of the Gubbi Taluk and Turuvekere Sub-Taluk.

Crops harvested.—Sugar cane in parts of the Tumkur and Kunigal Taluks, yield from 2 to 8 annas; nat ragi in parts of the Sira and Maddagiri Taluks, yield 4 annas; paddy in parts of the Kunigal Taluk and Turuvekere Sub-Taluk, yield 8 annas; black and green grams and baragu in parts of the Chiknayakanhalli Taluk and Turuvekere Sub-Taluk, yield 8 annas.

Condition of standing crops.—Ragi, avare, togari, paddy, cholum, castor, sugar cane, haraka, navane, savè, baragu, groundnuts, black and green grams, til and gingelly are reported to be in fair condition. It is reported that standing crops in parts of the Sira Taluk are withering for want of rain.

10. Prospects of the season are fair. Food stuffs are available. Rain is wanted in most parts of the district.

11. Plague is prevailing in the Chikkatotlakere village in the Tumkur Taluk, in the Kodigenahalli and Kadagathur villages in the Maddagiri Taluk, and in the Chelur village in the Gubbi Taluk. Public health is otherwise generally good.

12. Water and fodder are available. It is reported that fodder is not quite sufficient in the Sira Taluk.

MYSORE.

8. Market fairly well supplied.

9. *Crops sown.*—Ragi in parts of the Nagamangala Taluk; horse gram in parts of the Hunsur Taluk and transplanted paddy in parts of the Seringapatam, Yedatore, Malvalli and Mandya Taluks.

The state of standing crops is reported to be good; but the Amildars of almost all the taluks report that want of rain is felt for the standing crops which are withering; and it is also reported by the Amildars of the Nanjangud, T.-Narsipur and Mandya Taluks that cholum is infected with insects.

Crops harvested.—Ragi in parts of the Heggaddevankote Taluk; cholum in parts of the Malvalli Taluk; til in parts of the Malvalli and Nagamangala Taluks; and sugar cane in parts of the Nagamangala Taluk.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in four villages of the Nanjangud Taluk, in two villages of the Hunsur Taluk, in one village in each of the Seringapatam, Heggaddevankote and Gundlupet Taluks and in the towns of Hunsur and Malvalli, public health is generally good.

12. Except for "Chappe roga" in one village of the Nagamangala Taluk, cattle are reported to be healthy. Water and fodder are available.

HASSAN.

8. Market well supplied.

9. *Standing crops.*—Ragi, paddy and sugar cane in the Hassan Taluk; barawadi and transplanted paddy and ragi in the Manjarabad Taluk; paddy, ragi, avare, togari, castor, til and chillies in the Arkalgud Taluk; ragi, avare, castor, togari and paddy in the Channarayapatna Taluk; ragi, cholum, til, coriander, chillies, castor, togari, groundnut, avare and paddy in the Arsikere Taluk; sugar cane, togari, til, castor, avare, tadagani and giddaragi in the Hole-Narsipur Taluk; and ragi, paddy and sugar cane in the Alur Sub-Taluk are reported to be in good condition.

Crops harvested.—Til, car paddy and sugar cane in the Channarayapatna Taluk and coriander, til, black and green grams in the Arsikere Taluk are being harvested.

Crops sown.—Ragi and paddy are being transplanted in the Hole-Narsipur Taluk.

10. Prospects of the season are generally good.

11. Except for plague in parts of the Hassan, Channarayapatna and Arkalgud Taluks, public health is generally good.

12. Cattle are generally healthy. Water and fodder are available. It is reported that the "Metrikattu" disease which was prevailing among cattle in the Byalahalli village in the Hassan Taluk has been showing signs of abatement.

SHIMOGA.

8. Market well supplied.

9. *Standing crops.*—Paddy and sugar cane throughout the district and ragi and jola in parts of the Honnali Taluk, are reported to be in good condition. Arecanut crop in parts of the Sagar, Nagar and Tirthahalli Taluks is reported to have been attacked by "Koleroga" (a new pest).

Crops sown.—Paddy in parts of the Sagar, Nagar and Tirthahalli Taluks; and horse gram in parts of the Honnali Taluk, are being sown.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in parts of the Shimoga and Channagiri Taluks and Kumsi Sub-Taluk, public health is generally good.

12. Except for murrain in parts of the Shimoga and Sagar Taluks, cattle are healthy. Water and fodder are available.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Transplanting of paddy is still going on in parts of Chikmagalur, Koppa, Mudgere and Yedahalli.

Crops sown.—Kulthi, savè, navane and khurasani in parts of Kadur.

Standing crops.—In Chikmagalur paddy, ragi, coffee, avare, togari, sugar cane, castor, chillies, potatoes, garlic, onions, coriander, jola, gingelly, black gram, beans and tadagani. In Kadur paddy, ragi, avare, togari, castor, black gram, green gram, tadagani, navane, save, jola, gingelly, coriander, baragu, sugar cane, chillies, khurasani and mustard. In Tarikere paddy, ragi, jola, kulthi, sugar cane, castor, gingelly, savè, navane, fenugreek, cotton, wheat, black gram, green gram, togari, avare, tadagani and areca. In Koppa paddy, sugar cane, cardamom, areca and coffee In Mudgere paddy, ragi, cardamom, coffee and sugar cane. In Yedahalli and Sringeri paddy, sugar cane and areca.

All the above are reported to be in good condition, but the areca crop in Koppa and Sringeri is reported to have been affected with "Koleroga."

Crops harvested.—Gidda ragi in Chikmagalur; baragu in Kadur, yield 16 annas.

10. Prospects of the season are good. Supply of food stuffs is sufficient.

11. Except for plague in two villages of the Kasaba hobli, Chikmagalur Taluk, public health is generally good.

12. "Metre roga" is reported to be prevailing in parts of the Kasaba and Belur Hoblies, in Mudgere Taluk. Otherwise cattle are reported to be generally healthy. Water and fodder are available.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Ragi, jola, togari, avare, cotton, navane, castor, sajje, sesamum, horse gram, haraka, sugar cane, paddy, black gram, green gram and chillies are reported to be in good condition.

Seeds sown.—Cotton in the Chitaldrug, Challakere, Davangere and Molakalmuru Taluks and Harihar Sub-Taluk; navane in the Challakere Taluk and Harihar Sub-Taluk; ragi in the Challakere, Hiriyur, Davangere and Hosdurga Taluks; horse gram in the Challakere, Molakalmuru and Davangere Taluks; paddy in the Hiriyur Taluk; sajje in the Hosdurga Taluk; and jola, togari, avare, castor and chillies in the Davangere Taluk.

Crops harvested.—Gidda ragi in the Challakere and Hiriyur Taluks, yield 8 annas.

10. Prospects of the season are good. Food stocks are available.

11. Except for cholera in some villages in the taluks of Challakere and Davangere, public health is generally good.

12. Cattle are healthy. Water and fodder are available.

Agricultural operations.—Weeding in ragi fields.

Cattle are in good condition. Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operations.*—Weeding and harrowing operations are being carried on in parts of all the Taluks. Transplanting of plants in wet lands is going on. Wet lands are being ploughed in parts of the Devanhalli Taluk.

Crops sown.—Horse gram in parts of the Bangalore, Hoskote, Dodballapur and Devanhalli Taluks; and ragi and paddy in parts of the Anekal Taluk.

State of standing crops.—Ragi, avare, togari, paddy, sugar cane and other minor standing crops are reported to be in good condition.

Crops harvested and their probable outturn.—Til in parts of the Kankanhalli Taluk, yield 6 annas and in parts of the Anekal Taluk, 2 to 8 annas.

10. Prospects of the season are generally good. Food stocks are sufficiently available. Labour is available to the cooly classes.

11. But for the prevalence of plague in parts of the Hoskote and Devanhalli Taluks and Closepet Town, public health is generally good.

12. But for "black-quarter" prevalent in parts of the Channapatna Taluk, cattle are reported to be healthy. Water and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Raiyats are engaged in sowing their lands in almost all the taluks and weeding in the Chintamani, Goribidnur and Srinivaspur Taluks.

Crops sown.—Ragi and horse gram in almost all the taluks; paddy in the Kolar, Chintamani and Malur Taluks and Gudibanda Sub-Taluk; avare and togari in the Mulbagal Taluk; and same in the Srinivaspur Taluk.

Standing crops.—Paddy, ragi, avare, togari and sugar cane crops are in a fairly good condition.

10. Prospects of the season have improved owing to the recent rainfall. More rain is however, required. The prices of food stuffs are still high.

11. But for plague in the Goribidnur Taluk, public health is generally good.

12. The condition of cattle is fair, except in the taluks of Kolar, Bowringpet, Mulbagal, Malur and Srinivaspur, where scarcity of fodder is felt.

TUMKUR.

8. Market well supplied.

9. *Agricultural operations.*—Sowing, ploughing and weeding operations are being carried on.

Crops sown.—Paddy in parts of the Tumkur, Maddagiri and Gubbi Taluks and Koratagere and Turuvekere Sub-Taluks; horse gram in parts of the Tumkur, Maddagiri, Chiknayakanhalli, Gubbi, Tiptur, Pavagada and Kunigal Taluks

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

	Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—Rice ...	7·47	6·61	Quantity per rupee by the standard seer of 80 tolas.
Ragi ...	13·71	12·37	
Rangoon rice, 2nd sort, not available.			

Agricultural operations.—Weeding in ragi fields.

State of standing crops—Fair.

Cattle are in good condition. Water and fodder are sufficient.

BANGALORE CITY AND TALUKS.

8. Market generally well supplied.

9. *Progress of agricultural operations.*—Weeding operations in parts of all the taluks are being carried on as also ploughing and sowing operations in parts of the Bangalore, Dodballapur, Nelamangala, Hoskote and Devanhalli Taluks.

Crops sown.—Horse gram in parts of the Bangalore, Hoskote, Dodballapur, Nelamangala and Devanhalli Taluks.

State of standing crops.—Ragi, avare, paddy and sugar cane are reported to be moderately in good condition; but ragi crop in parts of the Kankanhalli Taluk is said to be fading for want of rains, as also wet crops in the Magadi Taluk.

Crops harvested and their estimated outturn.—Til in parts of the Bangalore Taluk, yield 8 annas.

10. Prospects of the season are generally good; but want of rainfall is badly felt now for the standing crops. Food stocks are sufficiently available. Labour is available to the cooly classes.

11. But for the prevalence of plague in parts of the Bangalore and Devanhalli Taluks and Closepet Town, where it is said to be subsiding now, public health is generally good.

12. But for "Black quarter" prevailing in the village of Aralsandra, Channapatna Taluk, cattle are reported to be healthy. Water and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing in the Kolar Taluk, sowing in the Kolar Taluk and Gudibanda Sub-Taluk, and weeding in the Sidlaghatta, Malur and Srinivaspur Taluks, are being carried on.

Crops sown.—Paddy in the Kolar Taluk and Gudibanda Sub-Taluk; horse gram in the Kolar, Sidlaghatta, Bagepalli and Srinivaspur Taluks and Gudibanda Sub-Taluk; and sesamum in the Sidlaghatta Taluk.

Standing crops.—Paddy, ragi, sugar cane and horse gram are in good condition.

10. Prospects of the season are good in a greater part of the district. More rain is, however, wanted in the Kolar, Bowringpet, Chintamani, Mulbagal, Srinivaspur and Bagepalli Taluks. Prices of food grains continue to be high.

11. But for a few cases of plague in the Kolar, Goribidnur and Malur Taluks and for cholera in the Kolar Taluk, public health is generally good.

12. The condition of cattle is improving. Pasture is available.

TUMKUR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing, sowing, and weeding operations are being carried on.

Crops sown.—Horse gram in parts of the Tumkur, Maddagiri, Chiknayakanhalli and Gubbi Taluks and Turuvekere Sub-Taluk; baragu in parts of the Maddagiri Taluk; and navane in parts of the Chiknayakanhalli Taluk.

Crops harvested.—Til in parts of the Tumkur, Chiknayakanhalli and Gubbi Taluks and Turuvekere Sub-Taluk, yield from 4 to 8 annas; cholum in parts of the Tumkur, Maddagiri and Gubbi Taluks and Turuvekere Sub-Taluk, yield from 4 to 6 annas; baragu in parts of the Maddagiri and Chiknayakanhalli Taluks, yield from 4 to 8 annas; sugar cane in parts of the Gubbi and Kunigal Taluks and Turuvekere Sub-Taluk, yield 8 annas; paddy in the Turuvekere Sub-Taluk, yield 8 annas; black and green grams in parts of the Chiknayakanhalli Taluk, yield from 4 to 8 annas and navane in parts of the Maddagiri Taluk yield 8 annas.

Condition of standing crops.—Ragi, avare, togari, cholum, castor, paddy, sugar cane, ground-nuts, haraka and navane, are reported to be generally in good condition.

(Pavagada Taluk report not received.)

10. Prospects of the season are fair. Food stuffs are available. Rain is wanted throughout the district.

11. Except for plague to a slight extent in Chikkatotlakere village in the Tumkur Taluk, Kadagathur and Kodigenahalli villages in the Maddagiri Taluk and Kachonahalli and Chelur villages in the Gubbi Taluk, public health is generally good.

12. Cattle are reported to be healthy. Water and fodder are available.

MYSORE.

8. Market well supplied.

9. *Crops sown.*—Horse gram in parts of the Hunsur, Malvalli and Krishnarajpete Taluks; paddy being transplanted in parts of the Mysore Taluk.

The state of standing crops is reported to be good; but the Amildars of almost all the taluks report that want of rain is felt for the standing crops.

Crops harvested.—Ragi, cholum and til in parts of the Mysore, and Heggaddevankote Taluks; cholum in parts of the Chamrajnagar, Gundlupet, Mandya and Nagamangala Taluks; ragi in parts of the Hunsur and Mandya Taluks; sugar cane in parts of the Mandya and Nagamangala Taluks; and til in parts of the Hunsur Taluk.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in six villages of the Hunsur Taluk, in four villages of the Nanjangud Taluk, in one village in each of the Seringapatam, Yedatore, Heggaddevankote, Gundlupet and Malvalli Taluks, public health is generally good.

12. Except for "Foot and Mouth" disease in parts of the Heggaddevankote Taluk, cattle are reported to be healthy. Water and fodder are available, except in parts of the Mandya Taluk, where fodder difficulty is very much felt.

HASSAN.

8. Market well supplied.

9. *Standing crops.*—Ragi, paddy and sugar cane in the Hassan Taluk; barawadi and transplanted paddy in the Manjarabad Taluk; paddy, ragi, avare, togari, castor, chillies and kulthi in the Arkalgud and Channarayapatna Taluks; ragi, paddy, sugar cane and togari in the Belur Taluk; ragi, avare, castor, sugar cane, til and chillies, in the Arsikere Taluk; sugar cane, togari, til, castor, avare, tadagani and gidragi in the Hole-Narsipur Taluk; and paddy and sugar cane in the Alur Sub-Taluk are reported to be in good condition.

Crops harvested.—Ragi in parts of the Hassan, Manjarabad, Arkalgud and Belur Taluks and in Alur Sub-Taluk, is being harvested.

Crops sown.—Kulthi in parts of the Hassan Taluk is being sown.

10. Prospects of the season are generally good. More rain is reported to be needed in parts of the Channarayapatna Taluk.

11. Except for plague in parts of the Arkalgud and Channarayapatna Taluks, public health is generally good.

12. Except for "Metrekattu" disease prevailing in Bommankere village in the Manjarabad Taluk, cattle are generally healthy. Water and fodder are available.

SHIMOGA.

8. Market well supplied.

9. *Standing crops.*—Paddy and sugar cane throughout the district; ragi, in parts of the Honnali Taluk and the Kumsi Sub-Taluk; and green gram, jola and avare in parts of the Honnali Taluk, are reported to be in good condition. Arecanut crop in parts of the Sagar, Nagar and Tirthahalli Taluks is reported to have been attacked by "Koleroga hula" (a new pest). Bison herds are reported to be destroying young paddy in the Nagar Taluk.

Crops sown.—Paddy in parts of the Sagar and Nagar Taluks; ragi in parts of the Shimoga Taluk and horse gram in parts of the Honnali and Shikarpur Taluks and the Kumsi Sub-Taluk are being sown.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in certain villages of the Shimoga, Channagiri and Shikarpur Taluks and Kumsi Sub-Taluk and cholera in Kolagenasi village of the Sorab Taluk, public health is generally good.

12. Except for "Galalu roga" in certain villages of the Channagiri Taluk, cattle are healthy. Water and fodder are available.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Transplanting of paddy is still going on in parts of Chikmagalur, Koppa, Mudgere and Yedahalli.

Standing crops.—In Chikmagalur paddy, ragi, avare, coffee. togari, sugar cane, castor, chillies, potatoes, garlic, onions, jola, gingelly and tadagani. In Kadur paddy, ragi, avare, togari, castor, black gram, green gram, tadagani, navane, save, jola, gingelly, coriander, sugar cane, baragu, chillies, khurasani, kulthi, and mustard. In Tarikere paddy, ragi, jola, kulthi, sugar cane, castor, gingelly, navane, savè, fenugreek, cotton, wheat, black gram, green gram, togari, avare, tadagani and areca. In Koppa paddy, sugar cane, areca, cardamom and coffee. In Mudgere paddy, ragi, sugar cane, cardamom and coffee. In Yedahalli paddy, sugar cane, coffee and areca. In Sringeri paddy, areca and sugar cane. All these are stated to be in good condition; but it is reported that "castor" in Sivane village of the Tarikere Taluk has been infected with insects, and the areca crop in Bukkambhudi village of the same Taluk has been affected with "ಹಿಂಗಲ್ ಮುಂಡಿಗೆ ರೋಗ," and "Koleroga" is still affecting the areca crop in parts of Koppa and Sringeri.

Crops harvested.—Chikmagalur-gidda ragi, beans, coriander, black gram, garlic, onions and potatoes. Kadur-black gram, green gram, gingelly, and tadagani, yield each 10 annas. Tarikere-green grams, yield 10 annas.

10. Prospects of the season are good. Supply of food stuffs is sufficient.

11. Except for plague in the Chikmagalur town and also in Kurubarahalli, a village in the Chikmagalur Taluk, public health is generally good.

12. "Metre roga" is reported to be prevailing in a few villages of the Tarikere and Mudgere Taluks. Otherwise cattle are reported to be generally healthy. Water and fodder are available.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*—castor, cotton, sajje, samé, togari sesamum, navane, ragi, horse gram, paddy, sugar cane, jola, avare, chillies, black gram, and green gram, are reported to be in good condition.

Seeds sown.—Cotton and navane, in the Challakere Taluk and Harihar Sub-Taluk; and ragi and horse gram in the Challakere Taluk.

Crops harvested.—Ragi and jola in the Hiriyur Taluk, yield 8 annas; and sesamum in the Hosadurga Taluk, yield 8 annas.

10. Prospects of the season are good. Food stocks are available.

11. Except for sporadic cases of cholera in some villages in the taluk of Davangere and the Sub-Taluk of Harihar, public health is generally good.

12. Cattle are healthy. Water and fodder are available.

Dated 16th September 1912.

N. VENKATESA IYENGAR,
Chief Observer in charge.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ:—Letter dated the 5th August 1912, from the Superintendent, Tata Silk Farm, Bangalore, reporting upon the success of the samples of Mysore silk at the recent Exhibition held in London.

You will be interested in learning of the success of samples of Mysore silk from the Tata Silk Farm at the recent London Exhibition, as per letter just to hand from the President of the Royal Silk Association, (F. Warner, Esq.,) who writes:—

"I duly received your letter which reached me at a time when I was so busily engaged in connection with the Silk Exhibition recently held in London. I have been very interested in reading your letter and in examining the cocoons and skeins and woven silk of which you so kindly sent me specimens.

"A bale of your silk was shown by Messrs. Durant and Co., in their case at the above mentioned silk Exhibition *and it attracted the attention of many of the visitors to the Exhibition including the King and Queen and others of the Royal Family.*

"From enquiries I have made respecting your silk, I am inclined to think that there should be a possibility of an increasing demand for it in European markets. Personally I am more struck with its appearance in the Raw than in the thrown, and am therefore inclined to think that if it were sent to Italy or France in the Raw state and thrown by one of the best French or Italian throwsters, that it would prove to be quite a good class and serviceable silk."

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 25th September 1912.

K. DORASWAMI IYER,
Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 2145, dated the 29th August 1912, from the Revenue Commissioner in Mysore, submitting the following report from the President, District Board, Shimoga, on the Cattle Show held at Rampur in the Honnali Taluk in February 1912, during the Halaswami jatra.

Letter No. 32, dated 22nd August 1912, from the President of the District Board, Shimoga, to the Officiating Secretary to the Government of Mysore, General and Revenue Departments, Bangalore, thro' (the Revenue Commissioner in Mysore).

"I have the honor to submit the following report on the Cattle Show held at Rampur in the Honnali Taluk during February 1912.

2. The show is held on the bank of the Tungabhadra river, during the Halaswami jatra, which commenced this year on the 6th February and lasted for eleven days.

3. The site of the jatra is by the side of the Shimoga-Honnali road, about 19 miles from the former and 6 miles from the latter. The cattle show is held here in alternate years in pursuance of Government Proceedings No. 5440-1—L. B. 495-05-4, dated 22nd December 1906.

4. A large number of people collect at this place on the occasion of the jatra and people from several parts of the Province as well as from the adjoining British Districts, *viz.*, South Canara, Dharwar, Bellary Districts, etc., come to this fair for the purpose of purchasing cattle. About 18,000 head of cattle had been brought to the fair either for sale or for exchange, chiefly from the Chitaldrug, Kadur, Hassan and Mysore Districts and also from the Dharwar District of the Bombay Presidency. Cattle of different breeds were represented in the fair.

5. The jatra is growing in importance under the auspices of Guru Halaswami, who is greatly venerated in the locality.

6. I attended the cattle show with the Shimoga Sub-Division Officer and the District Superintendent of Police, and distributed the prizes to the best cattle exhibited.

7. The gentlemen named below acted as Judges on the occasion :—

1. Mr. Nadig Siddappa of Sasvehalli.
2. ,, Nadig Ranga Rao of Honnali.
3. ,, Channappa, Patel of Soratur.
4. ,, Halappa, Patel af Chinikatte.
5. ,, Halappa of Sunkadakatte.
6. ,, Gulam Hussain Khan of Honnali.
7. ,, Shikarappa, Patel of Gavinkovi.
8. ,, Nagarada Gurulingappa of Nyamti.

8. After inspection of all the cattle brought to the fair, the Judges made a selection of 164 head of cattle.

The following were awarded the prizes :—

9. As good cows and she-buffaloes were not exhibited the prizes assigned for this description of cattle were allotted to plough bulls and breeding bulls of approved merit.

10. Besides the money prizes, certificates were also given to the winners.

11. The right of collecting the fee of one anna per head of cattle brought to the fair for sale, sanctioned in Government Proceedings No. 3890-1—L. B. 76-10-2, dated 8th November 1910, was, with the approval of the District Board, formed out this year to one Gollarhalli Basappa for Rs. 1,100 or Rs. 53 more than the realization of the previous year, collected by Government agency at a cost of Rs. 123 for the establishment employed for this work.

12. A sum of Rs. 154-3-9 was spent out of District Funds to meet the cost of conservancy and sanitary charges during the jatra and the cattle fair.

13. The raiyats that were present at the show were given to understand the importance of cattle breeding and the purposes for which cattle shows are held. The Veterinary Inspector who was present on the occasion explained to the raiyats the causes of various cattle-diseases and the manner of preventing them. The raiyats were also informed of the benevolent intentions of the Government in establishing Veterinary Dispensaries and that the Medical aid made available free of charge may be taken advantage of whenever required.

14. A statement showing the particulars of the fair in the form prescribed in Revenue Commissioner's Circular Memo No. 3603-10, dated 16th September 1909, is herewith submitted.

Abstract of particulars regarding cattle fair held at Rampur in the Honnali Taluk during February 1912.

No. 2373-4—L. B. 89-12-2, DATED BANGALORE, 19TH SEPTEMBER 1912.

ORDER THEREON.—Recorded with the observation that the photos of cattle that won the prizes have not been forwarded, as required by Government Proceedings No. 7007-24—L. B. 189-09-3, dated 22nd February 1912.

2. Government note with satisfaction that the number of cattle collected at the show and of animals which competed for the prizes, was fair. The right of collecting fees on cattle at one anna per head was formed out for the first time for Rs. 1,100, which exceeds the gross realizations of the previous year collected by Government agency, by Rs. 53.

3. There has been a delay of about three months in the submission of the report by the President, which should have been avoided.

Letter No. 2097, dated the 23rd August 1912, from the Revenue Commissioner in Mysore, forwarding the following letter from the Deputy Commissioner of Mysore on the Cattle Show held at Maddur in May 1912.

Letter from the Officiating President, District Board, Mysore District, to the Officiating Secretary to the Government of Mysore, General and Revenue Departments, No. 85, dated 14th August 1912 (through the Revenue Commissioner in Mysore.

I have the honor to submit herewith a copy of French Rocks Division Assistant Commissioner's No. 42, dated 12th July 1912, and of Mandya Taluk Amildar's report on the Cattle Show held at Maddur in the Mandya Taluk in the month of May 1912. It will be seen therefrom that there was not a good collection of cattle this year as the Sri Narasimhaswamy Jatra and the car procession of Madduramma occurred on different dates, that there were about 500 pairs of cattle of good breed and quality, that the medal assigned for the cows was not given as there were only 3 or 4 cows at the show, that three prizes were given for draught bullocks, that no fee was laid on cattle with a view to encourage cattle owners to attend the show voluntarily and that 200 cattle were exhibited at the show and 18 of them got prizes.

It is also reported that the cattle disease Inspector delivered an impressive lecture on cattle diseases and distributed pamplets on renderpest. A sum of Rs. 59 appears to have been collected by subscription to supplement the grant of Rs. 50 from District Funds and the total expenditure incurred was Rs. 99-11-6 as detailed in the Amildar's report. This show was held for the second time at Maddur and was a fair success. The subject of increasing the grant will be placed before the District Board and a separate report submitted to Government.

(*Enclosure.*)

A brief report of the Cattle Show held at Maddur on the 7th and 8th May 1912, during Sri Narasimhaswamy's Jatra.

The holding of the cattle show was sanctioned in the year 1910 *vide* Government Proceedings No. 8881-4—L. B. 415-08-8. The show was first held last year on the 19th and 20th April 1911 in the Tope adjacent to Madduramma's temple.

2. This year the cattle show was held for the second time on the 7th and 8th May 1912. The car procession of Sri Narasimhaswamy was held on the 6th May 1912 and the cattle show also was fixed on that date, but there was not much collection of cattle on that date, as the people in and around the taluks were under the impression that the show was to be held synchronously with the car procession of Madduramma which took place on the 8th and 9th instant.

3. Generally the cattle breeders belong to Vakkaligar caste. They attach more importance and faith to Goddess Mudduramma than to Sri Narasimhaswamy car procession. As a result of giving more importance to the Madduramma jatra there was large collection of cattle just at the approach of the car procession of Goddess Madduramma which took place on the 8th May 1912.

4. There were about five hundred pairs of cattle of good breed and quality, the best pair of draught bullocks cost rupees two hundred to seven hundred rupees. There were also good specimens of cattle from Kankanhalli, Magadi, Malvalli and other neighbouring taluks.

5. As usual a pendal was put up in the tope for accommodating the cattle owners and the well that was within the tope was deepened and the water disinfected. It afforded a good drinking water for those that assembled at the jatra.

6. Fortunately there was also one month's water stored up at the Maddur tank and the water was let out in the Kemman nala which flows by the side of the tope. The cattle owners were very much pleased at the water facility afforded to them. Arrangements were also made for providing fodder to the cattle at a moderate price and there was no difficulty at all felt by them for getting fodder to the cattle.

7. There would have been a larger collection of cattle had it not been for the rain, which poured in a few days before the jatra. Some of the raiyats had taken advantage of the long desired rain by attending to the agricultural pursuits and did not attempt to attend the jatra and to exhibit the cattle. Even on the night of the 5th and 6th May 1912 there was rain at Maddur and some of the cattle owners of the neighbouring villages who had

assembled at the jatra and exhibited their cattle went away to the Maddur town on pretence of tying up their cattle in their relatives' houses, and to afford shelter for their cattle from rain and then decamped to their villages to take advantage of the rain that had fallen.

8. About 1,000 heads of cattle of all sorts were collected at the tope of Madduramma and at the channel banks of Kemmana nala. Five specimen of draught bullocks, bulls and calves had come for the show, but there were only three or four cows that were present at the show and the medal which was assigned for the cows was not distributed owing to the very limited number of cows and the same reserved for the next year.

9. As there were large number of draught bullocks, three prizes were offered instead of two as in the previous year. A committee of eight men consisting of local and influential raiyats was formed to judge the quality of the different breeds of cattle. The Veterinary Inspector Mr. Narasimha Iyengar was kind enough to be present at the show and gave his inestimable help and used his best experience and knowledge in the selection of cattle for prize and reward.

10. The committee consisted of Channaboregowda, Somegowda, Mochegowda of Gejjalagere, Siddegowda of Tailur, Chowdegowda of Keelara, Siddegowda of Budanur, Channappa and Chikkegowda of Somanahalli.

11. There was general satisfaction among the cattle owners regarding the selection of best judges made, for deciding and marking out animal for prizes. A request was made by the cattle owners to the Sub-Division Officer to exempt them from the payment of one anna as fee on each head of cattle. The influential raiyats and local people also requested that the tax need not be collected for some years to come with a view to encourage the owners to come to the show voluntarily without feeling any burden, and without payment of one anna on each head of cattle. The Sub-Division Officer on the request made by the people ordered that the fee of one anna need not be collected. Hence no fee was collected. After the abolition of this tax, more cattle which were collected away from the tope entered the cattle show ground and presented a very good sight to the persons and spectators witnessing the same.

12. Two hundred heads of cattle were picked out, out of the cattle collected for the show and of this number only 18 were chosen for prizes.

Of these 18, ten were awarded in the shape of medals, money prizes and eight were given certificates which were printed in gold letters and made ready for the occasion. A list of prize winners is attached to the report. The Sub-Division Officer Mr. L. Krishna Rao, presided at the occasion of distribution of prizes and gave out lecture regarding the usefulness of the show and the impetus it would afford to the cattle owners for the better breeding of their cattles and the high prizes they would fetch in addition to the ready sale of their cattle at the show.

13. Mr. Narasimha Iyengar gave a lecture touching upon the cattle diseases, distributed pamphlets on rinderpest. He gave very sound instructions to the audience how to breed better cattle and how to avoid their disease that is prevalent among cattle.

14. The District Board was kind enough to allot Rs. 50 for the show, for the distribution of the prizes and as the same was not enough a subscription list was opened and circulated among a limited number of men. A sum of Rs. 59 was collected in the shape of subscription. This including the Government grant made up a sum of Rs. 109-0-0, of which Rs. 50-15-0 were paid up for medals and Rs. 25 were distributed as money rewards and Rs. 23-12-6 were spent for putting the show ground in proper order and adopted to the sanitary requirements, such as sinking the wells and putting up of an arch and arranging for the English band during the distribution of prizes and the parading of cattle that won the prizes in procession in the streets.

15. The residents of Maddur were very anxious to take the prize winning cattle in procession in the streets with bands and music and offered the arthi and cocoanuts to them just as they passed in front of their houses. This fact indicates the zeal and anxiety evinced among the raiyats population in the cattle show. There is a balance of Rs. 9-4-6 which will be credited to the Muzrai funds, as the show was held in the tope belonging to the temple. There was also a sale of cattle to the amount of rupees 3 to 4 thousand.

16. There was no outbreak of any epidemic of any kind during the jatra and the cattle from the infected villages were not allowed to the show. The Sanitary Inspector looked to the sanitation of the town and the show ground during the jatra. In this connection I beg to request that the amount of Rs. 50 allotted to the show is quite inadequate for the awardal of prizes in the shape of medals and I only request that the grant of Rs. 50 may be increased by Rs. 25. During the Jatra and just on the prize distribution day, a Co-operative Society at Maddur was formed and Mr. Badami Krishna Rao delivered lectures regarding the utility and the usefulness of the formation of Co-operative Societies.

Memo No. 42, *dated* 11—12*th July* 1912 *from the Sub-Division Officer, French Rocks.*

Submitted to Deputy Commissioner :—

1. The delay in the submission of this report is much to be regretted although it may be conceded that the Amildar's time and attention were occupied during the interval that has been allowed to elapse in the Jamabandi and collection work.

2. The cattle show at Maddur promises in course of time to become a permanent feature of the annual jatra. The time chosen this year did not synchronise with the Madduramma's jatra which is the one occasion that attracts crowds of villagers from all parts. In future years Madduramma's jatra and not the temple car festivals should be fixed for holding the cattle show.

3. The collection of fees on cattle brought to the show may be deferred (and it was given up this year) till its value comes to be fully appreciated and a healthy impulse is given to the spirit of emulation among cattle breeders.

4. The show must continue to be supported both from increased contributions from District Funds and from liberal private subscriptions for a year or two more when it may be hoped that the show could be made to pay its own expenses.

5. The Amildar and the members of the committee deserve to be congratulated on the success of the show which had to be organised during an inclement weather and at a time at which it was difficult to induce the villagers to suspend their ploughing operations for the purpose of attending the show.'

Mr. Narasimha Iyengar's speech on cattle breeding was very instructive and popular. The distribution of pamplets on renderpest was most welcome to the raiyats. It is hoped that the popularity and usefulness of the show will manifest themselves in stimulating the desire and efforts of the owners of large droves of cattle to improve the breed and to exhibit increasing number of well-bred bulls, calves and cows from year to year.

Ragi ...	14·70	13·40	
Rangoon rice, 2nd sort, not available.			

Agricultural operations.—Weeding in ragi fields and transplanting of paddy crop.

State of standing crops—Fair.

Cattle are in good condition. Water and fodder are sufficiently available.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Progress of agricultural operations.*—Weeding operations are still going on in parts of the Anekal and Devanhalli Taluks.

Crops sown.—Huchyellu in parts of the Bangalore Taluk and horse gram in parts of the Hoskote, Kankanhalli and Anekal Taluks.

Crops harvested and their estimated outturn.—Samé and ground-nut in parts of the Anekal Taluk, yield 4 to 8 annas and 8 to 12 annas, respectively; and potatoes in parts of the Devanhalli Taluk, yield 8 to 12 annas.

State of standing crops.—Ragi, avare, kulti, togari, paddy, sugar cane and other minor crops are reported to be in good condition.

10. Prospects of the season are good; but the excessive rainfall has a bit affected the growth of kulti crop in parts of the Dodballapur Taluk. Sogal and Koppa tanks in the Channapatna Taluk are overflowing. Food stocks are sufficiently available. Labour is available to the cooly classes.

11. But for the prevalence of cholera in parts of the Bangalore Taluk and of plague in parts of the Bangalore and Devanhalli Taluks and Closepet Town, public health is generally good.

12. Cattle are reported to be healthy in all the taluks. Water and fodder are sufficiently available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Sowing is carried on in almost all the taluks.

Crops sown.—Horse gram in almost all the taluks; paddy in the Kolar, Chintamani, Mulbagal and Goribidnur Taluks; and huchellu in the Kolar and Sidlaghatta Taluks.

Crops harvested and their probable outturn.—Samé in the Kolar, Chintamani and Bagepalli Taluks and Gudibanda Sub-Taluk, yield 8 to 12 annas; nat ragi in the Kolar and Bagepalli Taluks, yield 12 to 16 annas; and til in the Kolar Taluk, yield 8 to 12 annas.

Standing crops.—Ragi, sugar cane, avare, togari and paddy are in good condition.

10. Prospects of the season are good. The prices of food stuffs have not abated. Labour is available to the cooly classes.

11. Except for a few cases of plague in parts of the Kolar Gold Fields, Kolar, Goribidnur and Malur Taluks and for cholera in some villages of the Kolar, Chintamani and Mulbagal Taluks, public health is generally good.

12. Cattle are healthy. Pasture and fodder are available.

TUMKUR.

8. Market well supplied.

9. *Agricultural operations.*—Raiyats are busily engaged in ploughing and sowing their lands with paddy, horse gram, etc.

Crops sown.—Horse gram in parts of all the Taluks and Sub-Taluks except in the Kunigal Taluk.

Crops harvested.—Nat ragi in parts of the Tumkur, Maddagiri and Pavagada Taluks, yield from 6 to 8 annas; cholum in parts of the Tumkur, Maddagiri, Chiknayakanhalli, Sira and Gubbi Taluks and Koratagere Sub-Taluk, yield from 4 to 8 annas; ground-nuts in parts of the Tumkur Taluk, yield 8 annas; baragu in parts of the Maddagiri and Chiknayakanhalli Taluks and Koratagere Sub-Taluk, yield 4 annas; sugar cane in parts of the Tumkur and Gubbi Taluks, yield 8 annas; black gram in parts of the Tiptur Taluk; paddy in parts of the Turuvekere Sub-Taluk, yield 8 annas; and save and navane in parts of the Chiknayakanhalli Taluk, yield from 4 to 8 annas.

Condition of standing crops.—Ragi, avare, togari, cholum, castor, paddy, sugar cane ground-nuts, haraka, navane, save, sajje, horse gram, til, gingelly, green gram and cotton are reported to be generally in good condition.

10. Prospects of the season are satisfactory. Food stuffs are available. Rainfall during the week was heavy in most parts of the district. It is reported that some of the tanks in the district are almost full.

11. Except for plague to a slight extent in Chikkatotlakere and Boregowdanapalya in the Tumkur Taluk, Kadagathur and Chikmalur in the Maddagiri Taluk, and Jabghatta in the Tiptur Taluk and cholera in Kamarajanahalli in the Koratagere Sub-Taluk, public health is otherwise generally good.

12. Cattle are reported to be healthy. Water and fodder are available.

MYSORE.

8. Market well supplied.

9. *Crops sown.*—Horse gram in parts of the Hunsur, Gundlupet and Nagamangala Taluks; Bengal-gram and coriander in parts of the T.-Narsipur Taluk; and paddy in parts of the Malvalli Taluk.

The state of standing crops is reported to be good.

Crops harvested.—Cholum in parts of the Mysore, Heggaddevankote and Gundlupet Taluks; til in parts of the Mysore, Hunsur and Heggaddevankote Taluks; and ragi in parts of the Hunsur Taluk.

Estimated outturn of crops.—Til and cholum in parts of the Heggaddevankote Taluk, yield 8 annas.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in seven, six and two villages of the Hunsur, Nanjangud and Heggaddevankote Taluks, respectively, in three villages in each of the T.-Narsipur and Malvalli Taluks, in one village in each of the Mysore, Seringapatam and Nagamangala Taluks and in the towns of Hunsur and Malvalli, public health is generally good.

12. Except for "Foot and Mouth" disease in parts of the Heggaddevankote Taluk, cattle are reported to be healthy. Water and fodder are available.

P. S. ACHYUTA RAO,
Sanitary Commissioner with the Government of Mysore.

DEPARTMENT OF AGRICULTURE, MYSORE.

THE JOLA GRASSHOPPER.

An organised campaign was carried out against this pest in 1911 by the Agricultural Department in villages round Honnali and Chitaldrug where it threatened to do serious damage to the Jola crop. The pest was known to be prevalent in Malebennur, Davangere, Channagiri and Vijapur; but in these places, rain fell rather late in the season and by the time the hoppers emerged, the crop had not been sown, or if sown, had not come up. The hoppers were consequently mostly starved to death. The operations against this pest were for this reason not extended to these centres. As a consequence of the work of the Agricultural Department and the unfavourable season for the pest alluded to before, the number of the hoppers has decreased considerably and the infestation is small and scattered this year.

The conditions that operated against the multiplication of the pest last year were abnormal and cannot reasonably be expected to recur. When it is remembered that each female hopper can lay seventy-five eggs, it is easy to see that the comparatively small number of hoppers now left will multiply rapidly and that in a couple of years the pest will be as bad as ever it was. It is therefore of great importance that the hoppers now remaining should be collected and killed off to reduce the chances of a reappearance of the pest as far as possible. It is necessary to do this, of course, before the hoppers begin to lay eggs.

As the number of hoppers is not likely to be much above 1,000 per acre, they can be easily picked by hand or a hand-net may be used if the crop is not too high. A hand-net is merely a bag, the mouth of which is always kept open by a ring of cane or bamboo, about a foot in diameter. A handle is attached firmly to the ring, and the whole contrivance can be made at a cost of about 4 annas each. The hoppers can be killed by dropping them into water with a little kerosene oil.

Copies of the Kanada bulletin giving in detail the life history of the pest can be had free on application to the department.

H. V. KRISHNAYYA,
Acting Officer in charge,
Department of Agriculture.

Prospectus.

4. The prospectus of the previous year was carefully revised by the Amildar effecting a clearer and more detailed classification and adding several classes. The total number of prizes was fixed to be 146 of the aggregate value of Rs. 296 and of these 2 were gold and 8 silver medals, the rest being money prizes. The prospectus was approved by the Exhibition Committee in its meeting held on 30th October 1911 and was published both in English and Kanarese.

Exhibition buildings and grounds.

5. The Exhibition was held on the hill of Sri Ranganathaswamy temple. The buildings had been specially constructed for the purpose and designated "Ananda Vilas." The previous year, the Exhibition had been held in a single room (28′ by 20′). As this year's Exhibition was to be on a much larger scale, another building measuring 46′ by 20′ consisting of two rooms was constructed.

6. A spacious pendal put up in front of the buildings was used as a lecture hall. In the large room had been staged the Industrial exhibits and in the small one Agricultural exhibits.

7. Separate space was set apart for the Horticultural Show.

8. A plot of ground measuring 115′ by 55′ adjoining the Exhibition building was got ready for demonstration purposes close to the town on the Chitaldrug-Channagiri road.

9. An eastern gate, styled "Coronation gate" in commemoration of the Imperial Durbar of Their Majesties, King George V and Queen Mary, and another gate on the northern side and the parapet wall along the ramparts were constructed this year. Outside the northern gate a plot of ground measuring 150′ by 62′ which was quite overgrown with rank vegetation was completely cleared and made use of by a theatrical troupe for their performances.

10. One of the two rest-houses on the hill was used as the Exhibition office and the other was reserved for visitors.

Lighting.

11. Proper arrangements were made for lighting six Kitson lamps having been brought from Bangalore at a cost of about Rs. 80.

Receipts of the exhibits.

12. The work of receiving and registering the exhibits was done by the Secretary and the Joint Secretary and the staging of the exhibits in the Exhibition rooms was supervised by Mr. M. G. Rama Rao, B.A., District Forest Officer, Shimoga, who was specially deputed for the purpose. The number of exhibits was much greater than in the previous year.

Arranging the exhibits.

13. The Agricultural Inspector deputed by the Agricultural Department helped in staging the exhibits of the Agricultural Section. Practical demonstration in jaggory making was held with a jaggory boiling machine sent with the Inspector.

14. Mr. N. Narasimha Iyengar, Superintendent, Civil Veterinary Department helped in the arrangements for the cattle show.

An official hand-book.

15. An official hand-book enumerating all the exhibits was prepared at the Exhibition. The detailed list of all the exhibits is appended.

Opening of the exhibition.

16. The Exhibition was opened by me on the morning of the 2nd February 1912. Below are noted the details of the programme of the work in connection with the Exhibition :—

N. B.—Exhibition was kept open till the 7th to afford scope to all the raiyats in the neighbourhood to witness the show.

Exhibits.

17. Exhibits were received from all the taluks of the district and also from the Hosdurga, Chitaldrug and Tarikere Taluks and the Harihar Sub-Taluk. The Supervisor of the Sloyd class at Bangalore sent certain exhibits and the Agricultural and Sericultural Inspectors also brought in exhibits relating to their departments.

18. The total number of exhibits received was 1,544, of which about 1,100 exhibits belonged to the Industrial Section and the rest to the Agricultural Section. The thanks of the Committee are due to all the officers who heartily co-operated in the collection of the exhibits and to Doctor Coleman for having arranged for the demonstration of improved agricultural machinery on the occasion.

Short description of the exhibits.

19. Black stone and pot stone vessels and cocoanut shell carving from the Tirthahalli Taluk, sandalwood and ivory carving from the Sorab Taluk, iron and steel work from the Shikarpur Taluk, embroidery and knitting work from the Shimoga and Channagiri Taluks, photographs and fancy goods from Mr. S. Rama Rao, photographer of Chitaldrug, and brasswork from the Channagiri Taluk were all exhibited in large numbers.

20. Mr. S. Subba Rao of Tarikere exhibited a hormonium manufactured by him and was awarded a silver medal. The exhibits of the Agricultural Section were almost all from the Channagiri Taluk. The total number of exhibitors was 123.

Demonstration.

21. Water-lifting and ploughing demonstrations were held on the morning of the 4th on the field to the south of the Cattle Show maidan. The raiyats took great in interest in the Exhibition and especially appreciated the advantages of improved machinery for jaggory making, winnowing and chaff-cutting. The water-lifting pump greatly interested the raiyats of these maidan taluks. The Sericultural Inspector explained in detail how mulberry has to be grown and how silk worms have to be reared in their different stages as also the different varieties of silk cocoons (wild and domesticated), the different kinds of silk, the manner in which the yarn is taken out from the silk waste, etc. Mr. K. Shama Iyengar of Sulekere exhibited silk yarn prepared by him. The Sericultural Inspector was asked to go to Sulekere to examine the mulberry grown and the silk worms reared. As a result of his inspection he stated that the soil and the climate of the Sulekere tract are very well adapted for mulberry growth.

Cattle Show.

22. The Cattle Show was held on the maidan lying to the west of the Haridravathi stream. The estimated number of cattle collected at the show was 5,000. The number of cattle sold and bartered was 2,006, the price varying from Rs. 100 to 450 a pair. 18 prizes amounting in all to Rs. 61 were awarded as noted below :—

	Rs.
1 Gold medal	18
1 Silver medal	6
16 Money prizes	37
Total ...	61

Horticultural Show.

23. This was held on a small scale in a separate room set apart for the purpose on the evening of the 2nd February 1912.

24. Vegetable and foliage plants were particularly good and the show was a great success. Mr. M. G. Rama Rao (District Forest Officer) was the Judge.

Lectures.

25. Lectures were delivered on the 2nd, 3rd and 4th February 1912, in the pandal erected in front of the two Exhibition rooms.

26. Arrangements had also been made to explain to the visitors as they passed by each class of exhibits the important features and the manner of cultivation, of the important agricultural exhibits. The thanks of the Committee are due to Mr. M. G. Rama Rao and other gentlemen, who kindly undertook to judge the exhibits.

Volunteers.

27. The Head Masters of the Anglo-Vernacular School and the Hindustani School were good enough to send 20 and 5 boys, respectively, and these were put through a course of training in drill. Uniforms with suitable badges were supplied to all the boys by their parents and in the case care of one orphan boy, by the Committee itself. The services of these volunteers were utilized in keeping order on the hill during the Exhibition.

Sports.

28. Wresting matches were arranged on the 4th, 5th and 6th February 1912 and various prizes awarded to the winners. The expenditure on this account was Rs. 37-12-0 as detailed below :—

	Rs.	a.	p.
1 Gold bangle	14	8	0
2 Silver bangles	12	0	0
Money	3	0	0
Cloths	8	4	0
Total ...	37	12	0

29. Photos of best bulls were taken and are sent separately.

Distribution of prizes.

30. On the morning of the 5th February, I awarded prizes to the winners and thanked the Committee for their efforts to make the Exhibition a success. The list of prizes awarded at the show is herewith submitted.

Visitors.

31. The District Board meeting of the quarter was specially held at Channagiri on the 3rd February and this afforded an opportunity for the Amildars and the District Board members to be present at the Exhibition. About 20,000 people visited the Exhibition. A special day was set apart for the female visitors.

Police watch.

32. The Exhibition grounds were guarded by the Police.

Financial aspect of the Exhibition.

33. The receipts this year were as shown below:—

General remarks.

34. The unqualified success of the Exhibition was in a large measure due to the valuable suggestion and the active co-operation of the Committee members not to speak of the great educative value of demonstrations held by Sericultural and Agricultural Inspectors deputed by the Revenue Commissioner to help at the Exhibition.

No. 2707-9—L. B. 175-11-9, DATED BANGALORE, 30TH SEPTEMBER 1912.

ORDER THEREON.—This is the second annual Exhibition and Cattle Show held at Channagiri and it is satisfactory to note that it shows a decided improvement and advance over the previous year's show both as regards the attendance at the show and the articles exhibited. 5,000 cattle collected this year as against 3,000 in 1911 and 1,544 articles were exhibited against 300 in the last year. The Exhibition was open from the 2nd to the 7th February 1912, and attracted 20,000 visitors. Lectures on Co-operative Credit Societies, on sanitation and on cattle diseases were delivered during the show and agricultural demonstrations were also held.

2. While expressing their gratification at the success of the Show and the Exhibition, Government request the Deputy Commissioner to convey to the members of the Committee their appreciation of their services in connection with the event.

3. It is observed that though the show was held in the month of February, the report of the Deputy Commissioner was not received till July, and that the report has not been drawn up in the form prescribed by Government Order No. 7007-24—L. B. 189-09-3, dated the 22nd February 1911.

The Jola Grasshopper.

An organised campaign was carried out against this pest in 1911 by Department in villages round Honnali and Chitaldrug where it threaten damage to the Jola crop. The pest was known to be prevalent in Maleb Channagiri and Vijapur; but in these places, rain fell rather late in the s time the hoppers emerged, the crop had not been sown, or if sown, had no hoppers were consequently mostly starved to death. The operations again for this reason not extended to these centres. As a consequence of the wo tural Department and the unfavourable season for the pest alluded to befo the hoppers has decreased considerably and the infestation is small and scatt

The conditions that operated against the multiplication of the pest abnormal and cannot reasonably be expected to recur. When it is remem female hopper can lay seventy-five eggs, it is easy to see that the comparative of hoppers now left will multiply rapidly and that in a couple of years the pe as ever it was. It is therefore of great importance that the hoppers now r be collected and killed off to reduce the chances of a reappearance of thi possible. It is necessary to do this, of course, before the hoppers begin to la

DEPARTMENT OF AGRICULTURE, MYSORE.

THE JOLA GRASSHOPPER.

An organised campaign was carried out against this pest in 1911 by the Agricultural Department in villages round Honnali and Chitaldrug where it threatened to do serious damage to the Jola crop. The pest was known to be prevalent in Malebennur, Davangere, Channagiri and Vijapur; but in these places, rain fell rather late in the season and by the time the hoppers emérged, the crop had not been sown, or if sown, had not come up. The hoppers were consequently mostly starved to death. The operations against this pest were for this reason not extended to these centres. As a consequence of the work of the Agricultural Department and the unfavourable season for the pest alluded to before, the number of the hoppers has decreased considerably and the infestation is small and scattered this year.

The conditions that operated against the multiplication of the pest last year were abnormal and cannot reasonably be expected to recur. When it is remembered that each female hopper can lay seventy-five eggs, it is easy to see that the comparatively small number of hoppers now left will multiply rapidly and that in a couple of years the pest will be as bad as ever it was. It is therefore of great importance that the hoppers now remaining should be collected and killed off to reduce the chances of a reappearance of the pest as far as possible. It is necessary to do this, of course, before the hoppers begin to lay eggs.

As the number of hoppers is not likely to be much above 1,000 per acre, they can be easily picked by hand or a hand-net may be used if the crop is not too high. A hand-net is merely a bag, the mouth of which is always kept open by a ring of cane or bamboo, about a foot in diameter. A handle is attached firmly to the ring, and the whole contrivance can be made at a cost of about 4 annas each. The hoppers can be killed by dropping them into water with a little kerosene oil.

Copies of the Kanada bulletin giving in detail the life history of the pest can be had free on application to the department.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Subject No. 222 of the Representative Assembly Proceedings of 1911 in regard to the usefulness of lantana and prickly pear as manure and the framing of a rule for the destruction of lantana and the reply of Government thereto.

2. The following letter No. 332, dated 7th August 1912, from the acting officer in charge of the Agricultural Department reporting on the subject.

With reference to your letter No. R. 438-39 -L. R. 601-11-1, dated 23rd July 1912. I beg to state that in the case of lantana we are in a position to recommend that the shrubs may be cut and burnt and the ashes added to the farm yard manure heap or pit. In this way, the shrubs will have been got rid of and the value of manure will have been increased. It is true that in burning, the nitrogen is lost but there are comparatively simple ways of supplying this constituent. The two other plant foods suffer no appreciable loss and are all present in the ash.

2. As regards prickly pear, its manurial value has not been tested here nor anywhere else, as far as I can see from the literature on the subject. In some places it seems to have been tried as fodder after burning off the spines with a special burner. In some parts of Mysore I have heard of its being used as a green manure for paddy land but only to a very limited extent. Before saying anything definitely, it would be therefore advisable to conduct some experiments in order to determine its manurial value, etc. I request that you will kindly inform me if in view of the above explanation a publication of a note as proposed may be delayed until the completion of the experiments on prickly pear.

3. With regard to the fly that is said to deposit its eggs in the seeds of the lantana and thus prevent its spread, it seems to me that the language of Dr. Koch is very guarded and not nearly so enthusiastic as when he is speaking of the parasite on the leaf-hopper of the sugar cane for instance. The present opinion seems to be distinctly against an importation of parasites to combat insect pests, one of the reasons being that it is not at all unusual for a parasite to acquire new habits with a change of environment. In any case, an introduction of a new parasite could only be made after long and careful research, something for which the present staff is inadequate.

4. I am writing by this mail to the Agricultural Department of Hawaii for full information regarding this fly and their experience.

CAMP NO. R. 40-5--L. R. 601-11-5, DATED MYSORE, 19TH OCTOBER 1912.

ORDER THEREON.—Recorded.

2. The result of the communication made by the Acting Officer in charge of the Agricultural Department with the Agricultural Department of Hawaii, regarding the fly referred to in the letter read above is awaited.

READ—

Subject No. 12 of the Representative Assembly Proceedings of 1911, regarding the introduction of the Lantana Extirpation Act into the State and the reply of Government thereto.

CAMP NO. R. 46-50—L. R. 601-11-6, DATED CAMP MYSORE, 19TH OCTOBER 1912.

ORDER THEREON.—The question of introducing a Lantana Extirpation Act making it obligatory on pain of certain penalties on all landholders to keep their lands clear of lantana is one which is attended with great practical difficulties. At any rate, before resorting to legislation in the matter, Government consider it necessary that a full trial should be given to the Rules contained in Government Order No. R. 3298-322—L. R. 508-09-2, dated 18th November 1910, by extending the scope of its operation to such places as are now badly infested with this plant pest. These rules were tentatively tried in selected hoblis of the taluks of Hunsur and Mulbagal. Government are accordingly pleased to direct that the concession sanctioned in the Government Order just mentioned be extended to the Kadur, Hassan and Mysore Districts which are most infested with lantana.

2. The Deputy Commissioners of the above districts are requested to submit a special report to Government at the end of every official year on the working of these rules in their districts.

23. *Offer of special awards.*—The Committee will submit to the Darbar for their consideration, any offer of special prizes, medals or donations from private individuals or Associations made with a view to promote any branch of art or industry, and such offers, if permitted by the Darbar, will be thankfully accepted. Proposals for the offer of any of these special awards should reach the Secretary before the 15th of November, 1912 in the form E. annexed.

24. *Classification of exhibits.*—The exhibits will be classified according to the prize list appended to this prospectus, and the exhibitors should quote on each article the group section and sub-section to which it belongs.

25. *Sale of exhibits.*—All sales shall be effected through the Exhibition Office.

26. *No admission fee.*—No fees shall be demanded for admission to visitors. However no one will be admitted without a ticket which will be issued at stated hours at the gate. Passes will be granted on application to exhibitors or their agents who desire frequent ingress in the interests of their exhibits.

27. (*a*) *Removal of exhibits.*—No article, whether purchased, owned or in the custody of any person shall be removed from its place in the stalls or out of the exhibition compound without a permit from the Secretary.

(*b*) Exhibitors will make their own arrangements for the prompt removal of their articles within two days after the closing of the Exhibition, Exhibits remaining after that time will be disposed of as the Committee deem fit as indicated in Regulation 17. Perishable articles will be allowed to be removed at the option of the owners after 24 hours of the opening of the Exhibition.

28. *Custody of exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an agent or attender of the owner.

29. Generally, arrangements will be made for posting responsible men to be in charge of the exhibits.

30. *Committee accept no responsibility.*—Though the Committee shall make necessary arrangements for their safe custody, no responsibility shall be accepted by the Committee for any damage to, or loss of, exhibits however occurring.

31. *Lectures.*—The Committee shall arrange for a series of addresses and lantern lectures possessing instructional and educational value, on Education, Arts, and Agriculture. They shall invite or otherwise arrange for experts and specialists to deliver lectures on these subjects. Special arrangements will be made for accommodating and providing other facilities to lecturers and distinguished visitors.

32. *Demonstrations and model lessons.*—The Committee shall also provide for an adequate number of demonstrations and model lessons.

33. *Conferences.*—There shall be three conferences respectively of Elementary Masters, High Schools' Teachers, and leading raiyats, and the deliberations of the conferences shall be embodied in the Committee's final report.

The Revenue Inspectors and Vattam officials are hereby directed to use all their influence for ensuring a full representation of the leading raiyats in the State at the agricultural conference.

34. *Pamphlets.*—Short monographs on industrial, agricultural, and educational topics will be thankfully accepted by the Committee and printed in pamphlet form for free distribution at the time of the Exhibition. The manuscripts should reach the Secretary before the 1st October 1912.

35. *Allowance to rural teachers.*—The Darbar will bear the travelling and halting allowances of all rural teachers of State and other recognised Institutions situated beyond five miles from the Municipal limits, at the rate of one rupee per head: provided they have attended all the sessions. A reduction at the rate of four annas will be made for absence from every session, and absence from three sessions will entail forfeiture of the whole allowance.

36. *Allowance to raiyats and artisans.*—Raiyats and artisans of rural parts dwelling beyond five miles off the Municipal limits who wish to take part in the Agricultural and Industrial competitions will be granted a consolidated allowance of one rupee per head for travelling and halting charges on production of a certificate in the form F. subjoined, signed by the Tahsildar of the Taluk testifying to the fact that the certificate-holder is a *bona fide* ryot or artisan and is qualified by skill and experience to take part in the competition for which he has entered his name, as also on the production of another certificate signed by the Secretary to the Exhibition Committee, declaring the fact of his having taken part in the said competition, and attended the agricultural lectures and conference.

37. *Appointment of Exhibition officers.*—The Committee will, before the 1st December 1912, submit a list of persons in State service or otherwise, competent and qualified to explain the value and utility of exhibits of the various sections. They will, on approval, be so appointed, and enter on their duties a day before the opening of the Exhibition, and continue in office till the Exhibition closes, their duties being to afford all possible facilities to the visitors in the way of explanation and enlightenment.

38. *Appointment of judges.*—The Committee shall apply to the Darbar not later than a fortnight before the opening date for the appointment of competent persons to help them in judging the various sections of the exhibits and the several branches of the competition to be held in connection with the Exhibition. The judges so appointed shall enter on their duties on the 1st day of the Exhibition, and make a formal report to the Committee three days before the closing of the Exhibition, of the awards proposed and their opinions on the points desired by the Committee.

39. (*a*) *Judging*—No exhibitor shall judge exhibits in the section in which he happens to be a competitor.

(*b*) No prizes shall be awarded unless in the opinion of the judges the exhibits merit reward.

40. *Closing day of Exhibition.*—The awards will be given away on the day of the closing of the Exhibition, and may take the shape of books, articles or money in the case of inter-school competitions between pupils. The Secretary shall on that occasion read the report of the Committee on the working of the Exhibition, as also on the opening day the address of welcome.

41. *Final report.*—The Committee shall within three months of the closing date submit to the Darbar a full report of the Exhibition together with the accounts relating to the expenditure of the sum drawn by them. They shall then hand over charge of articles and records in their possession to the custody of the Superintendent of Schools. The Committee shall then be dissolved.

42. *Publication of final report.*—The report of the Committee together with the orders of the Darbar shall be published in the State Gazette and in separate book form for the information of the public.

43. *How to address communications* re *Exhibition.*—All communications relating to the Exhibition shall be addressed to the Secretary.

ADDRESS

OF THE

DEWAN OF MYSORE

TO THE

DASARA REPRESENTATIVE ASSEMBLY

23rd OCTOBER 1912

GENTLEMEN,

It is my pleasing duty to welcome you to this the twenty-ninth meeting of the Dasara Representative Assembly, and to lay before you by command of His Highness the Maharaja, a brief account of some of the more important results of the administration of the State during the past official year, and of the measures under contemplation for the present year. In proceeding to do so, I cannot commence more appropriately than by referring to the great historic event which was celebrated with unsurpassed brilliance and splendour at Delhi in December last, *viz.*, the IMPERIAL DURBAR for announcing the solemnity of the Coronation of His Most Gracious Majesty, KING GEORGE V, EMPEROR of INDIA. In response to His Excellency the Viceroy's *Kharita*, His Highness the Maharaja proceeded to Delhi accompanied by His Highness the Yuvaraja and attended by the principal Officers and Sirdars of the State and a few of the leading representative non-official gentlemen. It was an extraordinary privilege, indeed, to one and all to be present at the great Coronation Durbar. On that occasion the Knighthood of the Most Eminent Order of the Indian Empire was conferred on His Highness the Yuvaraja, and the Mysore State occupied a prominent place in the Durbar Honours list. This most auspicious event was also celebrated locally throughout the State in a manner befitting the occasion, and all classes of His Highness' subjects joined and vied with one another in displaying their devotion to the person and throne of the King-Emperor.

2. You will be gratified to hear that the Government of India has been pleased to deal in a liberal and generous spirit with the question of the surplus revenues of the Civil and Military Station, Bangalore. The subject has been under correspondence since 1897 when an allusion was made to it by Sir K. Sheshadri Iyer in his Address to this Assembly. The Government of India has now resolved to exclude partially or wholly certain items of charges from the *pro forma* accounts maintained, and as retrospective effect is to be given to the resolution, substantial benefit is expected to accrue to the State's Finances.

FINANCE.

3. I shall now take up first, the subject of the finances of the State. The financial statement and the Budget Estimates for the year 1912-13 were published with an issue of the *Mysore Gazette Extraordinary* under date 12th August 1912, and have been before you for two months past. The subject of finance will here be considered under three divisions, *viz.*, the closed accounts of 1910-11, the revised estimates for 1911-12, and the Budget Estimates for 1912-13.

Accounts of 1910-11.

4. The estimates for the year 1910-11 were based on the expectations of a normal year and provided for a surplus of 5·66 lakhs. In the actual result the surplus has amounted to Rs. 24·02 lakhs. The ordinary account shows a surplus of 19·62 lakhs and the Cauvery Power Scheme of 4·40 lakhs. This surplus was secured after appropriating 3·33 lakhs for contributions for Famine Reserve and Sinking Fund, and setting aside 2·84 lakhs towards the normal annual Depreciation Fund. The fluctuations under the various heads have been fully explained in the Appropriation Report published with the *Mysore Gazette* of the 16th May 1912.

Revised Estimates for 1911-12.

5. According to the revised estimates which have been carefully prepared and are not likely to differ much from the actuals, the revenue realised for the year 1911-12 is expected to amount to Rs. 249·80 lakhs, *viz.*, ordinary account Rs. 233·16 lakhs and Cauvery Power Scheme account Rs. 16·64 lakhs. The expenditure similarly is expected to amount to Rs. 235·50 lakhs, *viz.*, ordinary account 223·05 lakhs and Cauvery Power Scheme account 12·45 lakhs (including contributions to Sinking Fund and depreciation). The net result of the transactions is that, instead of a deficit of 3·29 lakhs anticipated in the Budget Estimates for 1911-12, the revised estimates show a surplus of 14·30 lakhs.

Budget Estimates for 1912-13.

6. In consequence of the deficiency in the early (*mungâr*) rains in many parts of the State, the estimates for the year 1912-13 had to be cautiously framed. The total revenue is estimated at 244·60 lakhs, *viz.*, 228·40 lakhs on the ordinary account and 16·20 lakhs under the Cauvery Power Scheme account. The total expenditure and appropriations come to 261·95 lakhs on the ordinary account and 16·11 lakhs on the Cauvery Power Scheme account, made up as follows :—

	Rs.
Revenue account	7,12,000
Capital account	6,86,000
Sinking Fund account	1,33,000
Interest on loan	80,000
Total ...	16,11,000

These make a total expenditure of 278·06 lakhs. There is thus a deficit of 33·46 lakhs. The land revenue in consequence of the aforesaid seasonal conditions has been taken at 101·50 lakhs and is still allowed to remain there, though there has lately been a decided change for the better in all parts of the State. The other heads have been taken at the ordinary standard. The seemingly large estimate under Interest is explained by larger realisations expected during the year and to the collection at the beginning of the current year of a part of the interest on investments due last year.

7. The continued prosperity of the last three years has made it possible for Government to deal with the demands of all the spending departments in a liberal spirit. An additional grant of 2·60 lakhs has been given for special measures in connection with the spread of education and a grant of 1·46 lakhs has been given to the Economic Conference for meeting, among other things, the cost of investigating special industries, conducting a general Industrial Survey of the State and carrying on experiments in consultation with experts on Industrial and Agricultural subjects. The ordinary Public Works grant has been fixed this year at 30 lakhs, with an additional grant of 20 lakhs for the Kannambadi Reservoir and 7 lakhs for the Bangalore Electric Tramways. The Railways also come in for a large grant of 13·25 lakhs. The surveys of certain lines are in progress and Government are in hopes of starting construction on one or more lines in the very near future.

8. It will thus be seen that the apparently large deficit in the Budget need cause us no anxiety whatever about the financial situation of the State. It represents no extravagance in expenditure; it indicates no falling off in our resources. It only means that in laying out the programme of our work during the current year we have been able to devise means for investing a part of our savings from past years in large projects and measures of far-reaching importance in connection with the material and moral progress of the population.

9. Statement B placed in your hands shows the cash assets and liabilities of the State as they stood on the 1st July 1912, and you will see from it that the financial condition is satisfactory.

The Account Department.

10. The new scheme of local audit sanctioned in 1910-11 has been in fair working order. During the year the municipal accounts of 1910-11 of all the districts except Bangalore and Hassan, and the accounts of the Kolar Gold Fields Sanitary Board for three years ending 30th June 1911 were locally audited. It is proposed to extend the scheme of local audit to District Funds during the current year. Lack of knowledge of account rules and want of supervision over collection of revenue appear to be the chief drawbacks noticed and it is hoped that careful supervision by Vice-Presidents and other local officers over income and expenditure, combined with annual local audits by responsible officers of the Account Department, and the adoption of a regular system of procedure and accounts, will soon conduce to the rectification of the existing defects. In furtherance of this object, a simple and comprehensive manual has been drawn up after carefully studying the systems prevailing in different provinces of British India and the features special to the Mysore system of municipal administration. A provisional issue of this Manual of Municipal Accounts has been printed, and it will be finally adopted with such changes as may be decided on, in consultation with the Deputy Commissioners and Heads of Departments. The Mysore Treasury Manual has been issued and the Taluk Treasury Manual completely revised. For the benefit of officials in taluk offices, a Kannada translation of the Taluk Treasury Manual is almost ready for issue.

11. The number of depositors and the amount of deposits in the Government Savings Banks have been steadily increasing. On the last day of the year there were 15,212

depositors and the amount of deposits to their credit was Rs. 72,64,351 as against 15,098 depositors and Rs. 67,31,353 in the corresponding date of the previous year. It may interest you to learn that it is under contemplation to afford further facilities to the depositors by relaxing the existing maxima rules of deposit.

STATE LIFE INSURANCE.

12. The working of the State Life Insurance Fund continued to be satisfactory. During the year, 1,468 proposals were dealt with and 1,158 policies issued, assuring a bonus of Rs. 6,68,251 for a monthly premium of Rs. 2,486. Excluding policies that had been paid or otherwise lapsed, there remained on the books at the close of the year 14,554 policies held by 7,694 persons, assuring a bonus of Rs. 71,16,428 for a monthly premium of Rs. 24,555. Under the Family Pension Rules sanctioned in March 1911, ten persons have secured certificates for a total monthly pension of Rs. 205 to their nominees on payment of a monthly subscription of Rs. 66. In August 1911 a scheme of optional insurance entailing payment of premiums for more than 10 per cent of an officer's pay, subject to the prescribed maximum of Rs. 50 was sanctioned. Two-hundred and sixty-six officers availed themselves of the concession during the year.

LEGISLATION.

13. The Legislative Council held three meetings during the year. Fifteen Bills were considered, including the nine which were pending from the previous year. Six of these pending Bills and two out of the new Bills were passed into Law. The Bill further to amend the Mysore Chief Court Regulation, which was intended to empower a single Judge of the Chief Court to dispose of first appeals coming before it so as to relieve the pressure of work in that Court, was withdrawn as this necessity ceased after the re-establishment of a District Court for the Bangalore Division. The remaining six Bills were in various stages of progress. The following are the Bills which were passed into Law :—

(1) The Bill to amend the Mysore Municipal Regulation, 1906. (2) The Mysore Local Boards Regulation Amendment Bill. (3) The Prevention of Juvenile Smoking Bill. (4) The Bill for the Protection of Judicial Officers. (5) The Bill to further amend the Mysore Court Fees Regulation, 1900. (6) The Bill to amend the Indian Evidence Act as in force in Mysore. (7) The Indian Contract Act Amendment Bill, and (8) The Bill to further amend the Mysore Land Revenue Code, Regulation IV of 1888.

14. The Government have also under consideration the introduction into the State of the Probate and Administration Act in force in British India, and a Regulation to deal with the Religious and Charitable Institutions in the State. I have no doubt that this last Bill which has recently been published in the *Gazette* and which contemplates the supply of a long-standing want, will be welcomed by the members of this Assembly, from whom we shall also be glad to receive criticisms and suggestions. The Government also propose to introduce into the Legislative Council, at an early date, a measure for the expansion of Elementary Education by the judicious employment of the principle of compulsory attendance at schools of children of school age in selected areas. A copy of the Bill will be placed in your hands and, on this measure also, we shall be glad to receive your criticisms and suggestions.

15. Rules and Notifications under enactments in force were issued on a variety of subjects connected with the Opium Act, Civil Courts, Land Revenue Code, Stamps, Forest, Game and Fish Preservation, etc.

CENSUS.

16. The sorting of slips for the Imperial and Provincial Tables was commenced in July 1911 and completed by the end of December. The work of compilation of Imperial Tables was proceeded with concurrently and advance copies of the volume of Tables were sent to the Census Commissioner for India in May 1912. Since then, the Tables Volume and the Report have been issued. The Talukwar Tables, the Village Population Tables and the Administrative Volume are in various stages of preparation and are expected to be issued by December 1912.

Ethnographic Survey.

17. In connection with the Ethnographic Survey of the State, eight monographs were printed and published during the year, dealing with the Idiga, Medar, Golla, Uppara and other castes. One more monograph has since been issued, and two others are in the press.

Mysore Civil Service Examination.

18. Before proceeding to deal with the major executive departments of the State, I wish to announce to you that the Mysore Civil Service Examination Rules have been revised in various respects and chiefly so as to restrict the examination to candidates who are either Mysoreans by birth or domicile or who have taken their degrees from one of the Mysore Colleges. Provision has been made therein for the practical training of the Civil Service Probationers in the various branches of the taluk and district administration.

Seasonal Conditions.

19. The seasonal conditions of the year under report were not as favourable as those of the preceding year. There were some showers in April, and the early (*Mungar*) rains of May and June were very favourable, being above the average, and gave good prospects. But the rainfall in July and August was scanty, particularly in the latter month, which received only about 50 per cent of the average. This caused some anxiety, but with the advent of the North-East Monsoon which gave abundant rain in October, the outlook improved considerably. The total average rainfall for the year was, however, only 33·22 inches, and it was less by 15·07 inches than that of the previous year which was one of abundant rainfall, and by 3·73 inches than the average for the last 40 years. As a result of these conditions, the average out-turn of crops was somewhat lower than that of the previous year. The prices of the principal food grains, which were in the early part of the year lower than in the corresponding part of the previous year, began to rise in the latter part of August and did not show go down in the months of January and December, as they did in the previous year. In January 1912 ragi and rice (2nd sort) were selling at 15·6 seers and 9·5 seers per rupee as against 20·25 and 10·06 in January 1911. There was a slight fall in the price of rice in February, but on the whole the prices of these articles have been steadily going up.

Minor Tanks Restoration Scheme.

20. Out of the sum of one lakh of rupees allotted for the restoration of minor tanks, a sum of Rs. 82,132 or a little over 82 per cent was spent. The number of minor tanks dealt with was 540, of which 272 were restored and 268 remained incomplete at the end of the year. I may state, in this connection, that the establishment at present responsible for this work has been found defective in quality and strength and it is under contemplation to improve the *personnel* in this direction. With a view to utilize their services economically, a proposal to increase the allotment under the Minor Tank Scheme to Rs. 2 or 2½ lakhs annually is under consideration. This would enable a larger number of tanks being dealt with in a year, while the work turned out would also be of a more satisfactory character.

Settlement of Mahratta Kunbies.

21. Under the scheme sanctioned in February 1908 for the settlement of Mahratta *kunbies* in the Shimoga Malnad, 90 families consisting of 301 working hands and 173 children have settled themselves as permanent agriculturists in the Karur and Bharangi hoblis of the Sagar

taluk. A sum of Rs. 5,578 in all has been spent upon them, nearly the whole of it being towards the purchase of plough cattle and seed grains. An extent of 304 acres has been brought under permanent cultivation and 119 acres under the *kumri* system. The *kunbi* settlers appreciate their settled conditions, so much so, that a distinct movement is reported among their kinsmen across the borders to lead a settled agricultural life. It has since been decided to extend similar advantageous terms to other indigent settlers in our malnad.

Civil Veterinary Department.

22. There were eight Veterinary Hospitals and Dispensaries in the State in charge of Assistant Veterinary Inspectors. As the work in the Bangalore and Mysore districts was very heavy, the two temporary Assistant Veterinary Inspectors whose entertainment was sanctioned for three years from February 1912 were attached to these districts. These institutions have been growing in popularity and there has been a steady demand for more of them. Proposals for the conversion of the existing dispensaries into hospitals and for opening additional hospitals, are under the consideration of Government.

23. The number of animals treated was 14,058 as against 13,440 in the previous year. Cattle formed 64 per cent of the animals thus treated, the remainder being made up of horses, dogs, etc. The number of cattle inoculated against rinderpest was 4,703 as against 551 in the previous year and the results were very encouraging. Black-quarter broke out in an epidemic form in the Tumkur and Chitaldrug districts at the beginning of the year and some sporadic cases of the same disease occurred in the latter part of the year in parts of the Bangalore, Kolar and Mysore districts. There was also an outbreak of rinderpest in an epidemic form in the Sagar taluk. Beyond this there was no violent outbreak of diseases among cattle. Foot-and-mouth disease which used to break out in an epidemic form every year during the months of March, April and May did not make its appearance during the year under review.

Improvement of Milch Cattle.

24. A scheme for the improvement of the breed of milch cattle was sanctioned by Government in April last year. A committee of four members, with Col. R. G. Jones as President, was constituted and a sum of Rs. 3,000 was placed at its disposal. Some time was spent in discussing the advisability of importing well-known foreign breeds and the Committee finally decided to make a commence-

ment with the local Amrut Mahal breed. Accordingly eight cows have been selected and are now being provided with good feeding and shelter at the Kunigal Stud Farm. It is proposed to add to this stock by the purchase of other good milkers and to improve the strain by the service of a breeding bull with a good milch parentage.

Cattle Shows and Exhibitions.

25. Cattle Shows were held in all the districts except Kolar and Tumkur, as well as big cattle fairs at Thondanur in the Mysore district and at Nagalmadike, Kyamenahalli and Siddaganga in the Tumkur district. At Channagiri in the Shimoga district, a cattle show was held in combination with an Agricultural and Industrial Exhibition. A similar Exhibition was also held at Goribidnur in the Kolar district. Lectures and distribution of pamphlets on the prevention of cattle diseases and on the improvement of the breed of cattle formed, as usual, a part of the programme of the cattle shows. Demonstration of improved agricultural implements and of machinery for the manufacture of sugar and lectures on improvement of agriculture and treatment of crop diseases formed also a special feature of the shows held at Hassan, Harihar and Channagiri. The efforts of the Agricultural department in this direction are reported to have been well appreciated by the ryots. It is satisfactory to note that the revenue officers are taking active interest in organizing such shows and exhibitions and that the non-official population interested in agriculture have begun to appreciate their advantages.

26. The Dasara Industrial and Agricultural Exhibition at Mysore which has become an annual fixture and is now in its sixth year has proved a very successful institution. It has grown from a local to a provincial exhibition and, though on a modest scale, is fast assuming an all-India character. The number of exhibits and exhibitors have been on the increase from year to year, the variety of subjects covering practically every phase in agriculture and industry. The effect on local progress and enterprise has been most gratifying and the educational value of the Exhibition is amply testified to by the steady improvement in the exhibits from all parts of the State. This was one of the chief objects with which His Highness' Government established the exhibition, and the success achieved is mainly due to the continued and unwavering support of His Highness the Maharaja.

District and Taluk Office Establishment.

27. I may also mention that it has been decided to grant travelling allowances to taluk officials for tours on

official duty. The revision of the establishment of the district offices has been effected and the question of revising the taluk office establishment is under contemplation.

The Agricultural Department.

28. Work on the Experimental Farm at Hebbal was continued much on the usual lines, and several interesting results were recorded with regard to ragi. Additional proof has been forthcoming that the effect of the green manures on the soils is cumulative rather than immediate. The large quantity of green plants ploughed into the soil in 1909 showed its effect last year, and one of these plots, which on account of its low-lying position also commanded a sufficiency of moisture for rapid and thorough decomposition of the green manure used, has yielded at the rate of 1,845 lbs. or 800 seers of ragi per acre, which is double the yield of the best of the unmanured plots. Of the green manures tried, cow-pea supplemented with a small quantity of potash and phosphoric acid has proved most beneficial both to the *Kar* (a quick-growing variety) ragi sown in May and the ordinary ragi sown in July. The increase in yield in the case of *Kar* ragi was 28 per cent and in that of the ordinary ragi 41 per cent. The result of the last harvest is emphatically in favour of ploughing up dry land as soon after the harvest as possible. The yield from plots ploughed early was three times that from plots which were ploughed only a few days before sowing. The experiment of rotation of ragi with groundnut has been begun this year with a view to ascertain whether such rotation will be advantageous to both crops, and two plots have been set apart for the purpose. The three varieties of dry land lucerne imported from America have made only a moderate growth, some of the plants succumbing to the prolonged drought of this summer. Fresh seed has been again imported this year and a fairly large area has been put under these varieties.

29. Out of the 25 varieties of paddy tried on a small scale last year, the twelve best have been selected for growing on a larger scale this season. Seed of such varieties as give good results will be available for distribution next year. The Java and Mauritius varieties of sugar cane have again done very well. A small plant for jaggery-boiling, similar to that which is being used on the Farm, consisting of a rectangular pan and a round pan set at different levels for ease in filtration, was sent out and its working demonstrated in Channagiri, Betur,

Harihar, Sulekere, Hiriyur and Kunigal. The departmental staff succeeded in making a hard jaggory in places where this had hitherto not been done. The jaggory made by the department was also of a better quality than that made by the local method and fetched a higher price in the market. From Kodagahalli, Byatarayanapura and Harohalli also came requests, which were complied with, for help from the department in connection with jaggory boiling.

30. Efforts are being made for the introduction of Cambodia and Broach cotton into general cultivation in the Chitaldrug and Shimoga districts. About 5,600 lbs. of seed of these cottons have been distributed so that there should be over 1,000 acres under these classes of cotton this year.

Implement Depot.

31. The Implement Depôt continued to transact useful business, the total number of ploughs sold being 193 as against 100 in the previous year. Other implements sold were chaff-cutters, harrows, chain-pumps and sugar pans. Experiments and analysis in connection with green manures, sugar cane, soils, cattle foods, etc., continued to be carried on at the Chemical Laboratory.

Mycology and Entomology.

32. As in the previous year, the demonstration of combative measures against *Koleroga*, chiefly occupied the attention of the mycological staff. Sixty-eight gardens, excluding the Experimental Gardens at Marthur and Agumbe, covering an area of about 21 acres, have been treated by Government agency in various parts of Sorab, Sagar, Nagar, Tirthahalli and Koppa taluks. Thirty-three garden owners have bought sprayers and have themselves treated about 100 acres. The investigation of the *Anaberoga* of supari and the Spike disease of sandal, started some time ago, could not be pushed on for want of sufficient staff. Some further work has been done on the Ring disease of potatoes. The study of the life-history of 'Smut' on *jola* was nearly completed. The entomological work was chiefly confined to operations against the grasshopper pests of *jola* and rice and further investigations of the *kumblihula* pest. A preliminary bulletin recommending the hand-picking of moths and deep ploughing as means of controlling the *kumblihula* pest was published and distributed in the affected places.

Co-operative Societies.

33. A Co-operative Conference was held at Mysore during the last Dasara and was opened by His Highness

the Yuvaraja. The Conference sat in deliberation for three days under the presidency of Rajamantra Pravina Mr. C. Srinivasaiengar. Over three hundred members attended the Conference coming from distant parts of the State. Several questions connected with the subject of co-operation in relation to the needs of Mysore were discussed, and many important resolutions were passed on the steps to be taken for promoting the movement on right lines. It is hoped that the Conference will lead to a wider and better understanding of the objects and principles of co-operation on the part of the public and to an appreciation of its benefits, both economic and social. As a result of this and other causes, the co-operative movement made great progress during the year 1911-12. The number of societies in the State rose from 111 to 208, ninety-eight societies having been newly registered during the year and the registration of one cancelled. There was a corresponding increase in membership from 9,043 to 13,148 and in working capital from Rs. 3,71,194 to Rs. 6,75,312, while the reserve fund rose from Rs. 9,549 to Rs. 18,833. The progress was chiefly in the Bangalore, Mysore and Tumkur districts, but there was also a considerable amount of co-operative activity in the Kolar and Hassan districts. The districts of Shimoga, Kadur and Chitaldrug are still backward.

34. The rapid progress of the co-operative movement in the State has been greatly facilitated by the valuable service rendered to it by two Central Banks—the Bangalore Central Co-operative Bank, Limited, and the Mysore district Central Co-operative Bank, Limited. These institutions have been formed principally for the purpose of financing societies in need of funds. The first-named institution includes the whole State in its area of operations. Its transactions have increased during the year. Nearly all its shares have been taken up, its collected capital rising from Rs. 14,010 to Rs. 26,500. A sum of Rs. 66,445 has been deposited in the Bank by members and non-members. The Government placed a sum of Rs. 35,000 at the credit of the Bank in order to provide it with a ready resource against sudden and unforeseen demands. But the funds at the disposal of the Bank being quite sufficient for its purposes the Government loan has not been utilized. During the year, it lent a sum of Rs. 40,700 to 13 Societies, the total loans outstanding at the end of the year amounting to Rs. 78,360 to 20 Societies and 7 individual members. An equally

interesting and satisfactory feature is the fact that it affords a ready and safe investment for the reserve and other surplus funds of co-operative societies. The Bank has, in this way, attracted a sum of Rs. 12,700 as deposits. The Mysore District Bank was started during this year for a similar purpose with its operations confined to the societies in the Mysore District. This institution has not yet had time to fully develop its resources, but there is no doubt that, when it does, it will be as useful as its sister institution in Bangalore. In consequence of the existence of these central financing agencies, there has been little demand for assistance from Government. Out of the sum of Rs. 2,000 graciously placed by His Highness the Maharaja at the disposal of the Registrar, a sum of Rs. 700 was given as a deposit to two societies, and no loans have been granted out of State Funds. A sum of Rs. 650 was recovered in connection with His Highness' Fund and a sum of Rs. 146 in connection with State Funds.

35. The tendency towards the formation of societies on the unlimited liability basis noticed in last year's report appears more marked this year. Out of the 98 new societies which were formed, only 16 have limited their liability, the rest adopting unlimited liability. Considered according to the class of people most served by the societies there were 29 for the benefit of officials, merchants and other business men, and 69 for that of agriculturists, artizans, coolies and others.

36. To cope with the increase of work consequent on this extension of the co-operative movement, the department was strengthened by the addition of an Assistant to the Registrar and two Inspectors, the former place being filled by Mr. R. Ranga Rao, who returned after completing a course of study on Co-operation in England and on the Continent. The Honorary Organizers, Messrs. Badami Krishna Rao, T. Venkataramaiya and H. R. Srinivasa Rao, have been doing their work with energy and enthusiasm. Messrs. Rajamantra Pravina C. Srinivasa iengar and D. Appu Rao continue to direct the affairs of the Bangalore Central Co-operative Bank with care and success.

Agricultural Banks.

37. The year under review opened with nine Agricultural Banks in working condition, but it was found necessary to order the winding up of three of them, *viz.*, those at Gulur, Rampura and Haldodderi—all in the Tumkur district, as they had fallen into arrears and did

not show signs of vitality. At the end of the year therefore only six banks were working. Of these, the bank at Nanjangud which had paid off the Government loan and which was doing some work out of its reserve of about Rs. 4,500, has since ceased to transact any business and the members have resolved to close the concern after disposing of the reserve under para 76 of the Articles of Association. It is proposed to transfer the amount to a local society for the promotion of *Vedic* learning and the matter is under consideration.

38. With regard to the question of resuscitating the agricultural banks referred to last year as engaging the attention of the Government, it was decided to establish in places where conditions were favourable, co-operative societies on the unlimited liability basis by the side of the defunct agricultural banks and thus give an opportunity to the members of the latter institutions to enjoy the facilities afforded by co-operative societies. Accordingly at 18 different places, co-operative societies have been started and 56 members of the defunct banks have become members of such societies, borrowing Rs. 1,525 for liquidating debts due to the bank, and Rs. 2,333 for agricultural purposes. At the same time these members have contributed a sum of Rs. 1,093 to the societies as share-capital, thus effecting certain savings out of their earnings which they would not otherwise have done. Most of the societies in question are yet in an infant stage, but all of them bear promise of becoming useful to the members of the banks as their finances improve. The total recoveries from both the working and wound-up banks amounted to Rs. 64,845 and Rs. 7,371 under principal and interest respectively. The respective figures for the previous year were Rs. 59,793 and Rs. 9,032. Coercive measures were resorted to only in extreme cases.

Joint-Stock Companies.

39. The number of joint-stock companies working at the end of the year remained the same as at its commencement, *viz.*, 78, two new companies having been registered in place of two wound-up during the year.

Revenue Survey and Settlement.

40. During the year 7 inam villages comprising 846 fields with an area of 3,426 acres were surveyed and 4 villages containing 886 fields measuring 2,729 acres were classed. Re-survey operations were completed in 454 villages in all, consisting of 142 villages of the Kunigal taluk (as it stood at the original settlement), 242 of Hassan, 40 villages of the late Harnahalli (present Tiptur) and 30 villages of the Koppa taluks. The total area re-surveyed

was 405,687 acres or 633·89 square miles. Re-classification of water-supply to wet and garden lands was completed in 753 villages of the late Harnahalli, Chiknayakanhalli and Banavar taluks, and of the Maddagiri and Nelamangala, Magadi and Koppa taluks. The thirty years' settlement having expired some time ago, revision settlement was introduced and revised rates of assessment were announced in the Honnali and the late Anantapur taluks. In the former, the average rate of garden assessment decreased by 24·7 per cent, while there was an increase of 2·75 per cent in the case of rice lands and 10 per cent in the case of dry lands. The operations in the late Anantapur taluk resulted in a decrease of 35·3 per cent in the case of garden lands, while the rice and dry lands yielded an increase of 4 per cent and 8 per cent, respectively in the average rate of assessment. On the whole the revision of the settlement resulted in a moderate increase of revenue on occupied lands by 4 per cent in the late Anantapur taluk over the collections of 1906-07, and by 12½ per cent in the Honnali taluk over the collections of 1907-08. The rates were generally well received by the ryots. Proposals for the revision settlement of the Shimoga taluk were sanctioned by Government in March last and the rates will be announced next cold weather. Proposals for the revision settlement of the late Koratagere taluk of the Tumkur district and the Nagar taluk of the Shimoga district are expected to be received early for sanction.

Inam Department.

41. The Inam department carried on its work as usual, which was in the main confined to the issue of final quit rent registers and title-deeds.

Registration.

42. Both the number of documents registered and the revenue realised showed an appreciable increase, the figures being 94,193 and Rs. 1,86,025 as against 86,869 and Rs. 1,63,460 in the previous year. The increase in the number of registrations was general in all the districts, and is attributed partly to a greater appreciation by the public of the benefits of registration, and partly to the unfavourable nature of the season.

Stamps.

43. There was a noticeable increase in the revenue from Stamps during the year, the amount realised being Rs. 9,15,500 against Rs. 8,26,100 in the previous year. Of this increase, Rs. 57,200 was under Court Fee Stamps, attributable to a rise in the number and value of the civil suits instituted during the year, while under General Stamps the increase of Rs. 30,100 was due to wider

monetary transactions which also resulted in an increase in the revenue from registration.

44. A new design of General Stamp Paper with His Highness the Maharaja's portrait on the stamps has been approved. This will be on view at the Exhibition. Stamp papers of this pattern will soon be made available for public use.

EXCISE.

45. The gross receipts during the year amounted to Rs. 45,45,518 against Rs. 43,69,216 in the year previous, showing an increase of Rs. 1,76,302 or about 4 per cent. This increase is spread over all the principal items of Excise Revenue and is considered to be indicative of the return to normal conditions. It was still short of the realizations for the year 1908-09 by Rs. 75,730 as particularized below :—

District	Difference as compared with 1908-09
1. Bangalore	−89,377
2. Kolar	− 1,830
3. Tumkur	−54,991
4. Mysore	+11,403
5. Hassan	+10,484
6. Kadur	+16,770
7. Shimoga	+14,483
8. Chitaldrug	+18,919
9. Gain on the sale of opium ...	− 5,624
10. Proportionate cost of the Distillery Establishment paid by the Civil and Military Station	+ 4,033
Total ...	−75,730

46. There was again a decrease in the number of arrack and toddy shops, there being 20 less of the former and 13 of the latter but the consumption increased slightly—3·1 per cent under arrack and 1·7 per cent under toddy. Against this there was a heavy fall in the consumption of foreign liquors, the quantity consumed being about 11,000 gallons or nearly 30 per cent less than that for the previous year.

47. Three more shops were licensed for the sale of ganja and one for opium. The duty on ganja was raised from Rs. 5 to 7-8-0, while the retail sellers of opium were allowed to fix their own sale prices. These altered conditions resulted in a substantial reduction in the quantities of the drugs consumed while simultaneously there was increase in the revenue realized.

48. Six blocks comprising an area of 36·66 square miles were notified as State Forests under Section 17 of the Forest Regulation, and 13 blocks with an aggregate area of 55·1 square miles were notified as reserve lands under Section 4. About 147 miles of forest demarcation lines were newly cut and 2,512 miles of old lines recleared and widened to the standard width of 66 feet at a total cost of Rs. 10,804. An aggregate area of 2,370 sq. miles of forests was placed under fire protection, of which 2,145 sq. miles or 90·5 per cent were successfully protected. 14,446 acres were newly stocked with various kinds of nursery-raised plants and 23,046 acres were sown and dibbled over with sandal, teak, and other indigenous seeds. About 470,163 cubic feet of timber of various kinds were collected and sold departmentally, and about 412,904 cubic feet were extracted and removed direct from the forests by purchasers and consumers. The realisations from the sale of timber amounted to Rs. 5,07,850 against Rs. 4,16,293 in the previous year. The total quantity of sandalwood sold was 2,388 tons which yielded a revenue of Rs. 12,73,773 against Rs. 11,75,009 in the previous year. About 34 miles of new roads were constructed to facilitate the carting of timber and other forest produce to depots, etc., and about 179 miles were repaired at a total cost of Rs. 10,549. A sum of Rs. 22,846 was spent upon new buildings and on repairs of existing buildings. The revenue under Forest proper was Rs. 22,24,087 against Rs. 20,95,422 and the expenditure of the year amounted to Rs. 7,03,365 against Rs. 6,87,630 in the previous year. **FORESTS.**

49. I may mention here that owing to the altered conditions of work in the department and the expansion of the area of the State Forests, the Government have decided to re-organize the staff, both administrative and executive. With the improved pay and prospects of the staff and with the better organization in the department, it is hoped that there would be a corresponding improvement in the conservation and exploitation of our forests.

50. Preliminary surveys were conducted over an area of about 300 square miles of the Nelamangala and Kunigal taluks, about 1,200 square miles of the Krishnarajpete, Channarayapatna, Yedatore and Nagamangala taluks, and of French Rocks sub-taluk, and about 150 square miles of the Mysore taluk in the neighbourhood of the proposed reservoir dam at Kannambadi. Several small schist belts have been mapped in the area surveyed, and occurrences of iron ore, chrome iron ore, mica, limestone and some small auriferous veins have been **GEOLOGICAL AND MINING.**

noted. Reports on the work done are now under preparation by the officers concerned. The State Geologist made an inspection of the foundations exposed at the site of the Kannambadi dam and furnished a report of a favourable character. A large nugget of gold (weighing 4·03 ozs.) was found near Palavanhalli in the Shimoga district and a series of washing of the soil and alluvium were carried out which showed that the surface material here carries small quantities of gold. Several prospecting licenses have been taken out in the area, but work has not yet been started. Eighty-eight leases and licenses for mining and prospecting were issued or renewed during the year as against 58 in the year previous.

Gold.

51. The production of gold showed an increase of over 11,000 ozs. during the year, all of which came from the Kolar Field. The Mysore, Ooregum and Nundydroog Mines maintained the satisfactory position of the previous year. Champion Reef has shown a further tendency to improve and Balaghat, which for some time past has yielded very poor results, has shown distinct signs of improvement in some of the lower levels. The total value of the gold obtained was three crores and twenty lakhs of rupees, and the royalty realised by Government was a little over 16 lakhs. On other mines work has been rather slack during the year owing to the difficulty of raising funds for further deep prospecting. Ahmed's block on the east of the Kolar Field has recently been assigned to a syndicate of Hyderabad capitalists and work is now being re-started. The east Beterayaswami block to the north of the Kolar Field has been sampled and reported upon on behalf of the Mysore Gold Mining Company. Work on the various blocks of the Shimoga Gold Field in the Kadur and Shimoga districts was suspended during the year owing to exhaustion of funds. An examination of the Jalagargundi block was made on behalf of the Gold Fields of Mysore and General Exploration Company, but it is believed that the option will not be exercised.

Manganese.

52. In the hope of encouraging an extension of the manganese industry, the rate of royalty has now been considerably reduced and a sliding scale adopted, starting from a royalty of one anna per ton when the market price of the ore is 9d. per unit or under. This concession, in conjunction with the present upward tendency in the market rates will, it is hoped, lead to an expansion of the industry during the coming year.

53. The number of persons employed in the mining

industry was 26,772. There were 374 accidents, during the year, of which, 48 were fatal involving the death of 89 persons.

54. In order to meet administrative requirements, a new circle of superintendence, designated the "Southern Circle," was formed in November 1911, as a tentative measure for two years, and the existing "Northern Circle" was ordered to be continued for a similar period. The total expenditure on Public Works from all sources, including Local Funds, amounted to about Rs. 44½ lakhs during the year. Of this amount, Rs. 15¾ lakhs were spent on irrigation works and Rs. 28¾ lakhs on civil works and military buildings. The most important work undertaken during the year was the construction of a dam across the river Cauvery at Kannambadi, sanction to which was announced at the last year's meeting of the Representative Assembly. The first stage of the scheme is now being carried out, and according to this the dam will be raised to a height of 97 feet with weir crest at 80 feet above river bed, and the reservoir at this stage will store 11,030 million cubic feet of water. The first stage of the work (which includes the fourth installation of the Power Scheme) is estimated to cost Rs. 89 lakhs. The work was started in November 1911 and an expenditure of Rs. 6,97,801 was incurred up to end of June 1912. The operations of the year consisted in opening out approach roads to the site of the dam and the camps, constructing offices and quarters including a dispensary for the staff, arranging for water-supply and drainage, and collecting the requisite labour, materials, machinery, tools and plant. A portion of the river-bed and banks was cleared and excavations for founding the dam were in progress. **PUBLIC WORKS.**

55. In connection with the Marikanave Project in the Chitaldrug district, the details of the "Block System" of irrigation have been worked out. The construction of the high level canal has been deferred for the present. A sum of Rs. 10,000 was sanctioned for improving the sanitary condition of the villages in the canal area, and an expenditure of about Rs. 2,000 was actually incurred in shifting the villages of Nandihalli and Jagadanhalli to healthier sites. The area actually irrigated under the reservoir during the year was about 3,672 acres against 10,892 acres assessed.

56. Among the large irrigation works started during the year were the construction of a new tank across the Vadly stream near Hairege in the Mysore district, the extension and improvement of the Sriramdevar South Channel in the Hassan district, the restoration of the Bolappanhalli tank in the Closepet sub-taluk, and the Mellur tank in the Hunsur taluk. The damage sustained by the several anikats along the river Cauvery, on account of the extraordinary floods of July 1911, was satisfactorily repaired during the last hot weather at a cost of about half a lakh of rupees. Nearly a lakh of rupees was also spent on the restoration of the minor tanks in the State.

57. The principal new buildings in progress were the new Palace and the Chamarajendra Technical Institute at Mysore, the Minto Ophthalmic Hospital and the New High School at Bangalore, and the Sandalkoti at Shimoga. The construction of an additional residential block at the Mysore Palace and of a Chemical Laboratory for the Bangalore Central College were started during the year. The 'Coronation Buildings,' belonging to Khan Bahadur Hajee Ismail Sait in the Kolar Gold Fields, were acquired and an estimate for Rs. 39,430 was sanctioned for adapting the building for a Maternity and Hospital.

58. Under communications, the construction and improvement of certain malnad and forest roads in the Shimoga, Hassan and Mysore districts, were in progress. The construction of the large bridge at Honnali on the Tungabhadra river made good progress, and materials were collected for a much needed bridge across the Bhrigu river in the Mysore district, for which an estimate amounting to Rs. 39,535 was sanctioned in November last. A telephone service was installed between Bangalore and Mysore at a cost of about Rs. 30,000 to facilitate the transaction of official business.

59. Among miscellaneous public improvements in progress, may be mentioned the construction of sundry roads and drains in the different extensions of the Bangalore City and the laying of additional water-supply pipes in the cities of Bangalore and Mysore. A project estimated to cost Rs. 14,70,170 was prepared for the sewerage of the Mysore City. Projects for the drainage of Shimoga, Harihar and Sringeri towns were also completed, and investigations and surveys were in progress in connection with the drainage of Bangalore and Davangere.

Electrical Works.

60. The third installation of the Cauvery Power Scheme, which was in progress in 1910-11, was completed during the year under report. The transmission lines leading to Bangalore and Mysore were equipped with aluminium cell lightning arrestors. Extensions of interior power and lighting were carried out in Mysore and in the City and the Civil and Military Station of Bangalore. A building for locating the office and stores of the Superintendent was constructed at Mysore at a total cost of Rs. 8,914. Motor generator sets were re-arranged in the transformer stations at Bangalore and Mysore. Surveys in connection with the Bangalore tramways and the fourth installation of the Cauvery Power Scheme were carried out and the project estimates were nearing completion towards the close of the year.

61. The capital outlay on the Cauvery Power Scheme during the year amounted to Rs. 57,409 and the total outlay up to date to Rs. 83,13,594. The gross earnings of the scheme during the year amounted to Rs. 16,64,778 and the working expenses to Rs. 6,26,089. This latter sum included Rs. 2,87,700 set apart towards the Depreciation Fund and Rs. 38,748 spent for conserving and regulating the river supply during the hot weather. The net profit after deducting interest charges at 4 per cent was Rs. 7,07,184 or 8·51 per cent, on the total capital outlay up to date.

Railways.

62. The gross receipts on all the open lines within the State amounted to Rs. 32,09,000 as against Rs. 28,30,638 during the previous year, showing an increase of Rs. 3,78,362 which is due to heavy passenger and goods traffic. The expenses on all the State lines amounted to Rs. 18,20,000 equivalent to 56·72 per cent of gross receipts as against Rs. 17,14,127 or 60·56 per cent during 1910-11. The increase of Rs. 1,05,873 under expenditure over that of the previous year was incurred chiefly in connection with the haulage of increased traffic. The total net earnings aggregated Rs. 13,89,000 or 5·53 per cent on the entire capital outlay of Rs. 2,50,94,761 as against Rs. 11,16,511 in the previous year. The interest on the English loan of Rs. 1,63,82,801 amounted to Rs. 7,16,261. After deducting this as well as the one-twentieth share of surplus profits (Rs. 66,000) payable to the Company, the net revenue credited to the State was Rs. 5,40,739 or 6·20 per cent on the balance of capital, *viz.*, Rs. 87,11,960 expended from general revenues. A portion of the net receipt aggregating Rs. 79,214 was

expended as capital on lines in operation, thus reducing the net revenue of the year to Rs. 4,61,525.

63. There having been no extensions of lines for more than 12 years past, the State has fallen behind British India in railway development. Mysore has one mile of railway for every 12,500 inhabitants, while the corresponding rate for all India is one mile per 8,800. An addition of at least 200 miles to the existing open mileage is necessary to keep pace with the rate of progress in British India. Government have accordingly decided to pursue a progressive policy of construction during the next few years. With this end in view, sanction was accorded in November 1911 to a programme of railway construction and to the formation of a State Railway Construction Department. This has accordingly been formed under the Engineer-in-Chief Mr. E. A. S. Bell, lately Senior Deputy Manager, North-Western Railway, whose services have been kindly placed at our disposal by the Government of India.

Forecast of Future Activities.

64. The several lines suggested in the programme of works will be dealt with one by one in order of their urgency and importance. The South Indian Railway Company have re-surveyed the Nanjangud-Erode line and prepared the necessary plans and estimates for the section from Nanjangud to the British frontier, and the project is stated to be under the consideration of the Directors in England. The line from Mysore to Hassan was further examined and surveys for the final location of the line are in progress. The proposal now under investigation is to have a third line from Konehalli to Seringapatam, through Channarayapatna and Krishnarajpete with branch lines on the narrow guage to Hassan and Hole-Narsipur.

Light Railways.

65. The Bangalore-Chikballapur Light Railway Company were engaged in completing arrangements to begin work on the line. Surveys have been carried out for a line of light railway from Bowringpet to Kolar. As the District Board have undertaken to finance the line and collected the necessary funds, actual construction will be taken in hand as soon as the project receives the approval of the Government of India. A survey has also been carried out and plans and estimates are being completed for a similar line to connect Chitaldrug with Chikjajur on the Bangalore-Harihar line.

JUDICIAL.

66. The ordinary original civil and criminal juris-

diction exercised by the Chief Court over the districts of Bangalore, Kolar and Tumkur was withdrawn on the re-establishment of the District and Sessions Court of the Bangalore Division in August 1911, alluded to in my Address last year. The unlimited original civil jurisdiction conferred on the Subordinate Judge of Bangalore was withdrawn, and his pecuniary jurisdiction is now limited to Rs. 10,000 as in the case of other Subordinate Judges.

67. To remedy the congestion of work in the Munsiff's Court at Seringapatam, the villages comprised in the hoblies of Chandagal and Belagola and the villages of the Seringapatam hobli to the south of the Cauvery in the Seringapatam taluk were transferred from the jurisdiction of the Munsiff's Court at Seringapatam to that of the Additional Munsiff's Court at Mysore, and the villages comprised in the hoblies of Saligram, Mirle and Hosa Agrahar in the Yedatore taluk, and the villages of Akkihebbal hobli of the Krishnarajpete taluk to the west of the Hemavati were transferred to the jurisdiction of the Munsiff's Court at Hole-Narsipur from that of the Additional Munsiff's Court, Mysore, and of the Munsiff's Court at Seringapatam, respectively. The jurisdiction over the taluk of Tarikere was transferred from the Munsiff's Court at Chikmagalur to the Subordinate Judge's Court at Shimoga to suit the convenience of the litigant public. The Additional Munsiff's Court at Chikballapur which was established for a period of one year was directed to be continued until further orders.

68. The Civil Registers and forms were revised during the year. A new set of rules for the arrangement, custody, preservation and destruction of records of Civil proceedings of the courts subordinate to the Chief Court were issued. As compared with the previous year, there was an increase of both civil and criminal litigation, the percentage of such increase being 12·60 and 15·71, respectively.

69. To facilitate the recovery of copying fees an arrangement has been sanctioned whereby copies shall be prepared on prescribed papers with the value stamped thereon.

70. It may interest you to learn that orders of Government have been passed to improve the position and prospects of the Munsiffs. They will be treated as Gazetted Officers and will, on being confirmed as Munsiffs, start on a pay of Rs. 200 per mensem rising by triennial

increments of Rs. 50 to Rs. 400. The Deputy Registrar of the Chief Court will hereafter be included in the grade of Munsiffs.

Police.

71. The sanctioned strength of the Regular Police was the same as in the previous year, *viz.*, 831 officers and 5,049 men. A temporary staff of one Inspector, one Jamadar, two Dafadars and 26 constables at an annual cost of Rs. 4,008 was sanctioned during the year for duty at the Cauvery Reservoir Works near Kannambadi. An additional establishment of four head constables and forty constables at a cost of Rs. 8,280 was sanctioned towards the end of the year for the Kolar Gold Fields to meet the growing requirements of the place. The cost of the Police Administration, including equipment and clothing, was approximately Rs. 9,12,840 against Rs. 9,08,366 in the preceding year. The work of the Village Police was satisfactory, and the system of watches at out-posts continued to be effective. There was a small increase in the number of cognizable offences reported, which stood at 5,950 against 5,742 in the previous year. The percentage of the value of property recovered, to that reported as lost was 46·7 against 41·4 in the past year. There were no organized dacoities or serious riots affecting the public peace and the efficiency of the Police Force was well maintained.

Military.

72. The military forces of the State were maintained at the usual strength and in a good state of efficiency and discipline. Two squadrons of the Imperial Service Lancers which took part in the great ceremonial parade and review at the Coronation Durbar at Delhi acquitted themselves creditably and, it is satisfactory to note, earned high encomiums from military experts and other distinguished spectators.

Medical.

73. Including three newly-opened dispensaries, there were at the end of the year 152 hospitals and dispensaries in the Stat . In all 1,367,000 patients were treated which was 5 ,000 more than in the previous year, and of this umber 12,000 were in-patients. There were 113 midw ves who attended to 7,285 cases. The special hospitals f the State, *viz.*, the Lunatic and Leper Asylums, the l laternity Hospitals, the Epidemic Diseases Hospital an the Ophthalmic Hospital continued to do good w rk. Over ten thousand persons were treated in the last mentioned institution at Bangalore.

74. The revised cheme of the subordinate branch of the Medical Service providing for the improved status,

and pay and prospects, of the Hospital Assistants, briefly referred to in the Address last year, came into force during the year under report.

Public Health.

75. There was a slight increase in the number of births recorded during the year, the birth-rate being 19·65 per mille of population against 18·25 in the preceding year. The number of deaths recorded was also somewhat larger, being 20·24 as against 19·92 per mille. Cholera prevailed in all the districts, in a sporadic form in some districts and in an epidemic form in others. The districts of Shimoga and Chitaldrug suffered most with a mortality of 2,145 and 1,934 respectively. The usual remedial and preventive measures were adopted with some measure of success. The Government sanctioned the award of a gold medal to the patel of Adivala, in the Chitaldrug district, in recognition of the exceptionally good service rendered by him in the suppression of cholera in his village.

76. There were 18,911 attacks and 14,089 deaths from plague during the year as against 12,684 attacks and 8,789 deaths in 1910-11. As compared with the previous year, mortality from plague was higher in the Mysore City, and in the Bangalore, Kolar, Tumkur, Hassan and Kadur districts, the largest increase being recorded in the Kolar and Bangalore districts. The preventive measures adopted were evacuation, disinfection and inoculation. The total number of persons inoculated was 60,250 against 54,592 in 1910-11. Special establishments were maintained in the Mysore City and on the Kolar Gold Fields for carrying on inoculation work.

77. The total number of vaccinations done in the State during the year was 80,443 as against 62,261 in the previous year showing an increase of 18,182 cases. Vaccination was declared compulsory in the municipalities of Kolar, Mulbagal, Srinivaspur and Bowringpet. The Kurnul system of vaccination has been working fairly satisfactorily since its introduction. In order to serve as an incentive to patels to exert themselves in popularising vaccination, Government were pleased to order the grant of certificates to the most deserving in each taluk in recognition of their special interest in the work.

78. The formation of a Public Health Institute was sanctioned during the year. Proposals for providing suitable buildings for the Institute, which is to include the Vaccine Institute and a Health Museum and Library, are

under the consideration of the Government. A school of Hygiene for the training of Sanitary and Assistant Sanitary Inspectors required for employment in the State was also sanctioned during the year.

Government Gardens.

79. The introduction of new plants, the improvement of the seed depot and the construction and fitting up of a seed-testing house, a fumigating chamber, and a herbarium, specially engaged the attention of the Economic Botanist during the year. In the fumigating chamber all plants imported into or sent out from the Lal-Bagh and other Government gardens will be carefully disinfected and it is hoped that the public also will avail themselves of the installation, and thus help in minimising the spread of plant pests.

The Government Museum.

80. The museum continued to maintain its popularity during the year. 342,346 persons visited the institution, being an increase of 69,553 over the previous year. In all sections further improvements were made in the arrangement of the collections so as to afford greater facility for study, and in the enlargement of the sections relating to Industry and Arts, Ethnology including Archæology and Numismatics, and Natural History, especially Zoology. The collection of coins was also considerably enlarged and catalogued, and the Library received many valuable additions in books and periodical publications. Greater facilities were provided for free access to the public to all patents and inventions filed in the Mysore State, and to these are now being added full lists of the Government of India Patent Office.

Archæology.

81. The number of new records discovered during the year was 535, exclusive of labels below figures in stone, copper, or mortar, and inscriptions on temple bells, etc., which make a total of 400. Some excavations were conducted at the *Kirtinarayana* temple at Talkad. The temple was mostly buried in sand, but after excavation the plan of the exterior was clearly revealed. There are no sculptures on the outerwalls, but a railed parapet runs round the front hall, divided by single columns into panels containing floral work in relief. The excavations also exposed twelve inscriptions, one of them in Tamil being a very important epigraph relating to the consecration of the God *Kirtinarayana* in A.D. 1117 by Vishnuvaradhana. Among the manuscripts examined during the year may be mentioned *Traivarnikachara*, a Jain law-book in Sanskrit of about the 15th century

written by Nemichandra, a resident of Trikanambapura or Terakanambi in Gundlupet taluk, and *Bharatesa-vaibhava*, a Kannada poem written in the *Sangatya* metre by the Jain poet Ratnahara-siddha. The latter gives an account of King Bharata, son of Vrishabha the first Tirthankara, and was composed in A.D. 1660.

Meteorology.

82. The observatory at Mysore which had completed the nineteenth year of its existence at the close of December 1911 as a second class station, recording three sets of observations daily, was reduced to the third class, recording one set of observations from the beginning of January 1912. At the end of the official year therefore, there were in the State one first class observatory at Bangalore and three third class observatories at Mysore, Hassan and Chitaldrug, the total number remaining the same as in previous years.

The Government Press and Stationery Departments.

83. The Press and Stationery departments continued to be efficiently managed. There was a decrease in the number of books bound as compared with the previous year, and the expenditure also showed a decrease in Rs. 9,000, being Rs. 1,14,000 as against Rs. 1,23,000 of the previous year. In the Stationery department, the purchases for the year amounted to Rs. 94,760, including English and Indian-made paper, articles of stationery, and other requisites. The printing, binding and other miscellaneous work connected with the Census entailed a vast amount of work on the Press, and it is very satisfactory to note that it was carried out with remarkable efficiency and smoothness. The two Probationers who are attached to the Press have, after a preliminary training, been deputed to England for a course of instruction in the art of Printing and management of an up-to-date Press.

DISTRICT FUNDS.

84. The receipt under all heads of District Funds was approximately Rs. 8,68,268, and together with the opening balance of Rs. 4,61,598, the total income amounted to Rs. 13,29,866. The total expenditure was Rs. 8,20,149 leaving a balance of Rs. 5,09,717 at the close of the year.

85. Out of this expenditure Rs. 5,29,406 was spent on Public Works, Rs. 82,048 on Sanitation, Rs. 76,129 on Medical Relief and the balance towards the establishment and other miscellaneous charges. During the year two new Unions in the Kolar district and one in the Hassan district were formed. New *Vaidyasalas* were opened in Sravanabelagola, Hassan district, and in Mayakonda, Chitaldrug district. Bye-Laws for the Regulation and

inspection of bakeries and aërated water factories in the Kolar Gold Fields area were sanctioned by Government during the year.

Local Funds General.

86. The income under Local Funds General, which is comprised mainly of a contribution of 67 per cent of the local cess on abkari and miscellaneous items of revenue, amounted to Rs. 1,91,221, and including the opening balance of Rs. 1,67,298, the total receipts were 3,58,519. The expenditure, which is devoted chiefly to the excavation of drinking-water wells in rural parts, construction of bridges, and such other special works as would promote sanitation and public convenience in rural parts, amounted to Rs. 1,86,230. There remained to the credit of the Funds at the close of the year a balance of Rs. 1,72,289.

MUNICIPAL BOARDS.

87. There were, during the year, 89 municipalities in the State, of which 29 had Municipal Councils constituted under the Municipal Regulation, the affairs of the remaining 60 municipalities being managed by Municipal Boards constituted under the executive orders of Government.

88. Sub-section 2 of Section 142 of the Municipal Regulation authorizing the seizure and destruction of adulterated articles of food or drink under the orders of a Magistrate was declared to be applicable to the Tumkur and Hassan towns with reference to ghee and six other articles as in the case of the Bangalore and Mysore Cities. The provisions of the sections were also extended to the Kolar town in respect of ghee and two other articles. While abolition of the Octroi was found to be impracticable on fiscal grounds, the Municipal Councils were authorized to exempt from octroi dutiable articles brought within municipal limits for consumption in small quantities not exceeding a maximum prescribed by the Government.

89. For the improvement of the sanitation of the Seringapatam town including Ganjam, a lump sum grant of Rs. 4,000 for clearing undergrowth and levelling dilapidated areas and a recurring grant of Rs. 1,000 for annual maintenance has been recently sanctioned from the State Funds.

90. During the year the Mysore Public Conveyance Regulation was extended to the Mysore City and the Municipal Council have taken necessary action for issuing rules for the working of the Regulation.

91. The receipts under Municipal Funds during the year amounted to Rs. 9,85,336 and the expenditure to Rs. 8,95,275 of which Rs. 2,22,016, was spent on Public Works, Rs. 2,06,236 on Conservancy and the remainder on other items.

Mysore City Improvement.

92. A comprehensive programme of works including a complete system of underground sewerage and outfall works for the whole city at an estimated cost of Rs. 23,67,590 was generally approved of in the latter part of the year. The usual grant of three lakhs of rupees a year to the Mysore City Improvement Trust Board will be continued till the aforesaid programme is completed.

93. The rules for the grant of loans for house-building purposes under the City of Mysore Improvement Regulation were amended so as to dispense with the taking of collateral securities when the property to be benefited was in itself a sufficient security, the applicant's interest in the said property being not less than one and a-half times the loan applied for.

94. The expenditure during the year was Rs. 1,36,680 of which Rs. 76,155 was spent on acquisition and demolition of properties. The number of properties acquired during the year was in all 93 of which 28 were acquired in the Fort at a cost of Rs. 59,292. The improvement of the Fort area was practically completed, the total number of properties acquired and demolished being 357.

Muzrai.

95. During the year 132 Muzrai Institutions were repaired at a cost of Rs. 68,686 of which Rs. 59,166 came from the surplus funds of the institutions concerned and Rs. 9,520 was contributed by the State. A sum of Rs. 45,600 was invested during the year by private individuals at the favourable rate of 4 per cent interest allowed on behalf of benevolent, charitable and educational purposes, thus bringing the total of such deposits to Rs. 2,45,100.

96. His Holiness Sri Sachidananda Sivabhinava Narasimha Bharati Swamigalu of the Sringeri Matha breathed his last on the 20th March 1912 and, in a Proclamation issued on the occasion, due expression was given to the sense of the loss caused thereby to the Hindu world and religion. His Highness the Maharaja was pleased to recognise, in accordance with the wishes of His Holiness the late Swamigalu, the succession of Vedamurthi Narasimha Sastri, who was duly consecrated

and installed under the titular name of Sri Chandrasekhara Bharati on the 7th April 1912. The succession of Vedamurthi Seturamacharya to the Peeta of the Sri Uttaradi Matha as His Holiness Sri Satya Dhyana Thirtha Swamigalu was also recognised during the year.

EDUCATION.

97. It is gratifying to note that progress in education was steadily kept up during the year. The number of public institutions increased from 2,460 to 2,567 or by 107 and that of pupils from 115,249 to 123,491 or by 8,242. The increase occurred chiefly in Middle and Primary Schools for boys and in Vernacular Middle Schools for girls. The number of private or indigenous institutions also increased from 1,807 to 1,911 or by 104 and their strength from 22,904 to 25,723 or by 2,819. The total number of public and private institutions during the year was 4,478 with an attendance of 149,214 pupils as against 4,267 institutions with an attendance of 138,153 pupils during the previous year. Of the total number of pupils under instruction, 124,324 were boys and 24,890 were girls, against 115,179 boys and 22,974 girls in 1910-11. The percentage of boys at school to the male population of school-age rose from 27·9 to 30·1, while that of girls at school to the female population of school-age also rose from 5·7 to 6·2. The percentage of both boys and girls under instruction to the total population of school-age was 18·3 against 16·9 in the previous year. The rise in the number and strength of private institutions is an encouraging sign of the progress of primary education in the State, and it is hoped that the tendency to progress in this direction will be steadily maintained.

Re-organisation of Colleges.

98. Further arrangements were made to complete the equipment of the two First Grade Colleges in accordance with the requirements of the New University Regulations and to meet the demands of the University Inspection Commission of November 1910. An additional lecturer for the teaching of English was employed in the Maharaja's College at Mysore, and a Telugu Pandit has also been recently appointed. The High School department of the College has been separately placed under a Headmaster. The science gallery for which a special grant was sanctioned, has been completed. Large additions were made to the College Library which is becoming a valuable collection of useful books on English History and Economics. The Historical and Economic Museum also has had several additions made to it, chiefly of coins

presented by Government and the students. An installation of electric lights was sanctioned for the Students' Home attached to the College and the construction of quarters for the Warden of the Hostel is under consideration. In the Central College, provision was made both as regards equipment and the additional staff required for the teaching of the different Science subjects. Demonstrators for Chemistry, Mathematics, Geology and Zoology were appointed, and the employment of a Professor of Natural Science of European qualifications has been recently sanctioned. A Professor of English with Honours qualifications of the London University has been appointed and is expected to arrive shortly. The construction of a new building for the Chemistry Section was taken in hand and is in rapid progress and it is hoped that necessary arrangements will be complete for affiliation in Branch II (B) Chemistry from the next academical year. Large grants were sanctioned for the equipment of the Science Laboratories and the College Library.

Religious and Moral Instruction.

99. Religious and moral instruction continued to be imparted with regularity. In Colleges the half-hour religious and moral lessons were replaced by weekly lectures by the Professors and Pandits, and in other schools the usual programme was adhered to. The working of the scheme has to improve gradually with the securing of teachers possessing the requisite capacity and high personal character, and with the provision of suitable text books.

Manual and Kindergarten Instruction.

100. Manual instruction or Sloyd made good progress during the year. In the matter of Kindergarten instruction, special classes were held in Mysore and Bangalore for about six weeks during the last summer vacation to train teachers of Anglo-Vernacular schools for boys and girls. In these classes, instruction was imparted on the modern methods of teaching Arithmetic and Geography, the principles and methods of infant-training embodying observation-lessons, narration of stories and school gardening, and manual occupations such as cardboard work, paper-folding, clay-modelling, and object-drawing.

Results of Public Examinations.

101. At the B. A. Degree Examination of the Madras University, 56 students in all passed in the English Language Division, 66 in the Second Language Division, and 59 in the different Optional Subjects Divisions. Two of the successful candidates in the English Division, 3 in the Second Language Division, one in Physics and one in

Mathematics secured first class passes. Altogether 52 students passed the Intermediate Examination in Arts, 6 of them being in the first class. The results of the Matriculation Examination were unsatisfactory. One hundred and four students passed from all the schools put together, 74 from Government institutions and the rest from Aided High Schools.

Female Education.

102. Female education continued to advance, the number of institutions for girls increasing from 294 to 305. One lady candidate from the Maharani's College passed the Matriculation Examination of the Madras University and another from the same institution passed the Sanskrit Branch of the Kannada Pandits' Examination. Arrangements have been made to train every year 10 lady teachers of the department in the Upper and Lower Secondary training classes of the Maharani's College, Mysore.

Technical and Industrial Education.

103. The number of Industrial and Weaving Schools increased from 20 to 22 and all the Government and Aided institutions turned out satisfactory work during the year. At the Tata Silk Farm, Bangalore, the Salvation Army has arranged for courses of six months, and twelve months, for persons desirous of being trained on the Farm. Sericulture as a part of nature study was taught regularly to school boys of Closepet, Chikmuduvadi (in Kankanhalli taluk), Channapatna, Sidlaghatta, Kolar, Mysore (Nazarbad School), Malvalli, and Kunigal by specially trained teachers. Theoretical and practical lessons were generally given to boys of the Kannada IV and V Classes out of school hours in these places. Practical Agriculture was taught with fair success on the Demonstration Farm attached to the Mysore Normal School.

104. Among other measures of importance in the Education department may be mentioned the following. A scheme for the opening of an English training class in the Mysore Normal School was sanctioned. The class has since been opened and a number of matriculate and non-matriculate teachers are being regularly trained in modern methods of teaching. In the current year's budget, a sum of one lakh of rupees has been sanctioned for village school buildings, one lakh for opening new primary schools and improvement of existing ones, and Rs. 60,000 for improving technical education. A scheme for the award of Secondary School-leaving Certificates has been sanctioned with effect from the commencement of this academical year to replace the present Matriculation

Examination and it is hoped that it will give general satisfaction and produce beneficial results.

Oriental Library.

105. During the year 475 manuscripts of Sanskrit and Kannada literary works and 253 printed volumes in English, Sanskrit and Kannada were added to the Library. Four volumes of the Library Series were published, three of these relating to Sanskrit Literature and one to Kannada Literature. A classified Catalogue of the English Section of the Library brought up-to-date was issued in the early part of the year.

THE ECONOMIC CONFERENCE.

106. I may here give a brief account of the work done by the Economic Conference during the year. I explained to you in my Address last year the purposes of the Conference, and its constitution and sphere of work, and also indicated briefly the progress it had made till the last Dasara. Since then the Conference has developed a good deal and the Resolutions carried at the third session held during the last Birthday week have already been published. The Committee for industries and commerce has been strengthened, and His Highness' Government have engaged for a period of six months, the services of Mr. A. Chatterton, C.I.E., Officer in charge of the Pumping and Boring Operations and the Bureau of Industrial Information in Madras, and under him six special officers have been working. An Industrial Survey of the State has been commenced by Mr. V. S. Sambasiva Iyer under the guidance of Mr. Chatterton. Of the sum of one lakh of rupees sanctioned for Conference expenditure as a whole during the year 1911-12, Rs. 48,000 were actually spent. For the year 1912-13, a sum of Rs. 1,46,000 has been sanctioned. District Committees have been formed in all the districts and funds were placed at their disposal for small establishments, experiments and contingencies. I will now describe to you very briefly the work done so far by the different Committees of the Conference.

The Agricultural Committee.

107. In order to encourage District Agricultural Associations, the Agricultural Committee made grants of sums varying from Rs. 70 to 250, to the Agricultural Associations in the districts of Mysore, Kolar, Tumkur, Hassan and Kadur. The Chitaldrug Association having sufficient funds of its own did not need any grant from the Committee. The formation of Agricultural Associations in all the District Headquarters is of great importance as an effective means of creating and sustaining an active interest in agricultural improvement. Such Associations have

yet to be formed in the districts of Bangalore and Shimoga.

108. The subject of improving Sericulture which is a promising industry of the State is engaging the serious attention of the Committee. Fourteen scholarships of Rs. 8 each per month have been allotted for training students in the Tata's Silk Farm at Bangalore. The students are all drawn from the ryot population, possessing lands of their own and have been selected by the District Committees. The Committee is also considering the question of opening Silk Demonstration Farms in large silk centres in charge of men trained for the work. There are also at present, a dozen students who are undergoing training in horticulture in the Lal-Bagh, Bangalore, and are given a scholarship of Rs. 12 each per mensem by the Committee. Steps are being taken to institute an enquiry into the subject of the indebtedness of the Mysore ryot and his general economic condition, and to popularize the co-operative movement among the agricultural classes.

109. The Committee is issuing from time to time leaflets and pamphlets in English and Kannada on subjects relating to agriculture, sericulture, co-operative movement, etc., and has so far issued eighteen bulletins and leaflets. It has decided to place a sum of Rs. 2,500 at the disposal of Mr. Chatterton and Dr. Smeeth who have undertaken to make experiments on well-boring operations in the State. The Committee has also been assisting the District Committees and District Associations on a small scale to carry on experiments and demonstrations of improved agricultural implements.

The Education Committee.

110. Passing on to the work of the Education Committee, first-hand information was collected from both within and outside the State in regard to the accommodation, equipment, staff and curricula of Elementary Schools and Training Schools. Information was also collected regarding the successful working of the boarding establishments attached to the Poona and Ahmedabad Training Colleges for women. Notes on the various subjects assigned to the Committee were prepared by the Chairman, the Secretary and some of the members. A Bill for the introduction of Compulsory Education and a draft Grant-in-aid Code were also prepared. The subjects assigned for investigation were discussed at several meetings and final recommendations were submitted to the Conference for consideration. For the improvement and

extension of Primary Education, the Committee suggested the desirability of increasing the supply of trained teachers and the opening in the course of five years of one thousand new elementary schools. For the encouragement of female education, the appointment of an Inspectress of Schools, Model Middle Schools for girls with boarding establishments under the exclusive control of women teachers and Home Education Classes were suggested. For the spread of education among the backward classes, a central boarding school for pupils above the Third standard and a certain number of scholarships for pupils in the primary classes were suggested. In regard to the introduction of Compulsory Education, the Committee recommended the passing of a Regulation on the lines indicated in the Bill prepared by the Committee, and in the matter of the establishment of a local University for Mysore, the Committee recommended, as a preliminary step, the improvement of College Hostels and Libraries, the provision of Honours Courses, and the grant of Diplomas. In respect of such of these matters as were approved and submitted by the Conference, the Government have since passed orders generally approving of the proposals. A special grant of two lakhs of rupees has been provided in the current year's budget for the expansion of primary education, of which one lakh is for opening new schools and improving existing ones, and one lakh for school buildings. In addition, a provision of Rs. 5,000 for new schools and Rs. 50,000 for buildings have been included in the Village School Fund Budget. The Inspector-General has been asked to elaborate and submit detailed working proposals for the opening of additional Normal Schools, the improvement of education among the backward classes, the issue of diplomas in the two Colleges of the State, the improvement of the hostels and libraries attached to the Colleges and other kindred matters.

The Industries and Commerce Committee.

111. Lastly, with regard to the Industries and Commerce Committee, the Committee considered a large number of subjects referred to it by the Conference and the following industries are receiving attention, *viz.*, the improvement of silk and silk goods, tanning, hand-weaving, sandalwood-carving, lacquer-ware and manufacture of toys, and the manufacture of tiles. The most promising of these from the point of view of production of wealth in the State is the silk industry, the export of silk and silk goods in favourable years being valued at over a crore of rupees. On the recommendation of the Committee

supported by the Conference, Government sanctioned the purchase of shares of the maximum value of Rs. 60,000 in the Mysore Tannery Limited, with a view to encourage leather industry. Eight bulletins on various industrial and commercial subjects were issued under the auspices of the Committee. One of the first steps which the Committee considered necessary for the promotion of industries and commerce was the provision of suitable facility for financing local enterprise. With this view, the Committee recommended the starting of a State-Aided Bank, which was unanimously endorsed by the Conference. The matter is now under the consideration of Government.

Conclusion

112. Having thus conducted you over the varied fields of administrative activity in the State and drawn your attention to the more important measures which are ripe for your consideration or for the executive action of Government, I will conclude by expressing my satisfaction at the felicitous circumstances in which we meet here to-day. The rainfall has been copious and our irrigation reservoirs are full, with the result that the standing crops are thriving and promise an abundant harvest. We have indeed cause to be thankful to a bountiful Providence. I will now close my Address and ask you to proceed to a discussion of its various points of interest as well as of other subjects, which you may wish to bring forward under our rules of debate.

T. ANANDA ROW,
Dewan of Mysore.

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 6th November 1912.

K. DORASWAMI IYER,
Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

(1) Subject No. 222 of the Representative Assembly Proceedings of 1911, in regard to the usefulness of lantana and prickly pear as manure and the framing of a rule for the destruction of lantana and the reply of Government thereto.

(2) The following letter No. 332, dated 7th August 1912, from the Acting Officer in charge of the Agricultural Department reporting on the subject:—

With reference to your letter No. R. 438-39—L. R. 601-11-1, dated 23rd July 1912, I beg to state that in the case of lantana we are in a position to recommend that the shrubs may be cut and burnt and the ashes added to the farm yard manure heap or pit. In this way, the shrubs will have been got rid off and the value of manure will have been increased. It is true that in burning, the nitrogen is lost but there are comparatively simple ways of supplying this constituent. The two other plant foods suffer no appreciable loss and are all present in the ash.

2. As regards prickly pear, its manurial value has not been tested here nor anywhere else as far as I can see from the literature on the subject. In some places it seems to have been tried as fodder after burning off the spines with a special burner. In some parts of Mysore I have heard of its being used as a green manure for paddy land but only to a very limited extent. Before saying anything definitely, it would be therefore advisable to conduct some experiments in order to determine its manurial value, etc. I request that you will kindly inform me if in view of the above explanation a publication of a note as proposed may be delayed until the completion of the experiments on prickly pear.

3. With regard to the fly that is said to deposit its eggs in the seeds of the lantana and thus prevent its spread, it seems to me that the language of Dr. Koch is very guarded and not nearly so enthusiastic as when he is speaking of the parasite on the leaf-hopper of the sugarcane for instance. The present opinion seems to be distinctly against an importation of parasites to combat insect pests, one of the reasons being that it is not at all unusual for a parasite to acquire new habits with a change of environment. In any case, an introduction of a new parasite could only be made after long and careful research—something for which the present staff is inadequate.

4. I am writing by this mail to the Agricultural Department of Hawaii for full information regarding this fly and their experience.

CAMP NO. R. 40-5—L. R. 601-11-5, DATED MYSORE, 19TH OCTOBER 1912.

ORDER THEREON.—Recorded.

2. The result of the communication made by the Acting Officer in charge of the Agricultural Department with the Agricultural Department of Hawaii regarding the fly referred to in the letter read above is awaited.

K. R. SRINIVASIENGAR,
Officiating Secretary to Government, General and Revenue Departments.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Subject No. 12 of the Representative Assembly Proceedings of 1911, regarding the introduction of the Lantana Extirpation Act into the State and the reply of Government thereto.

CAMP NO. R. 46-50—L. R. 601-11-6, DATED MYSORE, 19TH OCTOBER 1912.

ORDER THEREON.—The question of introducing a Lantana Extirpation Act making it obligatory on pain of certain penalties on all landholders to keep their

lands clear of lantana is one which is attended with great practical difficulties. At any rate before resorting to legislation in the matter, Government consider it necessary that a full trial should be given to the rules contained in Government Order No. R. 3298-322—L. R. 508-09-2, dated 18th November 1910, by extending the scope of its operation to such places as are now badly infested with this plant pest. These rules were tentatively tried in selected hoblis of the taluks of Hunsur and Mulbagal. Government are accordingly pleased to direct that the concession sanctioned in Government Order just mentioned be extended to the Kadur, Hassan and Mysore Districts which are most infested with lantana.

2. The Deputy Commissioners of the above Districts are requested to submit a special report to Government at the end of every official year on the working of these rules in their districts.

K. R. SRINIVASIENGAR,
Officiating Secretary to Government, General and Revenue Departments.

To—The Revenue Commissioner in Mysore.
The Deputy Commissioners of Kadur, Hassan and Mysore Districts.

EMIGRATION.

RESOLUTION.

Simla, the 25th September 1912.

The following translation of Decree No. 1 of the 15th January 1912, issued by the President of the Republic of Costa Rica, is published for general information:—

"The immigration into the country of individuals of the cooly class is absolutely prohibited, and with regard to such individuals, the regulations laid down in Articles 2 and 3 of Decree No. 1 of the 10th June 1904 shall be brought into force."

"NOTE.—The regulations referred to in the abovementioned Decree (No. 1 of the 10th June 1904) were instructions to Captains of Ports to refuse admittance or permission to land to any individuals of prohibited races who might be on board any ship."

It has been ascertained from the Republican Government, that the term "cooly class" has been used in the decree as a synonym for "Hindu or Hindustani labourers."

Ordered that the foregoing statement be published in the supplement to the *Gazette of India* for general information, and that copies be forwarded to the Local Governments and Administrations named in the margin,* for information, with the request that the paper may be published in the local Gazettes.

EMIGRATION.

RESOLUTION.

Simla the 17*th September* 1912.

The following extract from a translation of an Ordinance regulating immigration into the Dominican Republic is published for general information :—

"*Article 2.*—The following classes of persons are prohibited from entering the territory of the Dominican Republic :—those suffering from any contagious disease; anarchists; those who are or have been insane or idiotic; those who are lame or crippled or for any other cause are unable to earn their living, unless they are accompanied by one or more persons who will vouch for them and agree to maintain them so long as they remain in the country. The Captain of any vessel bringing an immigrant such as is specified in this Article shall not only carry him back in the same vessel when making its return voyage, but shall be liable to a fine of one hundred pesos ($20·00 gold) for each such immigrant.

Article 3.—It shall be unlawful for natives of European Colonies in America and natives of Asia, Africa and Oceania, as also for the labouring classes of any races other than Caucasian, to enter the country unless they are in possession of a permit previously obtained. This permit must be obtained from the Executive Authority in the Republic who may refuse to grant it in any case unless convinced of the general usefulness of the immigrant. Any immigrant to whom this Article refers who arrives in the Republic without a previous permit shall be sent away in the same vessel in which he has come, and the Captain of the vessel shall be liable to a fine of one hundred pesos ($20·00 gold) for each such immigrant."

Ordered that the foregoing extract be published in the supplement to the *Gazette of India*, for general information, and that copies be forwarded to the Local Governments and Administrations named in the margin with the request that the paper may be published in the Local *Gazette*.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor actings contrary liable to have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be he ld by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the same will be his or her property for good.

7. Out of the money prizes won with the cups, a sum of rupees 15 and 10 respectively will be deducted to defray cost of a miniature facsimile cup to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze medals will be available for all classes and awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 1st February 1913 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited on Sunday.

School children will be admitted free on Sunday between 8 A.M. and 12 noon.

Group 4: articles such as garden seats, tubs, garden tables, jardinieres, etc.

CLASS VIII.—FLORAL PARADE.

COMMENCES AT 5-30 P.M.

	Rs.	Rs.	Rs.
Ladies' Decorated Bicycles ...	15	10	5
Grand Total ...	Rs. 1,076		

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor actings contrary liable to have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the same will be his or her property for good.

7. Out of the money prizes won with the cups, a sum of rupees 15 and 10 respectively will be deducted to defray cost of a miniature facsimile cup to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze medals will be available for all classes and awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 1st February 1913 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited on Sunday.

School children will be admitted free on Sunday between 8 A.M. and 12 noon.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes, separately, with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* produce of, or have been raised by, the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor actings contrary liable to have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public :—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists cup :—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup :—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup :—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the same will be his or her property for good.

7. Out of the money prizes won with the cups, a sum of rupees 15 and 10 respectively will be deducted to defray cost of a miniature facsimile cup to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze medals will be available for all classes and awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal :—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 1st February 1913 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

Vegetables will, if possible, be exhibited on Sunday.

School children will be admitted free on Sunday between 8 A.M. and 12 noon.

THE JOLA GRASSHOPPER.

An organised campaign was carried out against this pest in 1911 by the Agricultural Department in villages round Honnali and Chitaldrug where it threatened to do serious damage to the Jola crop. The pest was known to be prevalent in Malebennur, Davangere, Channagiri and Vijapur; but in these places, rain fell rather late in the season and by the time the hoppers emerged, the crop had not been sown, or if sown, had not come up. The hoppers were consequently mostly starved to death. The operations against this pest were for this reason not extended to these centres. As a consequence of the work of the Agricultural Department and the unfavourable season for the pest alluded to before, the number of the hoppers has decreased considerably and the infestation is small and scattered this year.

The conditions that operated against the multiplication of the pest last year were abnormal and cannot reasonably be expected to recur. When it is remembered that each female hopper can lay seventy-five eggs, it is easy to see that the comparatively small number of hoppers now left will multiply rapidly and that in a couple of years the pest will be as bad as ever it was. It is therefore of great importance that the hoppers now remaining should be collected and killed off to reduce the chances of a reappearance of the pest as far as possible. It is necessary to do this, of course, before the hoppers begin to lay eggs.

As the number of hoppers is not likely to be much above 1,000 per acre, they can be easily picked by hand or a hand-net may be used if the crop is not too high. A hand-net is merely a bag, the mouth of which is always kept open by a ring of cane or bamboo, about a foot in diameter. A handle is attached firmly to the ring, and the whole contrivance can be made at a cost of about 4 annas each. The hoppers can be killed by dropping them into water with a little kerosene oil.

Copies of the Kanada bulletin giving in detail the life history of the pest can be had free on application to the department.
